WALTER BADOCK,
Accountant-General.

subject to the observations contained in the annexed Report, it is correct.

H. A. COOPER,
Auditor.

Year 1914-15, *see* pages 60 and 61 of the Home Accounts presented in May 1915, No. 226.

No. 2.

REPORT of the AUDITOR upon the INDIAN HOME ACCOUNTS, from 1st April 1914 to 31st March 1915; prepared and submitted to Parliament and to the Secretary of State in Council in pursuance of the 27th Section of the Government of India Act, 1915.

1. It is necessary, in the first place, to offer some observations on my predecessor's Report on the Accounts of the previous year 1913–14.

Of the various sums surcharged or disallowed in that Report, all were adjusted prior to the 31st March 1915, with the exception of the following items, which were outstanding at that date, and must be again surcharged or disallowed:—

£	*s.*	*d.*	
38	4	0	*see* paragraphs 8 and 27 of last Report.
620	8	6	(part of 655*l.* 8*s.* 6*d.*), *see* paragraphs 10 and 27 of last Report.
129	9	10	*see* paragraphs 18 and 27 of last Report.
4	0	0	(part of 46*l.* 18*s.*), *see* paragraph 27 of last Report.

These amounts, with the exception of 274*l.* 2*s.* 6*d.* (part of 620*l.* 8*s.* 6*d.*), have now been adjusted.

2. Of the advances to the War Office mentioned in paragraph 3 of my predecessor's last Report, 13,750*l.* for experiments on mountain guns, and 9,171*l.* 7*s.* 1*d.* (part of 13,000*l.*) for carriages were unaccounted for on the 31st March 1915. The advance of 78,872*l.* 4*s.* 8*d.*, and also that of 2,000*l.* referred to in paragraph 25 of the last Report, have been adjusted.

3. The three questions in dispute with the War Office referred to in paragraph 4 of the last Report, and in preceding Reports, are still awaiting adjustment:—

(*a*) Excess payments to the War Office in 1907–08 for 13-pounder and 18-pounder equipment for the re-armament of the Artillery in India.

(*b*) Claim against the War Office on account of shortage of troops sent to India in 1907–08 and 1908–09.

(*c*) The insufficiency of the receipts for the Imperial share of the expenditure on Aden Defences.

These questions remain in the same position as at the date of the last Report, the further details asked for by the War Office in regard to (*c*) having not yet been furnished by the Government of India.

4. In paragraph 5 of last year's Report it was stated that agreement had been reached on the general principles which should guide the outstanding financial adjustments between the India Office and the War Office in connection with the new system of cash issues to soldiers for clothing, on which account advances have been made to the War Office at various dates. During 1914–15 a further advance of 25,000*l.* was made to that Department, and settlement has since been effected for the five years 1909–10 to 1913–14, resulting in the refund to the India Office of a sum of 4,618*l.* 15*s.* 9*d.* in respect of the advances referred to.

5. A reply has been received from India on the subject of the question raised in this Department (*vide* paragraph 8 of last Report) as to the inclusion of certain further items of expenditure in the annual moiety claims preferred against the Foreign Office in respect of Diplomatic and Consular Services in Persia.

Items representing an expenditure of about 330*l.* a year appear to have been omitted hitherto, but will be included in future claims.

6. In paragraph 11 of the last Report reference is made to questions raised in my Department as to the sufficiency of the amounts claimed from the Foreign Office in respect of a moiety of expenditure incurred in India in connection with (1) Lighting and Buoying the Persian Gulf, and (2) Surveying the Persian Gulf.

As a result of these questions further sums of about 600*l.* under (1) and 1,500*l.* under (2) have been included in claims against the Foreign Office. Recovery of the latter amount has been effected; as regards the former, correspondence on the claims is still proceeding.

7. The sum of 510*l.* due from the New Zealand Government (*vide* paragraph 12 of last Report) on account of the instruction of an Officer at the Indian Staff College, Quetta, has been duly credited to Indian Revenues.

8. The question referred to in paragraph 21 of the last Report relative to the additional cost of Gratuities thrown upon Indian Revenues by the transfer of men to the Army Reserve before completion of their full period of colour service has now been settled. As the available evidence tended to show that the treatment applied in India did not differ from that adopted at home, and that the scheme of premature transfer had been devised with regard to the needs of the Army as a whole, the Secretary of State in Council has decided that India must bear her full share of the liability involved.

---

9. I now proceed to report on the Accounts for 1914–15.

The surcharges and disallowances outstanding at the close of the year are shown at the end of the Report, paragraph 25. Those which seem to merit special comment are mentioned in intervening paragraphs.

RECEIPTS.

REVENUE:

Interest:

10. Interest realised from investment of Cash Balance - £79,968 14*s.* 11*d.*

This is the net amount received after deducting the Broker's commission.

11. Interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government - - £23,655 18*s.* 3*d.*

This amount includes 21,711*l.* 3*s.* 2*d.* in respect of instalments of interest, in accordance with an amortisation table, on account of loans advanced to the Persian Government in 1903 on the security of the Southern Customs. A further instalment of 1,973*l.* 14*s.* 10*d.* due in the month of March 1915 was received in the following month.

The remaining sum of 1,944*l.* 15*s.* 1*d.* consists of interest on the Indian moiety of the Anglo-Indian advances to the Persian Government during the years 1912, 1913 and 1914. The security for these loans is the surplus of the Southern Customs after provision has been made for the loan referred to above and the public loan of 1911. The amount due during the year was 14,111*l.* 19*s.* 8*d.* but, owing to insufficiency of receipts from the source referred to, payment of interest has been suspended.

MILITARY SERVICES:

Army-Effective:

12. Contribution by the Imperial Government - - £230,000 0*s.* 0*d.*

The total amount of relief to Indian Revenues recommended by the Report of the Royal Commission on Indian Expenditure, 1900, was 257,000*l.*

By arrangement between the India Office and the Treasury effect was given to this recommendation by the contribution referred to above, supplemented by the transfer to the Imperial Exchequer of certain charges previously borne by Indian Revenues.

Among the transferred charges was a subsidy of 10,000*l.* a year for the Zanzibar-Mauritius cable. This subsidy expired in November 1913 and my predecessor, *vide* paragraph 9 of his last Report, thereupon called attention to the fact that Indian Revenues were from that date relieved of 10,000*l.* a year less than the Royal Commission recommended.

In correspondence between the India Office and the Treasury, however, the latter Department maintained that, in view of the absence of any stipulation in the correspondence of 1900 with regard to a readjustment in the event of an alteration in the subsidy payment, and the fact that nothing was then known with certainty as to the future relations between the Governments and the Eastern Telegraph Company, the arrangement concluded between the two Departments must be regarded as a final settlement.

It has been decided by the Secretary of State in Council to take no further steps in the matter.

13. Indian Troop Service: Receipts from the Imperial Government, recoveries on account of messing, &c. - £935 12*s.* 4*d.*

Short credits amounting to 8,118*l.* 6*s.* 11*d.* due from the Imperial Government in respect of an interchange of troops and the conveyance of Imperial passengers in 1913–14, were not adjusted on the 31st March 1915, and must accordingly be surcharged, together with a sum of 123*l.* 17*s.* on account of queries raised in my Department.

DISBURSEMENTS.

Posts and Telegraphs:

14. Payments under the Postal arrangement with the Lords of His Majesty's Treasury - - - £54,588 0*s.* 0*d.*

This payment is subject to adjustment.

The question of the modification of the Indian liability in respect of the cost of the Mail Service consequent upon the re-assessment of the Australian contribution thereto (*vide* paragraph 13 of the last Report) remains in the same position as at the date of the last Report. The General Post Office, in a letter dated 23rd July 1915, stated that there is no prospect of obtaining at present complete statistics of the flow of correspondence between the various countries of the Postal Union.

General Administration:

15. Telegrams to India - - - - £6,884 18*s.* 8*d.*

I have raised a question as to the sufficiency of the recoveries effected from the Imperial Government in respect of telegrams relating to the war. The matter is still outstanding.

Political :

16. Sum placed at the disposal of the Secretary of State for India for Secret Service - - - - £600 0*s.* 0*d.*

The Secretary of State has furnished me with a certificate of the sum expended under this head during the year and of the balance in hand on the 31st March 1915. The certificate further states that the expenditure was necessary for the public service.

MILITARY SERVICES :

Army—Effective :

17. Payments to the Imperial Government on account of Disbursements by the War Office in respect of His Majesty's British Forces serving in India :—

	£	*s.*	*d.*	
For the year 1914–15 - -	930,700	0	0	
Less—Refund of over-payment :				
For the year 1912–13 - -	80	5	2	
				£930,619 14*s.* 10*d.*

The sum of 930,700*l.* represents the total advances for 1914–15.

These advances, which are in respect of a capitation rate payable on the total strength of the Indian Establishment to meet the cost of raising and training recruits for India, Deferred Pay and Gratuities, have hitherto been made subject to adjustment.

Under the terms of a Memorandum between the India Office and the War Office now in course of preparation (*vide* paragraph 24) it is proposed that the figure of 930,700*l.* shall be adopted finally for 1914–15 and each succeeding financial year during which the war may last.

The amount of 80*l.* 5*s.* 2*d.* refunded is in respect of over-payments for Deferred Pay and Gratuities disallowed in the last Report

18. Contribution towards the expenses during 1913–14 of His Majesty's Ships engaged in the suppression of the Arms Traffic in the Persian Gulf - - - £46,000 0*s.* 0*d*

This is a further advance to the Admiralty subject to adjustment.

The blockade came to an end on the outbreak of war in August 1914, and claims on account of expenditure to that date will be rendered by the Admiralty.

In paragraph 22 of the last Report reference was made to the claim up to 31st March 1911. Correspondence is still proceeding on questions raised in my Department relating to charges in respect of Depreciation of Ships and Pension Contributions of Petty Officers and men. The amount of 1,050*l.* on account of Pension charges for Officers referred to therein has been abated from the claim for the year to the 31st March 1912 which has recently been received and is now under examination.

19. Stores for India : Ordnance and Miscellaneous - - £479,480 16*s.* 5*d.*

This sum includes an advance of 30,500*l.* to the War Office, of which 28,709*l.* 9*s.* 9*d.* was unadjusted on the 31st March 1915.

Army—Non-Effective:

20. Payments to the Imperial Government on account of Retired Pay, Pensions, &c., of His Majesty's British Forces, for service in India:—
For the year 1914–15 - - - - £946,073 0*s.* 0*d.*

This sum is an advance subject to adjustment.

The advance of 936,664*l.* for the year 1913–14, referred to in paragraph 23 of last year's Report, has not yet been adjusted.

Marine—Effective:

21. Contribution towards the expenses of His Majesty's Ships employed in the Indian Seas, &c. - - - £100,034 1*s.* 8*d.*

It has been decided by the Secretary of State in Council that the question of the deficiencies for the year 1913–14 and previous years (*vide* paragraph 24 of last Report) in the complement of Royal Naval vessels, for which 100,000*l.* a year is paid by India, shall stand over until the end of the war.

During the war such deficiencies have been ruled out altogether.

CAPITAL OUTLAY ON RAILWAYS AND IRRIGATION AND OTHER WORKS:

Initial Expenditure on the New Capital at Delhi:

22. Salaries, passages, and allowances of architects and town-planning experts - - - - £13,110 10*s.* 5*d.*

This amount includes payments for architectural services made in this country on instructions from the Government of India. 479*l.* in respect of an over-payment on a similar item in the year 1913–14 to which attention was called in my Department has been recovered in the accounts for the year now under Report.

REMITTANCE ACCOUNT BETWEEN ENGLAND AND INDIA:

23. *Pay and Pensions chargeable to Native States, Local Funds, &c.* - - - - £7,650 3*s.* 6*d.*

As the result of a question raised in my Department it transpired that about 600*l.* a year on account of certain Marine Pensions which had been wholly charged to Indian Revenues should have been charged to Local Port Funds.

The above amount includes adjustments totalling 1,370*l.* 4*s.* 10*d.* in respect of these pensions in this and previous years.

24. *War expenditure in connection with the employment of Indian troops out of India.*

Section 55 of the Government of India Act, 1858, enacted that "Except for "preventing or repelling actual Invasion of His Majesty's Indian Possessions, or "under other sudden and urgent Necessity, the Revenues of India shall not, "without the Consent of both Houses of Parliament, be applicable to defray the "Expenses of any Military Operation carried on beyond the external Frontiers of "such Possessions by His Majesty's Forces charged upon such Revenues."

The necessary Resolutions agreeing that Indian Revenues should continue to bear the ordinary charges in respect of any troops employed out of India were passed by both Houses of Parliament on 16th September and 26th November 1914.

A Memorandum has been drawn up by the India Office and the War Office, and approved by His Majesty's Treasury, giving effect to these resolutions so far as the effective charges of the Expeditionary Forces are concerned. Memoranda are also being prepared relating to :—

(1) Pay and maintenance charges of troops withdrawn from India, but not forming part of the Expeditionary Forces, and of substituted troops.
Capitation Rate Payments, Deferred Pay and Gratuities.
Indian Troop Service charges.

(2) Non-effective charges.

The Memorandum already agreed to provides that the total expenditure on the Forces, in India and the Field and at the India Office, is charged to Army Votes, a credit in respect of the amount which the troops would have cost in normal circumstances being given to Army Funds in the accounts sent from India of recoverable expenditure incurred in that country. The amount of this credit for the period August 1914 to March 1915 is 1,970,670*l.*

Credit is also given in those accounts for the contributions made by certain Indian Native States towards the cost of the war, viz., 480,233*l.* for the period August 1914 to March 1915.

The estimate of normal cost has been prepared with great care by the Government of India and is now under consideration by the War Office, the amount of 1,970,670*l.* referred to above having been accepted provisionally by the Treasury, subject to any necessary readjustment in the accounts for 1915–16.

The recoverable war expenditure consists of :—

(*a*) that incurred in India and the Field, and
(*b*) that incurred at the India Office.

Advances are made from time to time by the War Office, and claims are subsequently furnished to that Department, the amounts of which are set off against the advances.

With regard to (*a*), the net amount for 1914–15, after deduction of the credits referred to above, is 9,418,168*l.* The accounts have been audited by officers of the Government of India in that country and in the Field, the Treasury having agreed to accept such audit subject to the proviso that questions of principle will be discussed between the War Office and the India Office. This expenditure does not come within my purview as Auditor of the Indian Home Accounts, but, in connection with the South African War, the China Expeditionary Force in 1900, and the Somaliland Campaign (1902–04) all the claims of recoverable expenditure sent home from India, together with the vouchers relating thereto, were examined in my Department with considerable advantage to Indian Revenues.

In March 1915, in consequence of the proposal subsequently agreed to that finally audited claims of war expenditure should be sent home unsupported by vouchers, the Secretary of State, after communication with the Government of India and the War Office, decided that it would be desirable that a member of my Department, who had had considerable experience in the examination of the claims and vouchers in connection with the campaigns referred to above, should be deputed to confer with the officers of the Government of India as to the best arrangements to be made in the interests both of the Imperial and Indian Governments, for ensuring that the claims should be properly prepared and scrutinised before despatch to this country. A member of the staff, now my Assistant, proceeded accordingly to India and collaborated with the Controller of War Accounts, reviewing decisions of incidence and drafting revised instructions for the adjustment and accounting of expenditure in connection with the Expeditionary Forces and other war services.

With regard to (*b*) the amount for 1914–15 is 694,643*l.* 19*s.* 10*d.* Vouchers in respect of this amount have been audited in my Department and certificates to that effect have been appended to the claims forwarded to the War Office. The Treasury have agreed to accept my audit of those claims the amount of which, under the arrangements explained in the foregoing paragraphs, is chargeable to Army Funds.

25. The following is a list of Surcharges and Disallowances on the Account for 1914–15.

Description and Amount of Item in the Account.	£ s. d.		Surcharge. £ s. d.		Disallowances. £ s. d.

INDIA AUDIT OFFICE,
10th April 1916.

H. A. COOPER,
Auditor.

No. 3.

REPORT of the AUDITOR of INDIAN HOME ACCOUNTS on the STORES ACCOUNTS from 1st April 1914 to 31st March 1915; prepared and submitted to Parliament and to the Secretary of State in Council, in pursuance of the 27th Section of the Government of India Act, 1915.

1. The number of Packing Accounts received back from India since the date of the last Report is as follows:—

0 for the year 1912–13, leaving 78 outstanding.
50 for the year 1913–14, leaving 216 outstanding.

2. In the year 1914–15, 11,024 Packing Accounts were sent to India, of which 241 are outstanding at the present date. These documents are the evidence of the due receipt of Stores in India, and the basis for recoveries of the value of short deliveries.

3. The loss of Government Stores *ex* "Clan Mackenzie" mentioned in paragraph 3 of the last Report, is still the subject of legal proceedings.

4. Of the vessels sunk by the "Emden" in the Indian Ocean the "Clan Matheson," "Chilkana" and "Clan Grant" were carrying Indian Stores.

Prior to the outbreak of war, in accordance with the usual Government practice, stores in transit to India were not insured. In the case of the "Clan Matheson," which sailed in July 1914, a loss of about 11,000*l.* therefore resulted.

In August 1914 it was decided to insure against both ordinary risks and war risks, with the result that recoveries amounting to 15,419*l.* were effected in respect of the stores conveyed in the "Chilkana" and "Clan Grant."

5. The practice of the India Office with regard to the purchase of stores from foreign firms has been to do so only in exceptional circumstances and after special consideration. In cases where such stores are not inspected prior to shipment 90 per cent. only of their value is payable, the remaining 10 per cent. being retained pending a satisfactory report as to delivery in India.

At the outbreak of war in August 1914 India Office Stores purchased on the Continent were on board the following German vessels:—

The "Barenfels" put in at Port Said, was taken as a prize to Alexandria, and subsequently proceeded to India. She had on board a span for the Sara Bridge (Eastern Bengal Railway), value 1,451*l.* 9*s.*, which has been delivered in India, but no payment in respect thereof has yet been made.

The "Huberfels" at Antwerp had on board 2 hand-lever splitting shears (and spares). The stores were re-ordered in this country and 122*l.* 8*s.*, being 90 per cent. of the cost already paid, has been written off.

The "Fangturm" is still refuging at Palma, Majorca. She had on board a printing machine value 281*l.* 11*s.*, of which 90 per cent. had been paid. This was re-ordered in England and the amount paid has been written off, but steps are now being taken to obtain delivery of the machine.

In the case of other German vessels which sheltered at Cagliari, Port Said, and Colombo, the voyages were subsequently resumed and the stores have been delivered.

INDIA AUDIT OFFICE,
10th April 1916.

H. A. COOPER,
Auditor.

No. 4.

SUMMARY of PAYMENTS in the Year 1914–15 for Stores procured for Shipment to India.

Head of Service.	Stores. £ s. d.	Freight. £ s. d.	TOTAL. £ s. d.

ARMY—NON-EFFECTIVE:					
Subscriptions towards Indian Military Service Family Pensions	38,000	37,695	—	305	
TOTAL RECEIPTS ON ACCOUNT OF REVENUE (Carried forward) £	763,500	682,742			

of the HOME TREASURY of the GOVERNMENT of *India*, for the Year 1914–15.

EXPLANATIONS OF INCREASE OR DECREASE.

1 The sums available for investment were much smaller than was estimated. The receipts for interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government were also 13,244*l.* less than the amount included in the Budget Estimate.

2 The Account includes 4,683*l.* from the Eastern Telegraph Company in respect of Traffic Balances owing to the War. On the other hand, the receipt from the Ottoman Government was less owing to the falling off in the Traffic *vid* Turkey.

3 The incidence of the cost of the reconstruction of the Arabistan Telegraph line was not settled when the Budget Estimate was prepared.

4 The Account represents an advance in respect of the amount recoverable for three years to 31st January 1915 under the Morley Award as applied to the whole of the Eastern Mail Service.

5 } Mainly due to the recall of Officers to duty owing to the War.
6 }

7 Mainly due to an increase of 1,633*l.* in the receipt on account of Diplomatic and Consular Services in Persia

8 Due, in part, to the advances by Army Paymasters in the Colonies, which are set off against the receipts in this country in respect of the Capitation Rate, being less than was expected when the Budget Estimate was framed, and, in part, to an anticipated increased charge to the War Office owing to reliefs taking place.

9 There was a decrease of 12,061*l.* in receipts on account of the Indian Troop Service owing to the cancellation of the programme of reliefs and to the postponement to 1915–16 of receipts estimated to fall in 1914–15; there was also a decrease of 5,061*l.* in the value of articles in the possession of Regiments on their transfer to the British Establishment, and there were small decreases under other sub-heads.

No. 6—Comparison of the Estimated and Actual Receipts and Disbursements

Receipts in respect of passages of Indian Students	—	2,189	2,189	—	28
	8,866,700	10,924,934			
Carried forward £	17,448,500	20,185,419			

of the Home Treasury of the Government of *India*, for the Year 1914–15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Budget Estimate provided for the renewal or replacement by fresh Capital of 2,630,900*l*. Debentures of the Assam-Bengal, Bengal-Nagpur, and Madras and Southern Mahratta Railway Companies, maturing within the year, and for the receipt of 550,000*l*. in respect of an issue by the Bengal-Nagpur Railway Company of 2,000,000*l*. Debenture Stock in January 1914. All the Debentures were renewed. The receipt in respect of the issue of Debenture Stock by the Bengal-Nagpur Railway Company was, however, 8,586*l*. more than the Estimate, and the Company also issued 1,000,000*l* Debentures which produced 998,750*l*.
2	Mainly due to an exceptional receipt from the Burma Railways Company in respect of rails sold in Burma.
3	No India Stock Loan was issued during the year, and there was only a small demand for Bills of Exchange and Telegraphic Transfers on India. India Sterling Bills for 7,000,000*l*. were, therefore, issued:—3,750,000*l*. for general purposes and 3,250,000*l*. for railway construction.
4	
5	Special transactions arising out of the War.
6	
7	
8	
9	
10	
11	
12	
13	Due to cancellation of leave owing to the War.
14	A recovery which was estimated to fall in 1914–15 was effected in April 1915.
15	The Account represents the part repayment by the War Office in respect of Stores intended to be shipped to India but taken over on the outbreak of war.
16	The Budget Estimate provided for the recovery of sums which it was expected would be paid during 1914–15. The erection of the Radio Offices was postponed.
17	The Budget Estimate provided for the recovery of sums which it was expected would be paid during 1914–15. But owing to the transfer of expenditure from 1913–14 to 1914–15, these sums were greater than was estimated.
18	Due to cancellation of leave.
19	The recovery of the amount due on this account was postponed.
20	Special transactions arising out of the War.
21	
22	The appropriation was made in order to repay within the year the temporary loan from Home Treasury Balances to meet reverse Bills and Transfers.
23	The Budget Estimate provided for short-dated securities maturing twice within the year. The decrease is mainly due to the appropriation of the proceeds of these Securities to meet reverse Bills and Transfers. (*See* Payment side.)
24	The gold was withdrawn to meet, in part, reverse Bills and Transfers.
25	Due mainly to the non-replacement of six-months' Bills. (*See* Note No. 23).
26	Exceptional receipts.
27	
28	These transactions could not be foreseen when the Budget Estimate was prepared.

	22,818,300	21,563,072			
TOTAL RECEIPTS £	40,266,800	41,748,491			

of the Home Treasury of the Government of *India*, for the Year ending 1914–15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1 2 3 4 5 6 7	Special transactions arising out of the War.
8	The earlier accounts received for 1914–15 showed a considerable reduction in the payments compared with the previous year. It was deemed desirable, therefore, to ask for a smaller advance from the Imperial Government than appeared probable when the Budget Estimate was prepared.
9	It was anticipated that a separate receipt on account of the Sea Transport of Troops on return to India would occur in 1914–15, but any amount due on this account will now be included in the general charge for hire of transports in connection with the War.
10	An advance on this account was made by the Imperial Government in April 1915.
11	Due to the movement of troops consequent on the outbreak of war.
12	Information as to the cost of the Commission was not available when the Budget Estimate was prepared.
13	The recovery of the amount due on this account was postponed.
14	Mainly due to the decrease in Money Orders issued in the Colonies owing to the War.
15	There was an increase of 44,200*l.* in the receipts on account of African Protectorates, and of 191,484*l.* in respect of supplies to His Majesty's Ships. On the other hand, there was a decrease of 46,872*l.* in the receipts on account of Emigration of Coolies. There were also variations under other sub-heads.
16	The Budget Estimate was based on the average of previous years. The Account includes remittances in respect of a large Estate.
17	Mainly due to exceptional receipts from underwriters in respect of Stores lost in transit to India.
18	Exceptional receipt.
19	Due to refund of amounts issued to the Company for payment to foreign firms, and to recoveries in respect of insured stores per "Clan Grant" which was sunk by the German cruiser "Emden."
20	The Budget Estimate represented 750,000*l.* in respect of a contemplated issue, which did not take place, of new 3½ per cent. Capital, and 500,000*l.* as the replacement by fresh Capital of Debentures maturing. The Debentures were renewed, and the Account represents the amount received for the issue of 2,318,248*l.* new 4 per cent. Debenture Stock.
21	Due to exceptional receipts from underwriters in respect of Stores lost in transit to India.
22	The Account includes 20,966*l.* in respect of the sale proceeds of opium, and other exceptional receipts.
23	Exceptional receipt.
24	The amount was withdrawn in view of the falling off in the demand for Bills and Transfers on India.
25	Due to (*a*) the absence of a market for Council drafts owing to the adverse trade and monetary conditions created by the War, and (*b*) the inability of the Government of India to meet the Secretary of State's drawings owing to the severe depletion of their balances by heavy withdrawals of Savings Bank deposits in and after August 1914, by heavy unforeseen military expenditure in India caused by the War, and by the falling off in revenue, especially under Railways and Customs.

Carried forward £	3,030,200	2,957,048			

of the Home Treasury of the Government of *India*, for the Year 1914-15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The demands were greater than was indicated in the forecasts received from India.
2	The demands were less than was indicated in the forecasts received from India.
3	Due to payments which it was expected would have been made in 1913-14.
4	Mainly due to a recovery consequent on a revision of the contract for stamps as from 1st January 1913.
5, 6	The demands were greater than was indicated in the forecasts received from India.
7	The demands were less than was indicated in the forecasts received from India.
8	The Account includes 232,268*l.* in respect of the discount on 4,500,000*l.* twelve months' and 2,500,000*l.* six months' India Sterling Bills. On the other hand, the Budget Estimate included 131,200*l.* for three quarters' interest on a contemplated issue, which did not take place, of 5,000,000*l.* India 3½ per cent. Stock, and the amounts transferred to "State Railways—Interest on Debt," and to "Irrigation : Major Works—Interest on Debt," were respectively 63,597*l.* (67,888*l.* on non-specific debt—4,291*l.* Indian Midland Railway), and 4,479*l.* more than was estimated. (*See* explanations under those heads.)
9	The Budget Estimate included payments in respect of a Sinking Fund to be created in connection with an estimated Loan of 5,000,000*l.* India 3½ per cent. Stock which was not issued.
10	Due to the diversion of traffic owing to the War.
11	There was an increase of about 3,500*l.* in the demands for Stores. On the other hand, the sum of 3,000*l.* included in the Budget Estimate in respect of the Indian moiety of the cost of erecting Radio Offices in the Persian Gulf was not spent.
12	The revision of the incidence of the subsidy between the various administrations concerned did not take effect during the year, as was anticipated.
13	The payments on this account were included in the Budget Estimate under "Civil Furlough and Absentee Allowances."
14	Due to the postponement of the erection of the Station.
15	Due to an increase in Absentee Allowances.
16	Due to the postponement of payments to 1915-16.
17	The demands were greater than was indicated in the forecasts received from India.
18	There was a decrease of 6,656*l.* under Management of Debt, mainly owing to the contemplated issue of an India Stock Loan not taking place, and there were small decreases under several other sub-heads. On the other hand, there was an increase of 2,572*l.* under Salaries, and of 3,385*l.* under Telegrams to India.
19	Mainly due to an expected payment for a new edition of Moore's "Family Medicine for India" not falling within the year.
20	Mainly due to a special payment for Currency Notes in March 1915 which would in the usual course have been made in 1915-16.
21	The demands were greater than was indicated in the forecasts received from India.
22	The payment to the Committee for Plague Investigation in India was 4,000*l.* less than the amount included in the Budget Estimate, and there was a decrease in the payments to Officers on Study Leave.

Carried forward	£ 14,879,500	14,910,157			

of the Home Treasury of the Government of *India*, for the Year 1914-15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	Mainly due to expenditure arising out of the Turco-Persian Frontier Commission for which no provision was made in the Budget Estimate.
2	Due to payments, which it was expected would have been made in 1913-14, for stores required for lighting and buoying the Persian Gulf, the Indian moiety of which is included under this head.
3	Mainly due to a decrease in the payments in connection with the Literary Grant.
4	The demands were less than was indicated in the forecasts received from India.
5	Due to the recall of Officers to duty owing to the War. The Budget Estimate, moreover, included payments which in the Account appear under " Posts."
6	There was an increase of 18,809*l.* in the payments in respect of pensions of Officers of the Uncovenanted Service partly owing to commutations of pensions. On the other hand, there was a decrease of 4,726*l.* in Home Service Pensions and there were also decreases under other sub-heads.
7	The payments under Military and Medical Funds decreased more rapidly than was expected.
8	The payments did not increase as was expected.
9	The demands were greater than was indicated in the forecasts received from India.
10	The account includes 9,171*l.* for passages to India of Civil Officers recalled to duty prior to the expiration of their leave On the other hand, there were decreases under other sub-heads.
11	There was an increase of 9,465*l.* in refunds to Contractors of fines incurred in providing stores, and the Account includes 31,157*l.* for Marine Insurance owing to the War in respect of stores chargeable to Revenue heads, but there was a net decrease of 1,124*l.* in the payments for commission on freight, lighterage, and other miscellaneous charges.
12	The demands were less than was indicated in the forecasts received from India.
13	The Budget Estimate included 85 days' interest on India 3½ per cent. Stock, which it was estimated would be necessary to raise to redeem 500,000*l.* India Bonds, part of amount issued in October 1910, to discharge liabilities of the Company taken over on purchase of the Undertaking. As no Permanent Debt was raised during the year, the Bonds were treated as having been discharged out of Treasury Balances and their proceeds, 496,992*l.* 2*s.* 2*d.*, added to State Outlay in India for adjustment of interest there.
14	The Budget Estimate represented one year's interest at 3·2770 per cent. (the estimated rate for 1913-14) on 53,480,373*l.* (49,126,073*l.* the total expenditure to 31st March 1913 + 3,033,600*l.* the Revised Estimate for 1913-14 + 1,320,700*l.* moiety of the Budget Estimate for 1914-15). The Account is one year's interest at 3·4132 per cent. (the ascertained rate for 1914-15) on 53,336,690*l.* (52,124,660*l.* the total expenditure to 31st March 1914 + 1,212,030*l.* moiety of the actual expenditure during 1914-15).
15	Due to the renewal of Debentures at lower rates of Interest than was estimated.
16	Of the increase 17,500*l.* represents one-half year's interest on 1,000,000*l.* 3½ per cent. Debentures, the issue of which was not provided for in the Budget Estimate, and 2,500*l.* was due to renewal of Debentures at higher rates of interest than was estimated. On the other hand, certain Debentures were renewed at a lower rate of interest than was expected.
17	Due to the renewal of Debentures at a lower rate of interest than was estimated.
18	The Budget Estimate included 13,100*l.* in respect of a half-year's interest on a contemplated issue, which did not take place, of 750,000*l.* new 3½ per cent. Capital. The Account includes 46,365*l.* for a half-year's interest on 2,318,248*l.* new 4 per cent. Debenture Stock.

of the Home Treasury of the Government of *India*, for the Year 1914–15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Budget Estimate represented one year's interest at 3·2770 per cent. (the estimated rate for 1913–14) on 3,690,041*l*. (3,591,841*l*. the total expenditure to 31st March 1913 + 74,700*l*. the Revised Estimate for 1913–14 + 23,500*l*. moiety of the Budget Estimate for 1914–15). The Account is one year's interest at 3·4132 per cent. (the ascertained rate for 1914–15) on 3,673,353*l*. (3,650,636*l*. the actual expenditure to 31st March 1914 + 22,717*l*. moiety of the expenditure for 1914–15).
2	No forecast was received from India. The Account represents payments in respect of indents received during the year.
3	Due to the recall of Officers to duty owing to the War.
4	The demands were greater than was indicated in the forecasts received from India.
5	The War Office estimate of the amount due for the year proved to be higher than was expected.
6 8	Due to the recall of Officers and others to duty.
7	The Budget Estimate was framed in respect of services during the ordinary Trooping season of 1914–15, whereas the programme of reliefs was cancelled. The Account represents advances to the War Office to meet additional liabilities for five years to 31st March 1914.
9	The Account represents balance payments for the Trooping season of 1913–14, and the cost of hired Transports engaged, on the outbreak of war, to convey to India Officers recalled to duty.
10	Due to the recall of Officers to duty.
11	The Account includes 12,000*l*. for the purchase of mules for which no provision was made in the Budget Estimate.
12	The Account includes 21,032*l*. for compensation to Muscat arms dealers, which it was expected would have been paid in March 1914. On the other hand, the payment in respect of the contribution to the cost of His Majesty's Ships employed in the suppression of the Arms Traffic in the Persian Gulf was 18,000*l*. less than was estimated.
13	Exceptional expenditure.
14	The demands were greater than was indicated in the forecasts received from India.
15	Due to expenditure on Schedule Measures being in abeyance, and to the postponement of payments to 1915–16.
16 17	The demands were less than was indicated in the forecasts received from India.
18	Due to an increase in the cost of Stores.
19	The demands were greater than was indicated in the forecasts received from India.
20	*See* Note No. 7.
21	Due to the cancellation of the programme of reliefs for 1914–15.
22	The Budget Estimate did not make a sufficient allowance for the decrease in Colonels' Allowances.
23	The Account includes 14,387*l*. for gratuities to, and also payments on account of special pensions granted to, the widows and families of Officers killed in action.
24	Due to payments on account of Pensions to the widows and families of Officers who died on active service.
25 26	Due to the recall of Officers to duty.
27	Due to the postponement of expenditure to 1915–16.
28	The payments did not increase as was estimated.
29	The payments decreased more rapidly than was anticipated.
30 31	The demands were greater than was indicated in the forecasts received from India.
32	The demands were less than was indicated in the forecasts received from India.

of the Home Treasury of the Government of *India*, for the Year 1914–15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1 2 3 4	The net decrease was due in part to modifications in the English grant, and in part to the instructions issued at the outbreak of the war with regard to the letting of indents.
5	Due to expenditure which it was expected would have fallen in 1913–14.
6	Due to the postponement of payments to 1915–16.
7 8	The payments were less than was indicated in the forecasts received from India.
9	All the Debentures were renewed instead of being paid off and replaced by fresh Capital.
10	The increase was mainly due to transfers from the Indian to the English grant.

of the Home Treasury of the Government of *India*, for the Year 1914–15—*continued.*

	EXPLANATIONS OF INCREASE OR DECREASE.
1 2 3 4 5 6 7 8 9	In respect of special transactions arising out of the War.
10	Exceptional transaction.
11	Due to the postponement of the erection of the Radio Offices.
12	The increase represents payments which it was expected would have been made in 1913-14.
13	Due to the cancellation of leave.
14	The Account represents a payment which it was expected would have been made in March 1914.
15	The Account mainly represents payments on Indents received in previous years.
16	It was not possible to estimate this expenditure when the Budget Estimate was prepared
17 18	Recoverable payments arising out of the War.
19	The demand for reverse Bills and Transfers could not be foreseen when the Budget Estimate was framed.
20	The Budget Estimate provided for the renewal of all Securities maturing within the year. Owing, however, to the demand for reverse Bills and Transfers, no investments were made after July 1914.
21	The Budget Estimate provided for the deposit of all dividends and discount received during the year. It proved necessary, however, to retain amounts falling due after July 1914 in order to meet reverse Bills and Transfers. On the other hand, before the outbreak of War, securities were sold from the proceeds of which 150,000*l.* was added to the deposit of Gold.
22 23	These transactions could not be foreseen when the Budget Estimate was prepared.

India Office,
19th August 1915.

of the Home Treasury of the Government of *India*, for the Year 1914–15—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	
2	
3	
4	
5	
6	Special transactions due to the outbreak of war.
7	
8	
9	The Account includes 193,107*l.* in respect of the allotments of pay, &c., of Officers with Expeditionary Forces. On the other hand, there was a decrease of 5,180*l.* in the Family Remittances of soldiers in India.
10	The Remittances were less than was anticipated owing to the War.
11	The Budget Estimate was based on the average of previous years. The Account includes remittances in respect of a large Estate.
12	The increase was due to a transfer from the Indian to the English grant.
13	Due to the postponement of the letting of contracts.
14	Due to transfers from the Indian to the English grant.
15	
16	The Debentures were renewed.
17	Due to the delay caused by the War in the supply of materials, and to the postponement of the letting of contracts.
18	The increase was due to the receipt of indents in excess of the Indian forecasts especially in respect of Stores for Public Works and Provincial Railways.
19	No forecast was received from India. The Account represents payments on account of Indents received during the year.
20	The demands were greater than was indicated in the forecasts received from India.
21	Mainly due to the request from India for a special supply.
22	
23	Exceptional transactions arising out of the War.
24	
25	There was a decrease of 16,000*l.* in the payments on account of Bills drawn by the Mission to the Court of Persia. The Account, however, includes many exceptional payments which could not be foreseen when the Budget Estimate was framed

WALTER BADOCK, *Accountant-General.*

WALTER BADOCK,
Accountant-General.

ubject to the observations contained in the annexed Report, it is correct.

H. A. COOPER,
Auditor.

ear 1915-16, *see* pages 70 and 71 of the Home Accounts presented in May 1916, No. 70.

No. 2.

REPORT of the AUDITOR upon the INDIAN HOME ACCOUNTS, from 1st April 1915 to 31st March 1916; prepared and submitted to Parliament and to the Secretary of State in Council in pursuance of the 27th Section of the Government of India Act, 1915.

1. It is necessary, in the first place, to offer some observations on my Report on the Accounts of the previous year 1914–15.

Of the various sums surcharged or disallowed in the last Report, all were adjusted prior to the 31st March 1916, with the exception of the following items, which were outstanding at that date, and must be again surcharged or disallowed:—

£	*s.*	*d.*	
274	2	6	*see* paragraph 1 of last Report.
123	17	0	(part of 8,242*l.* 3*s.* 11*d.*), *see* paragraphs 13 and 25 of last Report.
29	15	3	(part of 145*l.* 7*s.* 5*d.*), *see* paragraph 25 of last Report.
76	13	7	(part of 157*l.* 17*s.* 11*d.*), *see* paragraph 25 of last Report.
3	16	6	*see* paragraph 25 of last Report.
12	6	8	(part of 23*l.* 6*s.* 8*d.*), *see* paragraph 25 of last Report.
14	0	0	*see* paragraph 25 of last Report.

These amounts, with the exception of the sum of 274*l.* 2*s.* 6*d.* were adjusted during the year 1916–17.

2. The outstanding advances to the War Office mentioned in paragraph 2 of the previous Report, viz., 13,750*l.* for experiments on mountain guns, and 9,171*l.* 7*s.* 1*d.* for carriages, also 28,709*l.* 9*s.* 9*d.* referred to in paragraph 19, remained unaccounted for on the 31st March 1916.

3. The three questions in dispute with the War Office referred to in paragraph 3 of the last Report, and in preceding Reports, are still awaiting adjustment:—

(*a*) Excess payments to the War Office in 1907–08 for 13-pounder and 18-pounder equipment for the re-armament of the Artillery in India.

(*b*) Claim against the War Office on account of shortage of troops sent to India in 1907–08 and 1908–09.

(*c*) The insufficiency of the receipts for the Imperial share of the expenditure on Aden Defences.

These questions remain in the same position as at the date of the last Report.

4. The claim of about 600*l.* on the Foreign Office resulting from a question raised in my Department as to the sufficiency of the amounts recovered in respect of Lighting and Buoying the Persian Gulf (*see* paragraph 6 of the last Report) has been admitted and the amount credited to Indian Revenues.

5. I now proceed to report on the Accounts for 1915–16.

The surcharges and disallowances outstanding at the close of the year are shown at the end of the Report, paragraph 22.

RECEIPTS.

REVENUE:

Interest:

6. Interest realised from investment of Cash Balance - £93,458 4*s.* 8*d.*

This is the amount received in respect of loans to the Bank of England. No loans of any other kind were made during the year under review.

7. Interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government - - £31,348 19*s.* 10*d.*

This amount includes 21,904*l.* 2*s.* 2*d.* in respect of instalments of interest on the 1903 loans, in accordance with the amortisation table referred to in paragraph 11 of the last Report (2,285*l.* 8*s.* 7*d.* on account of repayment of principal is brought to account under "Deposits and Advances"). A further instalment of 879*l.* 2*s.* 11*d.* due in the month of March 1916 was received in the following month.

The remaining sum of 9,444*l.* 17*s.* 8*d.* consists of interest for 1914–15 on the joint loans made by the Indian and Imperial Governments to the Persian Government in 1912, 1913 and 1914. The moiety of this interest due to the Imperial Government was paid in April 1916.

The amount due to India for 1914–15 was 14,111*l.* 19*s.* 8*d*, of which 1,944*l.* 15*s.* 1*d.* was brought to account during that year (*see* last Report). This amount added to the moiety of 9,444*l.* 17*s.* 8*d.* = 6,667*l.* 3*s.* 11*d.*, leaving 7,444*l.* 15*s.* 9*d.* still outstanding for 1914–15, together with the whole amount for 1915–16, viz., 14,700*l.*

The amount due to Indian Revenues on 31st March 1916 was accordingly 22,144*l.* 15*s.* 9*d.*

DEPOSITS AND ADVANCES:

8. Enemy ships employed under the control of the India Office:—

Receipts - - - -	£309,000 10*s.* 4*d.*
Payments - - - -	£188,461 7*s.* 8*d.*

These amounts represent the transactions brought to account up to the 31st March 1916 as a result of the working of 12 German vessels which were detained in Indian ports at the outbreak of war and were transferred to the management of the India Office at various dates from the 1st June 1915.

Prior to the transfer they were under the control of the Director, Royal Indian Marine, and the transactions pertaining thereto, so far as they have been dealt with in this country, are as follows:—Receipts, 514,951*l.* 16*s.* 10*d.*; Payments, 219,876*l.* 8*s.* 8*d.* (*see* Remittance Account, pp. 26 and 27); and Payments, 24,989*l.* 16*s.* 1*d.* in the year 1914–15.

In addition to commercial voyages, some of the vessels have been employed to carry mules from Buenos Ayres for the Government of India. Others have been engaged on service for the Admiralty to the Mediterranean, Egypt, and Mesopotamia, but no adjustments have yet been made with that Department.

The number of vessels originally concerned was 13. One, however, was lost off Cape Spartel in March 1915, and a recovery of 90,000*l.* from the underwriters is included in the figures. Another, carrying a cargo of Government wheat, went aground off Aden in August 1915, and an advance of 9,000*l.* by the underwriters, on account of the expenses incurred in making good the damage, is also included. The average adjustment statement recently completed shows that a further sum of 4,467*l.* is recoverable.

One of the vessels, whilst proceeding on Admiralty service, was torpedoed by a German submarine in February last. The fleet, accordingly, now consists of 11 vessels.

The payments also include certain items pertaining to prize vessels under the provisional management of the Director, Royal Indian Marine, but now transferred to the control of the Oversea Prize Disposal Committee to whom the credit balances are being handed over. These items, together with others of general expenditure, may prove to be chargeable to that Committee.

REMITTANCE ACCOUNT BETWEEN ENGLAND AND INDIA:

9. Hire of Transports on behalf of the Commonwealth of Australia - - - - £850,000 0*s.* 0*d.*

This amount represents advances made in this country by the Commonwealth of Australia in respect of certain transports chartered by the Government of India in connection with the Indian Expeditionary Forces and lent to the Australian Government for the transport of their troops. Detailed accounts are furnished from India giving particulars of the charges for hire, coal, &c., and the amounts thus accounted for are set off against the advances.

The Indian statements are not fully audited in my Department as the expenditure is incurred in India and does not come within my purview as Auditor of the Home Accounts, but all claims of this kind are sent to me to be noted, and on one of these claims I raised a question as to the sufficiency of the amounts included for the hire of two transports. The point was referred to India with the result that an additional amount of about 13,000*l.* was included in a later claim.

10. Purchase and sale of wheat - - - £6,303,881 3*s.* 1*d.*

This amount represents the proceeds of the sale of wheat shipped to this country in 1915 under the scheme set up by Government for the regulation of the Indian wheat export trade.

The accounts are kept partly in India and partly in this country, the payments in England during 1915–16 amounting to 3,267,498*l.* 16*s.* 11*d.* A statement showing all the transactions in both countries will be appended to the Secretary of State's accounts for next year.

Under the arrangement made between the Treasury and the India Office any profit resulting from the scheme will be credited to Indian revenues.

11. Sale of opium - - - - - £107,765 15*s.* 9*d.*

In 1913 and 1914 investigations were made as to the possibility of opening up a market in Europe and America for Indian Opium to be used for medicinal purposes. Samples were sent from India and subjected to analysis, the results showing that the opium contained the necessary percentage of morphia.

The entrance of Turkey into the sphere of hostilities and the consequent cessation of imports of opium from that country made a new source of supply imperative. Early in 1915 200 chests were sent from India and consignments have since been sent regularly.

The amount realised by the sale of 1,000 chests sent home during 1915-16—after deducting agents' commission and the usual trade discount—was £107,765 15*s.* 9*d.*

DISBURSEMENTS.

EXPENDITURE:

Posts and Telegraphs:

12. Payments under the Postal arrangement with the Lords of His Majesty's Treasury - - - £42,713 0*s.* 0*d.*

This amount is made up as follows:—	£	*s.*	*d.*
Advance subject to adjustment - - - -	54,588	0	0
Less—on account of the discontinuance of sorting mails at sea from 1st September 1914 at 7,500*l.* per annum -	11,875	0	0
	£42,713	0	0

The question of the modification of the Indian liability in respect of the cost of the Mail Service consequent upon the re-assessment of the Australian contribution thereto (*vide* paragraph 14 of the last Report) is not yet finally adjusted.

The General Post Office, however, in addition to the instalment of 30,000*l.* paid to the account of the Secretary of State in the previous financial year in respect of the period 1912–15, has now paid a further instalment of 20,000*l.* on the same account.

Owing to a controversy with the Peninsular and Oriental Steam Navigation Company as to the date from which, under the terms of their Contract, an adjustment should be made in respect of the discontinuance of sea-sorting, the above deduction of 11,875*l.* has been cancelled in the year 1916–17 pending settlement of the matter.

General Administration:

13. Telegrams to India - - - - £6,806 14*s.* 0*d.*

The question raised by me, and referred to in last year's Report (paragraph 15), as to the sufficiency of the recoveries effected from the Imperial Government in respect of telegrams relating to the war is not yet settled.

Political:

14. Sum placed at the disposal of the Secretary of State for India for Secret Service - - - - £1,700 0*s.* 0*d.*

The Secretary of State has furnished me with a certificate of the sum expended under this head during the year and of the balance in hand on the 31st March 1916. The certificate further states that the expenditure was necessary for the public service.

MILITARY SERVICES:

Army—Effective:

15. Payments to the Imperial Government on account of Disbursements by the War Office in respect of His Majesty's British Forces serving in India:—

	£	*s.*	*d.*	£	*s.*	*d.*
For the year 1915–16 - - -				930,700	0	0
Less—Refund of over-payments:						
For the year 1911–12 - -	30	12	0			
„ „ 1912–13 - -	98	17	10			
„ „ 1913–14 - -	1,319	15	10			
				1,449	5	8
				£929,250	14	4

The sum of 930,700*l.* represents provisionally the charge for 1915–16.

The Memorandum referred to in last year's Report, in which it is proposed that the figure of 930,700*l.* shall be adopted finally for 1914–15, and each succeeding financial year during which the war may last, is still the subject of negotiation between the India Office and the War Office.

The refunds of 30*l.* 12*s.* and 98*l.* 17*s.* 10*d.* = 129*l.* 9*s.* 10*d.* are in respect of over-payments for Deferred Pay and Gratuities disallowed in the last Report (*see* paragraph 1).

The Army effective charge against India for 1913-14 was as follows:—

	£	*s.*	*d.*
Advances to the War Office in 1913-14 - -	924,380	8	8
Less—Refund in 1915-16 (*see* above) - -	1,319	15	10
	£923,060	12	10

Viz., Capitation Rate on the average number of officers and men of the Imperial Army in India, calculated on the establishment strength of the units actually in India:—11*l.* 8*s.* per man on 75,582 officers and men -	£ 861,634	*s.* 16	*d.* 0
Deferred pay chargeable to India - - -	14,054	18	8
Gratuities on death, discharge, &c., under the Pay Warrant: 35·45 per cent. chargeable to India -	47,370	18	2
	£923,060	12	10

I have to report that during the year 1913–14 the Indian Establishment was not maintained at its proper strength. The shortage of troops sent to India will be dealt with in connection with the outstanding question of shortage in 1907–08 and 1908–09, *vide* paragraph 3.

16. Indian Troop Service - - - - £556,903 18*s.* 2*d.*

In paragraph 24 of last year's report reference was made to a Memorandum in course of preparation relating (*inter alia*) to Indian Troop Service charges.

Under the terms of this Memorandum it is agreed that India shall bear a fixed annual charge for trooping during the period of the war, payment being made to the War Office of the difference between the expenditure incurred in this country and in India and the contribution agreed on. The actual amount of this contribution, which will be based on an estimate of the average normal cost, is at present the subject of negotiation between the India Office and the War Office.

The above amount of 556,903*l.* 18*s.* 2*d.* includes 542,300*l.* in respect of advances on this account for the years 1914–15 and 1915–16, subject to adjustment when the details have been agreed on.

17. Further contribution towards the expenses during 1911–12 of His Majesty's ships engaged in the suppression of the arms traffic in the Persian Gulf - - - £9,000 0*s.* 0*d.*

The amount expended by the Admiralty in 1911–12 on this account was 74,309*l.*, in respect of which 64,000*l.* was advanced in March 1913. The advances made in March 1911, 1912, and 1913, together with the 9,000*l.* now paid, approximate to the amount expended by the Admiralty from the commencement of the blockade in 1910 up to the 31st March 1912.

Claims from 1st April 1912 to August 1914, when the blockade ended, are still to be rendered by that Department, advances on account amounting to 105,000*l.* having been made in March 1914 and 1915.

Of the two outstanding questions referred to in paragraph 18 of my last report the one relating to Depreciation has been withdrawn, and the other relating to Pension Contributions of Petty Officers and men is still the subject of correspondence with the Admiralty.

18. Stores for India: Aviation - - - - £60,000 0*s.* 0*d.*

This amount is an advance to the War Office, subject to adjustment.

Army—Non-Effective:

19. Payments to the Imperial Government on account of Retired Pay, Pensions, &c., of His Majesty's British Forces, for service in India:—	£	*s.*	*d.*
For the year 1915–16 - - - - -	946,073	0	0
Less—Contribution towards War Pensions and Gratuities of Indian Soldiers:—			
For the year 1914–15 - - - £1,600			
For the year 1915–16 - - £80,000			
	81,600	0	0
	£864,473	0	0

The sum of 946,073*l.* is an advance subject to adjustment.

The advances of 936,664*l.* for 1913–14, and 946,073*l.* for 1914–15, referred to in paragraph 20 of last year's Report, are still unadjusted, the Memorandum relating to Non-effective charges (*see* paragraph 24 of last Report) having not yet been prepared.

The sum of 81,600*l.* represents the estimated amounts payable by the War Office for the family, wound and injury pensions or gratuities attributable to the war in respect of Indian Troops, and the pensions and gratuities payable in India in respect of British Troops.

Three retired officers of the Royal Engineers whose pensions are borne partly by Indian and partly by Imperial Revenues have been employed by the Imperial Government on the Ordnance Survey during the war. The remuneration paid is less than the ordinary rate allowed for the duties performed owing to the fact that the officers are in receipt of pensions. The question whether the "saving" resulting from the employment of these officers should not be shared by the two Governments, in proportion to the pension charges borne respectively by them, is the subject of correspondence between the India Office and the Treasury.

REMITTANCE ACCOUNT:

20. Additional Troops lent for service at Hong Kong in 1912 £7,637 5*s.* 8*d.*

This amount represents a repayment to the War Office (subject to adjustment) in respect of advances made by that Department on account of Indian Troops sent to Hong Kong in 1912.

Claims for amounts expended in India are sent from that country periodically for adjustment with the War Office. Questions were raised by me as to the non-inclusion in these claims of items on account of rail charges, passages and pay. As a result supplementary claims were made amounting to about 4,400*l.*

21. *War expenditure in connection with the employment of Indian Troops out of India.*

Advances of 17,378,273*l.* on this account have been made by the War Office subject to adjustment. The actual net expenditure in India and the Field during 1915–16 was 15,831,458*l.* and was arrived at, in accordance with the terms of the Memorandum referred to in paragraph 24 of my last year's report, by deducting from the gross expenditure 5,570,320*l.*, representing the cost to Indian Revenues in normal circumstances of the troops sent abroad, and 338,644*l.* in respect of contributions by certain Indian Native States. Further amounts have been paid to Imperial Revenues during the year, viz., 96,750*l.*, subscribed by residents in the Punjab for a fleet of armoured aeroplanes, 1,500*l.* presented by the Maharaja (Sindhia) of Gwalior, for the purchase of binoculars, and 68,747*l.* 6*s.* 8*d.*, presented by Indian Princes and others for motor ambulances and aircraft.

The credit of 5,570,320*l.* in respect of the normal cost of troops referred to above, is provisional, and may require slight adjustment in the Accounts for later years, but the estimate prepared by the Government of India (*vide* paragraph 24 of last report) has been accepted by the War Office subject to settlement of a few queries raised by that Department.

In addition to the expenditure in India and the Field, 1,371,340*l.* 15*s.* 4*d.* has been expended at the India Office during 1915–16 in respect of Expeditionary Forces, &c. The vouchers relating to this amount have been audited in my Department, and certificates to that effect have been furnished to the War Office for production to the Comptroller and Auditor-General who accepts my audit of this expenditure.

22. The following is a list of Surcharges and Disallowances on the Account for 1915–16.

Description and Amount of Item in the Account.	£ s. d.	Surcharges. £ s. d.	Disallowances. £ s. d.
RECEIPTS.			
Military Services:—			
Army Effective:—

H. A. Cooper,
Auditor.

India Audit Office,
14th April 1917.

No. 3.

REPORT of the AUDITOR of INDIAN HOME ACCOUNTS on the STORE ACCOUNTS from 1st April 1915 to 31st March 1916; prepared and submitted to Parliament and to the Secretary of State in Council, in pursuance of the 27th Section of the Government of India Act, 1915.

1. The number of Packing Accounts received back from India since the date of the last Report is as follows:—

63 for the year 1913–14, leaving 153 outstanding.
72 for the year 1914–15, leaving 169 outstanding.

2. In the year 1915–16, 10,051 Packing Accounts were sent to India, of which 170 are outstanding at the present date. These documents are the evidence of the due receipt of Stores in India, and the basis for recoveries of the value of short deliveries.

3. Settlement in respect of the loss of Government Stores *ex* "Clan Mackenzie" was effected in November 1916 by recovery of the sum of 1,312*l.* 16*s.* 8*d.* *Vide* paragraph 3 of the last Report.

4. No payment has yet been made in respect of the span for the Sara Bridge (Eastern Bengal Railway) delivered in India by the "Barenfels," and the printing machine on board the "Fangturm" at Palma, Majorca, has not yet been delivered. *Vide* paragraph 5 of the last Report.

5. The following ships carrying Government Stores were sunk during the year by enemy submarines:—

	Date of sailing.	Value of Stores plus $\frac{1}{8}$ths freight.
		£
"Clan Macalister"	Oct. '15	2,988
"Colenso"	Nov. '15	863
"Clan Macfarlane"	Dec. '15	2,321
"Persia"	Dec. '15	1,140
"Springwell"	Jan. '16	26,400
"Maloja"	Feb. '16	100
"Dido"	Feb. '16	2,519
"Chantala"	Mar. '16	28,800
		£65,131

H. A. COOPER,
Auditor.

INDIA AUDIT OFFICE,
14th April 1917.

of the HOME TREASURY of the GOVERNMENT of *India*, for the Year 1915–16.

EXPLANATIONS OF INCREASE OR DECREASE.

1 The sums available for investment were larger and the rate of interest was higher than was estimated. On the other hand, the receipt for interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government was 2,651*l.* less than the amount included in the Budget.

2 The Account represents the interest on 4½ per cent. War Loan purchased for the Sinking Fund instead of India 3 per cent. Stock, which, when the Budget was prepared, it was contemplated would be purchased and cancelled.

3 The Budget represented the amount due from the Ottoman Government. No recovery was, however, made during the year. The Account represents receipts from the Eastern Telegraph Company in respect of Traffic Balances owing to the War.

4 The Account represents the sale proceeds of gutta-percha scrap sent from India.

5 Of the amount included in the Budget, 30,000*l.* was received in March 1915. Owing to the delay in obtaining necessary statistics, no further advance was made by the Post Office in respect of the amount recoverable under the Morley Award for the three years to 31st January 1915 as applied to the whole of the Eastern Mail Service.

6 A smaller portion of the invested capital of the Regular Widows' Fund was sold during the year, under the Act of 1837, as the liabilities of the Fund during 1914–15 were less than was expected.

7, 8 Due to larger payments of Leave Allowances in this country.

9 The Account includes 5,194*l.* as a net receipt in respect of Fines and Penalties incurred by Contractors in providing Stores instead of a net payment as contemplated in the Budget, and also 2,124*l.* for the inspection of Stores on behalf of the Imperial Government and others. There was an increase of 600*l.* in the receipt from the Inland Revenue in respect of the assessment of Income Tax at the India Office, and of 551*l.* on account of Diplomatic and Consular Services in Persia.

10, 11, 12, 13 *See* Note 2.

14 The Government share of surplus profits for the year 1914–15 was less than the Estimate furnished by the Company.

15 The Government share of surplus profits from the 1st October 1913 to 30th September 1914 was more than the Estimate furnished by the Company.

16 Mainly due to the withdrawal of two Regiments, one from February 1915, the other from July 1915.

17 The Account includes 19,542*l.* in respect of the Indian Troop Service for which no provision was made in the Budget, and there was an increase of 3,258*l.* in the receipts on account of the consolidated clothing allowances of British soldiers, consequent on the settlement of the account with the War Office to the end of 1913–14 and of 5,204*l.* in the sale proceeds of unserviceable stores. On the other hand, there was a decrease of 7,187*l.* in the value of articles in the possession of Regiments on their transfer to the British Establishment and there were variations under other sub-heads

18 Mainly due to the issue of Pay to Officers of the various Expeditionary Forces.

	9,058,200	26,595,956			
Carried forward £	18,755,800	34,310,542			

of the Home Treasury of the Government of *India*, for the Year 1915–16—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Budget provided for the replacement by fresh Capital of Debentures of the Assam-Bengal, Bengal-Nagpur, and Rohilkund and Kumaon Railway Companies maturing in the year. Of these, 1,621,400*l.* were, however, renewed, and the remainder, 375,200*l.*, were discharged without replacement.
2	Mainly due to recoveries from underwriters in respect of Stores lost in transit to India.
3–10	The Budget represented the recovery of all the expenditure which then seemed probable under these heads on account of the various Expeditionary Forces, including disbursements in respect of the Hospital Ships which were then employed entirely in connection with the Force in France. The transfer of part of the Indian Force from France to other theatres of war explains the transfer of expenditure from the European head to other heads.
11–12	The expenditure under these heads was greater than was contemplated when the Budget was prepared.
13	The Account represents the recovery of payments which it was impossible to allocate to any particular Force.
14	It was expected that the recovery on this account would have been effected in 1914–15.
15	In the Budget the pay of these Officers was included in the amount estimated to be recoverable from the War Office.
16	Due to a larger number of appointments than were provided for in the Budget.
17	The recovery on this account was estimated to fall in 1914–15.
18	When the Budget was prepared expenditure on this account did not appear probable. The Account represents the recovery of the major portion of the expenditure during the year.
19	The Budget represented the recovery of the expenditure expected during the year, which, however, amounted to 82*l.* only, and the Account represents the recovery of a portion of this sum.
20–21	The Account represents recovery of expenditure in respect of which no estimate could have been framed.
22	Of the increase, 4,533,000*l.* was appropriated in respect of drafts met in India from the Reserve, 3,000,000*l.* was in part repayment of the Loan from the Reserve to Treasury Balances in India, and 41,188*l.* represents the Profit on Exchange during the year.
23	The Budget assumed that out of 3,924,000*l.* to be received in respect of securities maturing, 3,653,000*l.* would be invested in six months' Bills maturing within the year and that 271,000*l.* would be added to the deposit of gold at the Bank of England. The sum of 1,687,910*l.* only was invested in Treasury Bills maturing within the year, and 231,000*l.* Exchequer Bonds which were sold realised 227,349*l.*
24	The Gold withdrawn was transferred to the deposit of gold held at the Bank of England on behalf of the Paper Currency Reserve.
25	The transfer was effected in order that the amount might be made available for investment in the National War Loan.
26	The conversion of Consols into War Loan resulted in the receipt of an extra quarter's dividend, and Exchequer Bonds maturing were invested in similar securities bearing two half-yearly dividends in the year instead of in six months' Treasury Bills as estimated. The remainder of the increase is mainly due to the dividend on War Loan purchased with gold transferred from the Paper Currency Reserve, and to interest on sums placed on short loan from proceeds of Council Bills and Transfers appropriated.
27	Owing to the trade demand for Council Bills and Transfers exceeding the extent to which they could be met from Treasury Balances, the extra Bills and Transfers were treated as drawn on behalf of the Paper Currency Reserve. To meet the payments for these Bills and Transfers, gold was earmarked at the Bank of England, investments were made in three months' Treasury Bills, and silver was purchased on behalf of the Reserve. (*See* Payment side.)
28	Exceptional transactions. (*See* Payment side and also under Remittance Account for receipts in connection with Enemy Ships employed under the control of the Director of the Royal Indian Marine.)
29–30	Exceptional transactions. (*See* Payment side.)
31	The Account represents receipts from Students in respect of passages procured for them on return to India.

	24,471,500	35,898,197			
TOTAL RECEIPTS £	43,227,300	70,208,739			

of the Home Treasury of the Government of *India*, for the Year ending 1915–16—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1–11	The Budget was based on information received from India. The allocation of the receipts in the Account is based on the classification adopted in the final Consolidated War Accounts compiled in India. The transfer of part of the Indian Force from France to other theatres of war largely explains the decrease under the Europe heading.
12	Due to the adjustment of the Account for 1914-15, which was heavier than was anticipated.
13	The Budget represented a separate receipt on account of the Sea Transport of Troops on return to India, but any amount due on this account will now be included in the general charge for hire of transports in connection with the War.
14–15	Exceptional receipts which were not foreseen when the Budget Estimate was prepared.
16–20	The Budget was based on information received from India.
21	The Account includes receipts in respect of transactions for thirteen instead of twelve months as contemplated when the Budget was prepared.
22	The Account includes 72,000*l.* for old brass shipped to England and taken over by the Ministry of Munitions, and also very large receipts for stores supplied from India to Colonies, Dependencies, and Protectorates, insufficient provision for which was made in the Budget.
23	The Budget, which was based on the average of previous years, proved to be too small.
24	The Receipts on this account could not be foreseen when the Budget was prepared.
25	The Budget represented the expected receipt from an issue of 3,500,000*l.* 4½ per cent. Debenture Stock, which, however realised only 3,459,579*l.*
26–30	Mainly due to receipts from underwriters in respect of stores lost in transit to India.
27	Due to the decision not to ask the Company to raise any fresh Capital during the year.
29	The Budget contemplated the replacement by fresh Capital of Debentures maturing. The Debentures were, however, renewed.
31	Exceptional transactions. *See* Payment side and also under "Deposits and Advances" for receipts in connection with Enemy Ships under the control of the India Office.
32	Exceptional transactions.
33	The Budget proved to be too small.
34	The Account includes 2,356*l.* in connection with the S.S. "Golconda" engaged for the repatriation of Enemy aliens, and other very exceptional receipts which could not be estimated.
35–36	Exceptional transactions.
37	Due to the inability of the Government of India to meet from Treasury Balances the Secretary of State's drawings, owing to the severe depletion of their balances by heavy military expenditure arising out of the War.

of the Home Treasury of the Government of *India*, for the Year 1915–16—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The hearing of certain Appeal Cases, which it was expected would have been reached during the year, was postponed.
2	The demands were greater than was indicated in the forecasts received from India.
3	The demands were greater than was indicated in the forecasts received from India, and there was an increase in the prices of Stores.
4	
5	Mainly due to the transfer to "Marine Insurance" of the cost of Stores lost in transit to India and not re-supplied during the year.
6	The demands were greater than was indicated in the forecasts received from India.
7	Mainly due to a decrease in the number of Probationers.
8	Due to the postponement of payments to 1916-17.
9	There was an increase of 87,456*l.* owing to the rate of discount on India Sterling Bills being higher than was provided for in the Budget and the Interest on India Stock was greater owing to the purchase of War Loan Stock and Exchequer Bonds for the Sinking Funds in lieu of cancelling debt. On the other hand, the amounts transferred to "State Railways—Interest on Debt," and "Irrigation—Major Works—Interest on Debt," were respectively 70,462*l.* and 5,099*l.* more than was estimated. (*See* Explanations under those heads.)
10	Due to the variations in the Traffic owing to the War.
11	Mainly due to the re-construction of the line north of Karachi and to the increased cost of Stores. The Account also includes 530*l.* as the first instalment of the repayment of the contribution by His Majesty's Treasury towards the construction of the Arabistan Line.
12	Due to the reduction in the payment to the Post Office in view of the discontinuance of the mail sorting at sea from 1st September 1914.
13	The number of Officers on leave was greater than was anticipated when the Budget was prepared.
14	The demands were less than was indicated in the forecasts received from India.
15	The payment anticipated on this account was postponed.
16	The number of Officers on leave was greater than was anticipated when the Budget was prepared.
17	Due to the increase in the cost of Stores.
18	
19	There was an increase of 8,430*l.* in Salaries of the Home Establishment owing to a temporary increase in Staff and to overtime, and of 2,895*l.* in Charges of the Store Department mainly due to increases in the wages of labourers at the Store Depôt and at the Stamp Branch. On the other hand, there was a decrease of 2,444*l.* in Office Contingencies mainly owing to the postponement of maintenance charges, and of 1,193*l.* under Telegrams to India. There were also variations under other sub-heads.
20	Due to the demands from India being less than was anticipated, to a change in the system of the rendering of claims under which the Account includes the payments in respect of three quarters only instead of for two half-years, and to the transfer to "Marine Insurance" of the cost of Currency Notes lost in transit to India and not re-supplied during the year.
21	The Budget provided for the Outfit Allowance of one Judge, whereas three Judges proceeded to India during the year.
22	The appointments were fewer than was contemplated when the Budget was framed.
23	No leadsman apprentices were appointed in England to the Bengal Pilot Service during the year.
24	The Budget provided for a payment, which was not made, of 2,000*l.* to the Committee for Plague Investigation in India.

Carried forward	£ 14,740,000	14,797,852			

of the Home Treasury of the Government of *India*, for the Year 1915-16—*continued.*

	EXPLANATIONS OF INCREASE OR DECREASE.
1	Mainly due to the cost of Stores for lighting and buoying the Persian Gulf, the Indian moiety of which is included under this head, and for which no provision was made in the Budget.
2	The contribution to the International Institute of Agriculture at Rome was not paid within the year.
3	There was a decrease of 1,649*l.* in the expenditure on objects of a literary character, and no payment was made during the year, as was estimated, in respect of the preparation of Tide Tables for Indian Ports.
4	The demands were less than was indicated in the forecasts received from India.
5	The number of Officers on leave was greater than was anticipated when the Budget was prepared.
6	Mainly due to the payments in respect of pensions of Officers of the Uncovenanted Service not increasing as was estimated.
7	The payments under this head decreased more rapidly than was expected.
8	The payments on this account did not increase to the extent anticipated.
9	Mainly due to the payments during the year for printing being less than the amount included in the Budget.
10	Due to the increase in the cost of Stores.
11	There was an increase of 5,639*l.* in expenditure incurred in connection with the Public Services Commission. On the other hand, the Budget provided for a payment, which was not made, of 1,250*l.* in respect of the School of Oriental Studies.
12	There was an increase of 22,775*l.* under Marine Insurance, and the charges under Packing, &c., exceeded the amounts charged to various heads of Stores by 3,761*l.* On the other hand, the transactions in connection with Fines and Penalties incurred by Contractors in providing Stores resulted in a net receipt instead of a net refund of 5,000*l.*, and there was a decrease of 3,488*l.* under payments for commission on freight, lighterage, and other miscellaneous charges.
13	The demands were less than was indicated in the forecasts received from India.
14	Due to the purchase of British Securities for the Sinking Funds in lieu of purchasing and cancelling India Stocks in July and October 1915, and January 1916.
15	
16	The Budget represented one year's interest at 3·2773 per cent. (the rate adopted in the account for 1913-14) on 55,340,860*l.* (52,124,660*l.*, the total expenditure to 31st March 1914 + 2,491,100*l.*, the Revised Estimate for 1914-15 + 725,100*l.* moiety of the Budget Estimate for 1915-16). The Account is one year's interest at 3·4273 (the ascertained rate for 1915-16), on 54,975,090*l.* (54,548,719*l.* the total expenditure to 31st March 1915 + 426,371*l.* moiety of the actual expenditure during 1915-16).
17	*See* Notes 14 and 15. The transactions there referred to produced a larger sum for investment than was included in the Budget.
18	
19	Mainly due to the discharge of 278,000*l.* Debentures.
20	Due to the renewal of Debentures at a lower rate of interest than was contemplated when the Budget was prepared.
21	The Budget provided for three quarters' interest on an issue of 3,500,000*l.* 4½ per cent. Debenture Stock, whereas the Account includes interest for a half-year only, owing to the issue of the Stock at a later date than was contemplated when the Budget was prepared.
22	The Budget provided for a half-year's interest on 3,000,000*l.* new 4½ per cent. Debenture Stock which was not issued.

of the Home Treasury of the Government of *India*, for the Year 1915–16—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Budget represented one year's interest at 3·2773 per cent. (the rate adopted in the account for 1913–14) on 3,730,136*l*. (3,650,636*l*. the total expenditure to 31st March 1914 + 60,000*l*. the Revised Estimate for 1914–15 + 19,500*l*. moiety of the Budget Estimate for 1915–16). The Account is one year's interest at 3·4273 per cent. (the ascertained rate for 1915–16) on 3,714,273*l*. (3,696,069*l*. the total expenditure to 31st March 1915 + 18,204*l*. moiety of the actual expenditure during 1915–16).
2	No forecast was received from India. The Account represents payments on indents received during the year.
3	The number of Officers on leave was greater than was anticipated when the Budget was prepared.
4	The appointments to the Public Works Department were fewer than was expected.
5	Mainly due to the increased cost of stores.
6	The number of Officers on leave was greater than was anticipated. The Account also includes 3,074*l*. for the furlough allowances of Officers of Territorial Regiments.
7	The Account represents the balance due to the War Office on the final adjustment of the Accounts to the end of 1913–14.
8	The number of Officers on leave was greater than was expected.
9	The Account includes 542,300*l*. (271,150*l*. for 1914–15 and 271,150*l*. for 1915–16) paid to the War Office on account of the estimated saving in transport charges owing to the war.
10	Due to the purchase of fewer horses in this country.
11	The Budget represented the expected payment on account of the employment of His Majesty's ships engaged in the suppression of the Arms Traffic from 1st April 1914 to the outbreak of war. No payment was made in 1915–16 in respect of this period, and the Account represents a payment on account of the balance due in respect of 1911–12.
12	Unforeseen expenditure. *See also* under "Advances Repayable" and "Remittance Account."
13	The members of the Corps were attached, after its formation, to various hospitals and corps.
14	Due to the increased cost of Stores. The Account is 1,712*l*. less owing to an adjustment of Schedule Measure Expenditure charged in excess in 1914–15.
15	Due to the payments on this Account being charged in the Remittance Account.
16	Of the amount included in the Budget Estimate 53,000*l*. was for "War Indents," the payments in respect of which have been charged in the Remittance Account, and there was a decrease of 30,694*l*. in Schedule Measure Expenditure.
17	Due to the increased cost of Stores.
18	The demands were less than was indicated in the forecasts received from India.
19	The Account includes 4,139*l*. for expenditure on motor transport for the "North-West Frontier." On the other hand, hand, there is a decrease due to the postponement of payments to 1916–17.
20	Due to the charge in the Remittance Account of payments under this head.
21	The Account represents an advance to the War Office on account of an Aviation Unit for the North-West Frontier.
22	*See* Note No. 7.
23	The Account represents a payment in arrear in respect of 1913–14.
24	The Budget represented an estimated normal charge of 950,000*l*. less a recovery of 300,000*l*. in respect of expenditure in India on Wound and Family Pensions of the Indian Army. The Account represents a normal charge of 946,073*l*. and allows for a recovery of 81,600*l*. only, 80,600*l*. for 1915–16 with arrears of 1,600*l*. for 1914–15.
25	The payments on this account did not decrease as was expected.
26	The casualties amongst Officers in receipt of Colonels' Allowances were more numerous than was expected.
27	The gratuities to the widows and families of Officers killed in action were 23,880*l*. more than the amount included in the Budget, and the remainder of the increase was due to special pensions granted to widows and families of Officers.
28	Due to casualties arising out of the war.
29	The number of Officers on leave was greater than was expected.
30	The Allowances and Passages of Marine Officers proved to be less than was anticipated.
31	There was a decrease of 159,658*l*. due to the delay in the construction of new vessels. On the other hand, the demand for miscellaneous stores was greater than was indicated in the forecasts received from India.
32	The payments on this Account did not increase as was expected.
33	The demands were greater than was indicated in the forecasts received from India.
34	Expenditure on this Account was not specifically indicated in the forecasts received from India.
35	Due to payments which it was expected would have been made in 1914–15.

of the Home Treasury of the Government of *India*, for the Year 1915–16—*continued*.

EXPLANATIONS OF INCREASE OR DECREASE.

1	
2	
3	Due to the decision to restrict the orders for Stores to those needed very urgently indeed.
4	
5	The Budget framed in accordance with a Telegram from the Viceroy dated the 2nd March 1915, related to the Southern Shan States Railway, the work on which was stopped.
6	
	The demands were less than was indicated in the forecasts received from India.
7	
8	The Budget was based on a Telegram from the Viceroy, dated the 17th November 1914, but a Telegram dated the 16th September 1915 foreshadowed a large reduction in the expenditure on this Account.
9	The Budget represented Debentures maturing during the year. Of these, 375,200*l*. were discharged and the remainder renewed.
10	Due to the decision to restrict the orders for Stores to those needed very urgently indeed.
11	The Account represents the issue of a portion of the amount which had remained unclaimed since October 1888.

India Office,
8th August 1916

. of the Home Treasury of the Government of *India*, for the Year 1915-16—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	
2	
3	
4	The variations in the expenditure in respect of particular Forces could not be foreseen when the Budget Estimate was
5	prepared.
6	
7	
8	
9	Expenditure on these Accounts was not anticipated when the Budget was prepared.
10	
11	The Budget represented expenditure on Supplementary War Indent No. 11 and Indent No. 118 of December 1914. The Account represents expenditure arising out of these and all "War 1914" Indents.
12	The whole of the expenditure (1,000,000*l.*) on Ordnance Factory Stores Indents 1916-17 was estimated to fall in 1916-17.
13	The expenditure during 1915-16 has been divided between "War" and "Ordinary" in the proportion indicated in the Telegram from the Viceroy dated the 23rd December 1915.
14	The Account represents transactions in respect of which no Estimate could have been framed.
15	The Account represents a payment on account of the amount due to the Imperial Government for equipment in the possession of Troops on their withdrawal.
16	The increase was largely due to remittances and allotments being permitted to all dependants, to the facilities for remittances being used to a greater extent than was estimated, and to the inclusion under this head of certain Remittances and Allotments which in the Budget were included under "Family Remittances and Allotments of British and Indian Services."
17	No forecast of expenditure on this account was possible when the Budget was prepared.
18	Due to the increase in the Forces and to the Remittances of Officers temporarily appointed to the Royal Indian Marine for service in Mesopotamia.
19	The Budget, based on the experience of the previous year, proved to be too high.
20	The Remittances were less than was anticipated owing to the war.
21	The Budget, based on the average of previous years, proved to be too small.
22	
23	
24	Due to the decision to restrict the orders for Stores to those needed very urgently indeed.
25	
26	
27	The Debentures were renewed.
28	Due to an increase in the Capital allocated to State Works.
29	The demands were greater than was indicated in the forecasts received from India.
30	
31	The demands were less than was indicated in the forecasts received from India.
32	Due to an alteration in the arrangements with the National Health Insurance Commission.
33	Exceptional transactions.
34	
35	The Account represents miscellaneous payments in continuation of the expenditure in the previous year.
36	The Account represents remittances to this country for which no forecast was possible.
37	Due to exceptional disbursements, including 19,016*l.* arising out of the employment of the S.S. "Golconda" for the repatriation of enemy aliens, which could not be foreseen when the Budget was prepared.
38	The Bills were sold to strengthen Exchange. *See also* under "Gold Standard Reserve."
39	For coinage. *See also* Receipts and Payments under "Paper Currency Reserve."

WALTER BADOCK, *Accountant-General.*

*No. 7.—Estimated Account of the Receipts and Disbursements of the Home

No. 2.

REPORT of the AUDITOR upon the INDIAN HOME ACCOUNTS, from 1st April 1919 to 31st March 1920; prepared and submitted to Parliament and to the Secretary of State in Council, in pursuance of the 27th Section of the Government of India Act, 1915.

1. It is necessary, in the first place, to offer some observations on my Report on the Accounts of the previous year 1918–19.

Of the various sums surcharged or disallowed in the last Report, all were adjusted prior to the 31st March 1920, with the exception of the following items, which are still outstanding, and must be again disallowed:—

£	*s.*	*d.*	
21	5	10	*vide* paragraph 29 of last Report.
57	18	9	(part of 59*l.* 3*s.* 9*d.*), *vide* paragraph 29 of last Report.
57	0	0	*vide* paragraph 29 of last Report.

2. An additional overpayment amounting to 14*l.* 0*s.* 9*d.* on account of 1918–19 has been brought to light since the date of the Report on that year, and, although now adjusted, was outstanding on the 31st March 1920, and must be disallowed in the present Account.

3. Of the advances mentioned in paragraph 2 of my last Report, the following remained unaccounted for on the 31st March 1920:—

£	*s.*	*d.*	
60,000	0	0	for Aviation Stores.
419,427	11	10	(part of 1,144,710*l.* 0*s.* 2*d.*) Stores—Ordnance.
70,000	0	0	Direct Demands—Aviation Stores.

The further advances mentioned in the previous Report under the paragraphs stated below were still outstanding on the 31st March 1920, viz.:—

£	*s.*	*d.*	
45,662	13	8	(part of 62,600*l.* 14*s.* 5*d.*) Marine Stores (paragraph 23).
133,782	14	10	Remittance Stores—Ordnance (paragraph 26).
784,217	5	2	Direct demands (paragraph 27).

4. The sum of 24,475*l.* offered by the Imperial Government in settlement of the two outstanding claims against the War Office, referred to in paragraph 3 of the last Report, and in preceding Reports, has now been credited to Indian Revenues.

These claims related to—

(*a*) Re-armament of the Artillery in India in 1907–08; and
(*b*) Shortage of troops sent to India in 1907–08, &c.

5. The question referred to in paragraph 4 of my last Report, viz., Expenditure incurred in the suppression of the Arms Traffic in the Persian Gulf, for the period from April 1912 to August 1914, has now been settled. The papers and vouchers relating to that period had been destroyed and the Admiralty were therefore unable to furnish detailed claims. That Department suggested that the payments made by way of advances should be regarded as contributions in full settlement of all expenses incurred on the service, and the Secretary of State in Council agreed to this proposal.

6. The sum of 1,342*l.* 12*s.* 2*d.* due from the Turkish Government on account of traffic balance (Indo-European Telegraph Department) for the period April to November 1914 (*vide* paragraph 5 of last Report) still remains unadjusted.

7. In my Report on the Accounts for the year 1915–16 (paragraph 4) reference was made to a recovery effected from the Foreign Office, as the result of a question raised in my Department, in respect of a moiety of the expenditure incurred in India in connection with Lighting and Buoying the Persian Gulf.

Further arrear charges amounting to over 500*l.* have since been reported and claimed from the Foreign Office.

8. I now proceed to report on the Accounts for 1919–20.

It has been the practice of my predecessors and myself to undertake a complete audit of the Accounts of the Secretary of State in Council, and, with limited exceptions, this procedure has been carried out with effect up to the Accounts for 1918–19.

Owing to the ever-increasing volume of work, however, it became impracticable to continue this procedure, and I submitted a proposal to the effect that I should exercise a free hand as regards the application of a test audit to the Accounts for 1919–20 and 1920–21, and this was approved by the Secretary of State in Council.

The War Office likewise expressed concurrence as regards a test audit of the War Accounts, which I audit on behalf of the Imperial Government.

The surcharges and disallowances outstanding at the close of the year are shown at the end of the Report, paragraph 30.

RECEIPTS.

REVENUE:

Interest:

9. Interest realised from investment of Cash Balance - £362,557 17*s.* 0*d.*

This amount includes 110,446*l.* 0*s.* 10*d.* in respect of loans to the Bank of England, which ceased in August 1919.

The balance, viz., 252,111*l.* 16*s.* 2*d.*, represents discount on British Treasury Bills, in which surplus cash balances were subsequently invested.

10. Interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government - - £22,770 11*s.* 7*d.*

This amount includes 8,070*l.* 11*s.* 7*d.* in respect of instalments of interest on the 1903 loans, in accordance with the amortisation table referred to in previous Reports (19,517*l.* 17*s.* 6*d.* on account of repayment of principal is brought to account under "Deposits and Advances").

The remaining sum of 14,700*l.* represents interest on the joint loans made by the Indian and Imperial Governments to the Persian Government in 1912, 1913 and 1914.

Further advances were made during the year to the Imperial Bank of Persia for the purposes of the Persian Government—*vide* paragraph 8 of last year's Report. These were contributed by India and Great Britain in equal shares of 962,496*l.* 7*s.* 7*d.* (*vide* page 23).

11. Special Reserve: Interest and Discount - - £350,413 8*s.* 10*d.*

This amount represents interest on Exchequer and War Bonds and discount on British Treasury Bills forming the balance of the Special Reserve (*vide* paragraph 9 of the last Report, and paragraph 23 of the Report for 1917–18).

This balance, viz., 6,939,302*l.* 13*s.* 1*d.*, has now been utilised in aid of Ways and Means (*vide* page 24).

DEPOSITS AND ADVANCES:

12. Miscellaneous Deposits:—

Enemy ships under the control of the India Office:—

Receipts - - - - -	£1,959,804 15*s.* 8*d.*
Payments - - - - -	£424,876 13*s.* 4*d.*

These figures, as stated in my last Report, include an advance of 285,000*l.* from the Ministry of Shipping on account of hire, &c., for voyages on their behalf, and also the final balance of 92,867*l.* transferred from Indian revenues to the India Office Prize Fund in respect of the conveyance of mules from Buenos Ayres to Karachi for the Government of India. Further sums are due from the Ministry of Shipping. The question of the value of the three vessels *Pagenturm*, *Perla*, and *Wartenfels*, torpedoed while engaged on the Ministry's service, remains unsettled, but the excess payments for insurance on account of certain voyages to the Mediterranean in 1915–16 have, I understand, now been adjusted.

During the year 1919–20 the effect of the increasing number of commercial voyages at high freight rates is shown in the volume of receipts. Whereas the figures for 1918–19 disclosed a net balance of about 188,600*l.* only on commercial account, those for 1919–20 amount to the large sum of 1,157,000*l.* Owing to the great drop in freight rates towards the end of the year 1920, this figure is not likely to be maintained. The number of vessels under India Office control remained at 11, but the *Moora*—originally handed over by the Commonwealth of Australia to the Government of India—is again under the control of the Director, Royal Indian Marine.

A reply has been received from India on the subject of expenditure in that country chargeable against the Prize Funds in the hands of the Government of India and the Oversea Prize Disposal Committee. It appears that a sum of about Rs. 33,000 was taken to represent the cost of establishment and administration up to the end of 1915–16, and of this Rs. 9,900 was estimated to have been incurred on account of prize vessels used as military transports; a proportion of this expenditure —some Rs. 4,000 or Rs. 5,000—is therefore recoverable from the Oversea Prize Disposal Committee. I am not satisfied, however, in view of figures which have come under my notice, that the above sum of Rs. 33,000 represents the full expenditure properly chargeable to the Prize Fund, and I am pursuing the matter further.

The amount of funds pertaining to Enemy Ships in the hands of the Secretary of State on 31st March 1920 was 3,112,936*l.* 16*s.* 9*d.*

REMITTANCE ACCOUNT BETWEEN ENGLAND AND INDIA:

13. Advances in India on account of the Emigration of Coolies, African Protectorates, and for supplies to His Majesty's Ships on the East India Station - - £1,002,136 8*s.* 2*d.*

This sum includes amounts received from the Admiralty and Crown Agents in respect of Bills of Exchange given on account of monies supplied to Naval Officers and Emigration Agents by the Government of India. A question was raised in my Department as to the rate of exchange applicable to these Bills, as it appeared that incorrect rates were being used by the officers concerned in India. Supplementary claims were made, and the net amount accruing to Indian Revenues in respect of adjustments on account of the differences in rates of exchange is upwards of 18,000*l.*

14. Bills of Exchange and Telegraphic Transfers on India - £31,226,218 12*s.* 9*d.*

In paragraph 13 of my last Report I described the guarantee given by the Secretary of State to the Indian Exchange Banks for the purpose of financing Indian exports necessary for the prosecution of the war, and mentioned that the liquidation of the liability thereby incurred had already commenced. This process was continued during the financial year 1919–20 by sales to the Banks of Special Councils amounting to Rs. 2,60,88,000 (deferred) at 1*s.* $4\frac{29}{32}$*d.*, and Rs. 3,00,000 (immediate) at 1*s.* 5*d.* in April and May 1919, and Rs. 2,73,75,000 (deferred) at 1*s.* $4\frac{5}{32}$*d.* November 1919—February 1920, payment of the latter amount being taken by the Banks in the form of Indian Treasury Bills. The sterling proceeds of these sales, viz., 1,858,959*l.* and 1,842,822*l.* 5*s.*, are included in the above amount.

The audited figures of the Banks' claims under the guarantee were received from India in August 1920.

The final approximate totals for all the Banks were:—At 1*s.* $4\frac{1}{4}$*d.*, 6,199,000*l.*; at 1*s.* 5*d.*, 3,733,000*l.*; at 1*s.* 6*d.*, 4,356,000*l.* Grand total, 14,288,000*l.*

Of these amounts 5,215,439*l.* at 1*s.* $4\frac{1}{4}$*d.* and 1,859,959*l.* at 1*s.* 5*d.* had been liquidated by the special sales of Councils already referred to, and the claims outstanding on 31st March 1920 were therefore, roughly, 983,000*l.* at 1*s.* $4\frac{1}{4}$*d.*, 1,873,000*l.* at 1*s.* 5*d.*, 4,356,000*l.* at 1*s.* 6*d.*; in all, 7,212,000*l.*

The liquidation of these outstanding claims was not effected by sales of Councils at special rates as contemplated in the original guarantee. In view of the altered exchange situation, of which a marked feature was a persistent demand on the part of the Indian public for sterling remittance, a fresh arrangement was made with the Banks whereby they undertook to make their own arrangements for returning their previously overbought sterling to India, on condition of receiving from the Government of India payment in rupees of the deficiency due to the difference between the guaranteed rates and the market rates over an agreed period.

The arrangement was brought into effect from 23rd July 1920, and the bulk of the Banks' claims were disposed of in 20 weekly instalments ending on 3rd December 1920, outstanding amounts being settled on the basis of rates of exchange current between that date and 10th January 1921. Except in the case of one Bank a final adjustment of all claims under the guarantee has now been reached.

The total cost to Indian revenues involved in the sale of Councils at less than current rates, and in the payment of differences described above, is estimated at rather more than $3\frac{1}{2}$ crores of rupees.

In my previous Report it was stated that questions raised in the course of that portion of the audit of the Banks' claims which was carried out in London had resulted in a reduction of over 300,000*l.* in the claims of the two Banks concerned. The more important of these questions related to the manner in which the profits of the Indian branches of the Banks were treated in compiling claims under the guarantee. It had previously been agreed that such profits, being in the nature of sterling remittances for ultimate distribution as dividends in the United Kingdom, should be taken like other such remittances in reduction of the Banks' overbought sterling. In compiling these claims, the Banks had brought their profits into account half-yearly on the dates on which these were passed through their books, but in auditing the claims it was contended that profits should be allocated in the proportion in which they were earned during the several guarantee periods. This principle was ultimately accepted, with the result that in the case of one of the two Banks the claim at 1*s.* $4\frac{1}{4}$*d.* was reduced by 154,300*l.*, at 1*s.* 5*d.* by 9,700*l.*, and at 1*s.* 6*d.* by 52,000*l.* A further disallowance of 10,000*l.* was made from the 1*s.* 6*d.* claim in respect of an item relating to a date after the termination of the guarantee.

In the case of the second Bank the reduction due to allocation of profits amounted to about 3,500*l.* only, but a further question was raised as to the correctness, from the point of view of the guarantee, of the method of computing profits and losses on exchange. Although the details of the profit and loss accounts were kept by the Indian branches, sufficient data were available to make it appear probable that the overbought positions were treated as carrying a loss at each rise in the exchange value of the rupee. A corresponding profit would thus appear in the accounts of the Bank during the process of liquidation, but, in so far as liquidation took place after the termination of the guarantee, the guaranteed amounts would not be reduced thereby. In view of the fact that the Banks were protected by the guarantee from loss due to a rise in rupee-sterling exchange, such a result appeared inequitable, and, after the hypothesis put forward as to the method of computing profits had been verified, a scheme of adjustment was worked out in detail and accepted by the Bank, leading to a reduction of 32,500*l.* in its 1*s.* 4¼*d.* and 21,000*l.* in its 1*s.* 6*d.* claim.

No claim at 1*s.* 6*d.* was raised in respect of the Head Office of this Bank, the Head Office accounts having been closed during the currency of the guarantee and the balances (oversold) transferred to one of the Indian branches for incorporation in its claim. In examining this transaction it was observed that the net balances to date had been transferred, whereas the gross overselling during the 1*s.* 6*d.* period was the amount for which credit was required in compiling the claim under the guarantee. An abatement of 30,000*l.* was consequently made in the total of the 1*s.* 6*d.* claim as subsequently reported by the Government of India.

The principle of "allocating" profits was applied in the case of the remaining Exchange Banks whose claims were wholly submitted for audit in India, but the results are not known here. Further investigation was, however, made in London as to the methods used by the several Banks in accounting for their profits on exchange, from which it appeared that two other Banks had treated their overbought position as carrying a loss. The necessary adjustment, which was effected on calculations worked out in this office, involved a reduction in one case of 15,500*l.* at 1*s.* 4¼*d.*, 70,500*l.* at 1*s.* 5*d.*, and 218,000*l.* at 1*s.* 6*d.*, and in the other case of 7,500*l.* at 1*s.* 4¼*d.*, 27,000*l.* at 1*s.* 5*d.*, and 40,000*l.* at 1*s.* 6*d.*

Apart from criticisms arising directly out of the audit of claims, I had occasion to raise a number of questions affecting the nature of the arrangements made with the Banks in connection with the guarantee. One Bank, which had exercised the option of starting its claim from 1st April instead of 1st January 1919, had subsequently been allowed, in common with other Banks (which had elected the earlier date), to include its overbought position on 31st December 1916 under the guarantee at 1*s.* 5*d.* The preliminary figures furnished by the Bank indicated an overbought position of 422,000*l.* on 31st December 1916, overselling amounting to 904,000*l.* January–March 1917 and overbuying 855,000*l.* April–August 1917. As it appeared inequitable that the overselling during January–March 1917 should not be taken in reduction of previous and subsequent overbuying, attention was drawn to the matter and the Bank agreed to make a suitable reduction in its claims. Owing to a variety of factors, involving the rupee transactions of the Far Eastern branches of the Bank, the amount of overselling which could equitably be treated in this way proved considerably less than the original estimate. The ultimate reduction, however, amounted to 198,000*l.* at 1*s.* 5*d.*

As a result of further criticisms of the arrangements entered into for the administration of the guarantee the principles were laid down (*a*) that each Bank should present a continuous account for each period covered by the guarantee, and (*b*) that an oversold position in any period should be treated as cancelling equivalent overbuying in other periods, subject to a payment by the Secretary of State in respect of difference of exchange, except that overselling subsequent to 31st August 1917 should not be offset against previous overbuying. The reason for making this exception was that the Secretary of State had in 1917 given an unconditional assurance to the Banks on this point and the Banks had regulated their operations accordingly. In virtue of the two principles referred to, overselling to the extent of about 900,000*l.* has been brought to account in reduction of overbuying claims, while a further amount of about 250,000*l.* has been ignored in consequence of the above-mentioned assurance.

The total abatement of claims under the overbuying guarantee resulting from questions arising out of my audit amounts to more than 1,750,000*l.* sterling, and I estimate the consequent saving to Indian Revenues, apart from the portion of one claim which is not yet adjusted, at about Rs. 40,00,000 (equivalent at 2*s.* the rupee, the rate used for conversion in official accounts, to 400,000*l.*)

The experience gained in the course of the audit has been of assistance in connection with arranging the scheme of liquidation by differences described above and in carrying through a number of complicated adjustments with the Banks.

There is one further aspect of the guarantee which calls for comment. The terms of the guarantee provided for the inclusion by the Banks of their purchases of sterling remittance in India and Ceylon.

When detailed figures of the overbuying claims were reported by the Government of India it was evident that the transactions of the Colombo branches of some of the Banks formed a considerable portion of the total, and further, that very large amounts of Councils sold to the Banks during the currency of the guarantee had been allotted to these branches, thus diminishing the amount available for reducing the overbuying of the Indian branches. One Bank also claimed in respect of purchases in Basra, the inclusion of which had been specifically sanctioned by the Secretary of State. On a rough estimate of the amounts involved it appeared that probably as much as 9,000,000*l.* had been employed by the Banks in financing surplus non-Indian exports, and in drawing the attention of the Secretary of State to the matter I suggested that, while no specific claim could probably be raised against Imperial revenues in respect of the cost of making good the consequent loss on exchange, the expenditure should be taken into account in calculating India's contribution to the cost of the war.

With regard to this question the following Minute was approved by the Secretary of State in Council:—

> "The guarantee of Ceylon and Basra overbuying was an integral part of a series of measures, designed to support the Indian currency system, for which the Government of India have always assumed responsibility, with a view to facilitating exports of war importance. It would not be possible now to raise the question of an adjustment in respect of any benefits thus accruing to Ceylon and the Mesopotamian Administration, and the assistance given in this way—and to a far greater extent by India's currency policy as a whole throughout the war—must, as the Auditor observes, be regarded as an element in India's total war contribution, direct and indirect."

DISBURSEMENTS.

EXPENDITURE:

Posts and Telegraphs:

15. Payments under the Postal arrangement with the Lords of His Majesty's Treasury - - - £45,788 0*s.* 0*d.*

This amount represents the Indian portion of the subsidy, as hitherto, viz., 54,588*l.*, *less* 8,800*l.* on account of the discontinuance of sorting mails at sea.

The question of adjustment in favour of Indian revenues in respect of the re-assessment of the Australian contribution to the cost of the mail service for the period subsequent to 31st January 1915, and other questions resulting from the dislocation of the mail service in consequence of the war, are still under consideration.

As a result of the delay on the part of the General Post Office in effecting a settlement of this question, and the uncertainty as to the amount now due to Indian revenues in respect thereof, the Secretary of State has decided to withhold payment of any further instalment of the subsidy pending a satisfactory adjustment of the account up to the 31st January 1919 at least.

Political:

16. Sum placed at the disposal of the Secretary of State for India for Secret Service - - - - £5,500 0*s.* 0*d.*

The Secretary of State has furnished me with a certificate of the sum expended under this head during the year, and of the balance in hand on the 31st March 1920. The certificate further states that the expenditure was necessary for the public service.

Civil Furlough and Absentee Allowances:	£	*s.*	*d.*
17.—Page 11. Indian Civil Service - - -	282,613	12	9
„ 11. Other Civil Services in India - - -	189,433	14	3
„ 11. Bengal Pilot Service - - -	5,423	5	3
„ 17. Civil Officers in the Public Works Department -	100,483	4	7

These figures include the pay of "civil volunteers" referred to in my last Report. A further, and final, statement of such expenditure, covering the period 1st January

to 30th June 1919, is being compiled in my Department for the information of the Controller of War Accounts, in connection with the question of the "normal cost" of establishments in India.

"Foreign Service" contributions by the Imperial Government towards leave allowances and pensions of civil volunteers lent by the Government of India for war duty in other than the fighting services, amounted during the year 1919–20 to 2,105*l.* (*see* page 10). One of these officers has been permanently transferred to the Home Civil Service; of the rest, one only remains temporarily on duty.

Overpayments of absentee allowances amounting to over 700*l.* have been pointed out and reported to India for recovery. A further sum of 650*l.* should also have been transferred during the year to the Remittance Account for recovery by the Government of India from various local funds; attention has been drawn to this omission, and the necessary adjustment will be effected in the Accounts for the year 1920–21.

MILITARY SERVICES:

Army—Effective:

18. Payments to the Imperial Government on account of Disbursements by the War Office in respect of His Majesty's British Forces serving in India - - £911,700 0*s.* 0*d.*

This amount is made up as follows:—	£
Capitation Rate - - -	861,700
Gratuities on death, discharge, &c. -	45,000
Deferred Pay - - -	5,000
	£911,700

The first two items represent the charges falling on Indian revenues in respect of British troops despatched with Expeditionary Forces or exchanged for substituted troops, under the Memorandum agreed to by the India Office and the War Office (*vide* paragraph 18 of last Report). The sum of 5,000*l.* on account of Deferred Pay is subject to adjustment on the basis of actuals.

19. Indian Troop Service - - - - £338,202 14*s.* 2*d.*

This amount includes an advance of 310,000*l.* subject to adjustment.

The advances for the four years to the 31st March 1918, amounting to 1,113,600*l.* and shown as outstanding in previous Reports, have been adjusted by the payment of a further sum of 24,145*l.*, which is also included in the above amount.

Army—Non-Effective:

20. Payments to the Imperial Government on account of Retired Pay, Pensions, &c., of His Majesty's British Forces for service in India:—

	£	*s.*	*d.*
For the year 1919-20 - - - -	946,073	0	0
Add—Refund of portion of amount deducted in previous years in respect of contribution towards War Pensions and Gratuities payable in India and in England - - - -	495,000	0	0
	1,441,073	0	0

The sum of 946,073*l.* is an advance subject to adjustment.

The remaining sum of 495,000*l.*, as stated in my last Report, was repaid to the War Office pending settlement of the question of incidence, as between Indian and Imperial revenues, of the extraordinary Non-Effective charges arising out of the war.

21. Pensions of Widows, &c., of Officers killed in action, &c. £93,244 15*s.* 0*d.*

Pensions of Widows, &c., of Officers, &c., of the Indian Service - - - - - £78,913 11*s.* 10*d.*

Amongst other questions raised affecting the grant of pensions under this head is one involving a principle of some importance and the interpretation of the Royal Warrants, viz., the effect of *paid acting rank* on the pensions of officers and soldiers, and of their widows. The point raised was to the effect that, in order to convey the right to enhanced pension, such acting rank must have been held on the date of the *original* casualty. The orders of the Government of India on the subject seem to support this view, but the question is still under consideration.

In my last Report (paragraph 22) I referred to considerable overpayments. Some of these have been recovered, but in certain cases of Alternative Pensions under the Royal Warrant of 1st August 1917, granted, contrary to the practice of the Ministry

of Pensions, from a date prior to the widow's application, the Secretary of State has waived recoveries amounting to about 300*l.* The waiving of recovery in these particular cases of erroneous grant is contrary to the practice both of the War Office and the Ministry of Pensions.

Marine—Effective.

22. Stores for India, Miscellaneous - - - £729,758 8*s.* 9*d.*

This amount includes an advance of 113,000*l.* to the Admiralty, subject to adjustment.

Marine—Non-Effective.

23. Royal Indian Marine Retired Pay - - £27,704 2*s.* 1*d.*

This is the net amount after the transfer of 2,349*l.* 3*s.* 3*d.* to the head of "Pay and Pensions chargeable to Native States, Local Funds, &c.," (page 29) for recovery in India from Madras and other Port Funds.

A further question as to the particular Port Funds liable for these pensionary charges was raised, and, the Government of India having now replied, opportunity has been taken to review the lists of Royal Indian Marine officers who have served as Port officers at Madras, Akyab, Bassein and Moulmein. As a result of this investigation it appears that the cases of several officers have been omitted, and that a charge of probably several thousand pounds is accordingly outstanding against the Port Funds mentioned above, as well as a further recurring annual charge in respect of officers still living.

I have called attention to this matter and it has been referred to the Government of India for report.

DEBT:

Permanent Debt discharged:

24. Liability for British 5 per cent. War Loan (1929–47) - £8,796,000

Sums aggregating this amount, further proceeds of the Indian War Loan referred to in my last Report, were paid over to His Majesty's Exchequer during the financial year in respect of the outstanding liability assumed by India for a contribution of 100,000,000*l.* towards the cost of the war, approved by Resolutions of both Houses of Parliament dated 14th March 1917.

War Loan to the extent of 569,395*l.* 0*s.* 4*d.* was also cancelled by the payment of 500,000*l.* on account of the Sinking Fund.

The amount of War Loan in respect of which India was still liable on the 31st March 1920 was 21,278,012*l.* 13*s.* 2*d.*

The amount of interest paid 1st June and 1st December 1919 on the outstanding War Loan, as reduced by the successive payments to His Majesty's Exchequer referred to above, was 1,394,532*l.* 5*s.* 11*d.* (*vide* page 5).

REMITTANCE ACCOUNT BETWEEN ENGLAND AND INDIA:

25. Purchase of Mules - - - - - £159,795 0*s.* 8*d.*

As the result of a question raised by me on the amount of berthing commission charged in respect of the S.S. *Titian* and S.S. *Winifredian*, vessels employed as transports for the conveyance of mules from Buenos Ayres to India, the sum of 1,885*l.* 6*s.* 10*d.* has been recovered from the Agents.

26. Stores supplied by the War Office on direct demands from India - - - - £1,734,573 1*s.* 1*d.*

As the result of questions raised by me on the prices of various stores obtained through the Ministry of Munitions, recoveries amounting to 3,102*l.* 11*s.* 8*d.* have been effected.

27. *Rate of Freight payable on Stores shipped to India.*

The practice of the India Office prior to January 1918 was to obtain tenders for freight of stores by negotiation with shipowners. Control of shipping was exercised by the Ministry of Shipping from April 1917, but the practice referred to was continued up to December 1917. From January 1918 basic rates for Government stores were promulgated by the Ministry of Shipping which were considerably in advance of those obtaining previously. The technical advisers of the India Office considered that the new rates were excessive; the question was therefore taken up with the Ministry of Shipping and, pending settlement, one-third of the amount claimed was withheld. Correspondence took place between the two Departments, but no agreement could be reached. It was then suggested that the question should be referred to the Cabinet for decision, but before that step was taken further attempts were made to settle the matter by inter-departmental

discussion. At one of the meetings the representatives of the Ministry of Shipping offered to supply further information as to the basis of the rates, and my Assistant was asked by the India Office to represent them in the matter. The information obtained by him appeared to strengthen the India Office contention and further correspondence ensued, but without any settlement being reached. It was then agreed by both Departments that the case should be referred to the Cabinet, and Sir L. Worthington Evans was appointed to act as arbitrator. The rates claimed by the Ministry of Shipping were 125*s.* per ton from January to December 1918 and 75*s.* to February 1919, when control ceased. The India Office contended that 75*s.* and 60*s.* per ton, for the respective periods, would be fair rates. The arbitrator decided that 95*s.* and 70*s.* respectively should be paid. This award resulted in a reduction in the amount payable by the India Office of about 130,000*l.*

In so far as the stores concerned were re-issued from India for Imperial purposes, *e.g.*, to Mesopotamia, &c, Imperial revenues benefit by the reduced rates, as the claim for such stores is based on their actual cost, including freight.

28. *War Expenditure in connection with the Employment of Indian Troops out of India.*

Advances of 65,794,731*l.* on this account have been made during the year by the War Office. The actual net expenditure in India and the Field was 80,376,177*l.*, which was arrived at by making certain deductions from the gross expenditure, viz., 406,356*l*, in respect of contributions by certain Indian Native States, and 4,430,091*l.* representing the cost to Indian revenues in normal circumstances of the troops sent abroad, in accordance with the terms of the Memorandum referred to in previous Reports.

A further payment of 50,000*l.* was made during the year for Aircraft and Tanks presented by His Exalted Highness the Nizam of Hyderabad.

The vouchers relating to expenditure at the India Office in respect of Expeditionary Forces and other War Services have been audited in my Department and certificates to that effect have been furnished to the War Office for production to the Comptroller and Auditor-General, who accepts my audit of this expenditure. The payments during the year included amounts for pay and gratuities to officers on demobilisation. A special section was set up to audit these amounts in the usual manner, but the difficulty and often impossibility of recovering any overpayments after the officer had been demobilised led to the introduction of the system of pre-audit, as a result of which about 4,500*l.* was saved by the prevention of proposed erroneous payments. About 1,800*l.* was also recovered in respect of overpayments made before the pre-audit was commenced.

During 1919–20 an amount of 388,915*l.* 0*s.* 8*d.* was charged to the head "War Stores Suspense Account," which sum, together with 756,409*l.* 11*s.* 6*d.* similarly charged in the previous year, *i.e.*, a total of 1,145,324*l.* 12*s.* 2*d.*, has been reclaimed from the War Office. This amount represents the cost of flannel, mosquito netting, &c., under supply for India at the date of the Armistice, for re-issue, as required, to the various Expeditionary Forces; instead of being shipped to India the stores were temporarily warehoused at the India Store Depot and at Manchester, and were finally handed over to the Disposals Board, who retained the sale proceeds as a credit to Imperial revenues.

The sanction of Parliament has still to be obtained in respect of the sum of 13,100,000*l.*, provisionally credited to the War Office in the Indian War Accounts of the previous year (*vide* para. 28 of last Report) in respect of a proposed additional contribution by India towards the cost of the war.

29. *Cases of fraud in the Accountant-General's Department.*

In commenting on the Accounts for the year, it is necessary to draw attention to two series of frauds amounting in the aggregate to 1,112*l.* 15*s.* 10*d.*

This is the first occasion that a loss due to fraud has arisen in the India Office.

The first series was based on the entry of fictitious accounts in the Accountant-General's books. Forms were issued in the ordinary course to the addresses indicated in these accounts and, on presentation, were passed for payment. This continued for a period of about two months before discovery ensued.

The frauds were traced to a temporary clerk who had recently been dismissed from the Department on other grounds. He was arrested, and proceedings were taken against him, with the result that he was sentenced to imprisonment.

In the case of the second series the method adopted was the issue of forms bearing forged signatures, on which payment was made by the cashier on the assumption that they were genuine vouchers. Discovery was effected a few days later in the course of reading over vouchers against the books, when it transpired that there were no corresponding entries. The details of execution, however, were so skilful that the closest investigation failed to lead to the discovery of the perpetrators, though it was clear that the forgeries originated in the Department.

As a result of the frauds the Secretary of State appointed a Committee "to "enquire how far deficiencies of method, including the system of control, or of "personnel, are responsible for the recent frauds in the Accountant-General's "Department, and to recommend any measures, compatible with reasonable "promptitude in the satisfaction of claims, which would conduce to greater "efficiency and security in the machinery for making payments." I was asked to serve as a member of the Committee.

The Committee reported that the normal procedure of the Accountant-General's Department was sound in principle, and required only to be tightened up in certain details. The frauds were associated with the pressure of work and weakness of personnel due to war and post-war conditions, as a result of which the full requirements of pre-war procedure were in some important particulars relaxed. They made various recommendations which appear to provide adequate safeguards against a recurrence of fraud in the future.

30. The following is a list of Disallowances on the Account for 1919–20:—

H. A. Cooper,
Auditor.

India Audit Office,
14th April 1921.

No. 3.

REPORT of the AUDITOR OF INDIAN HOME ACCOUNTS on the STORE ACCOUNTS from 1st April 1919 to 31st March 1920; prepared and submitted to Parliament and to the Secretary of State in Council, in pursuance of the 27th Section of the Government of India Act, 1915.

1. The number of Packing Accounts received back from India since the date of the last Report is as follows:—

11 for the year 1917–18, leaving 821 outstanding.
84 for the year 1918–19, leaving 857 outstanding.

2. In the year 1919–20, 11,968 Packing Accounts were sent to India, of which number 1,471 are outstanding at the present date. These documents are the evidence of the due receipt of Stores in India, and the basis for the recoveries of the value of short deliveries.

No Packing Accounts are received in respect of the Stores supplied by the War Office on direct demands from India (*see* paragraph 26), but any necessary adjustment as to deficiencies, &c., will be made on advice from that country.

3. Correspondence is still proceeding with the Ministry of Shipping in regard to the stores (value, including freight, 23,228*l.*) lost per the *Clan Mackay*, and the final report has not yet been received from the Salvage Association in the case of the *Shirala* (value of stores, plus freight, 349,300*l.*)—*vide* paragraph 4 of last Report.

INDIA AUDIT OFFICE,
14th April 1921.

H. A. COOPER,
Auditor.

No. 4.—SUMMARY of PAYMENTS in the Year 1919–20 for Stores procured for Shipment to India.

TOTAL RECEIPTS ON ACCOUNT OF REVENUE (Carried forward) £	3,060,100	3,749,799			

of the HOME TREASURY of the GOVERNMENT of *India*, for the Year 1919–20.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The sums available were much larger and the rate of interest was higher than appeared to be probable when the Budget was prepared.
2	The anticipation that the securities held in the Reserve would have to be sold at a comparatively early period in the year was not realised.
3	Mainly due to the higher rate of discount obtainable.
4	The recovery from the Postmaster-General is now expected to be made in 1920–21.
5	The receipts from the Indo-European Telegraph Company in respect of traffic balances were greater than was expected.
6	The receipt included in the Budget is now expected to fall in 1920–21.
7	Due to exceptional receipts in respect of which no estimate could be framed.
8	The Account represents receipts due before 31st March 1919 which were estimated for under "Subscriptions in respect of the Indian Civil, &c. Funds." From that date the receipts were not regarded as contributions towards Annuities, but as subscriptions to the Indian Civil Service Provident Fund, and are included in the Account under "Remittance."
9	Due to decreases under Military Funds, and to the exclusion in the Account of contributions towards Annuities of members of the Indian Civil Service. *See* Note No. 8.
10	Due to increased payments of Leave and Deputation Allowances and to large donations on marriage.
11	There was an increase of 18,593*l.* in the recoveries on account of Stores lost in transit to India, and of 8,177*l.* in the receipts for inspection of Stores for other Government Departments. On the other hand, there was a decrease of 14,300*l.* under Diplomatic and Consular Establishments in Persia, and there were variations under other sub-heads.
12, 13	The Estimates were furnished by the Companies. The receipts from the Southern Punjab Railway Company include, in addition to surplus profits for 12 months contemplated when the Budget was prepared, an instalment on account of a further period.
14	The local advances from Army funds proved more than sufficient to meet the capitation claim.
15	Mainly due to unexpectedly large receipts in respect of cloth cuttings sent from India for sale.
16	There were more officers on leave than were provided for in the Budget.

No. 6.—Comparison of the Estimated and Actual Receipts and Disbursements

	156,074,500	216,135,451			
Carried forward £	162,733,000	219,984,466			

of the Home Treasury of the Government of *India*, for the Year 1919-20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Budget provided for the renewal or replacement by fresh capital of Debentures of the Assam-Bengal, Bengal-Nagpur, and Madras and Southern Mahratta Railway Companies. Of these 3,123,400*l.* were renewed and the remainder discharged.
2	Due to an increase of 77,814*l.* in respect of special receipts by the Burma Railway Company from the Burma Mines Company.
3	The increase was mainly due to the recovery of disbursements included under this head in respect of furlough pay and gratuities to officers on demobilisation.
4	The Account represents the recovery of 20,248*l.*, payments in respect of rivercraft, short-recovered in previous years owing to temporary disallowances by the War Office, and of 2,357*l.* the actual payments during the year.
5	Partly due to a smaller number of appointments than was provided for in the Budget, owing to an extension of the courses at the Royal Military College, and partly to the postponement of claims on the War Office.
6, 7	Fewer officers were lent for service than was contemplated.
8	The Account represents the recovery from the War Office of the cost of War Stores surplus to India's requirements and sold in this country, which was provisionally included in the Budget under "Remittance—Expeditionary Forces and other War Services" pending decision as to the disposal of sale proceeds.
9	The Account represents the recovery of all outstanding expenditure on account of guns taken over by the War Office, payments for which were transferred to this head in 1917–18 and 1918–19 from "Special Defences (1902)."
10	Due to the recovery of the expenditure in the year, for which no provision was made in the Budget.
11, 12	Mainly due to recoveries which were expected to fall in 1918–19.
13	Due to a recovery which was expected to fall in 1918–19.
14	Due to the recovery of sundry miscellaneous advances in the year, for which no provision could be made in the Budget.
15	There was a decrease of 993,000*l.* in maturities of Treasury Bills, mainly due to investments in National War Bonds instead of in Bills as contemplated in the Budget: moreover, Exchequer Bonds of the amount of 8,543,500*l.* were converted instead of being paid off, and the redemption money does not appear in the accounts. On the other hand, 6,298,000*l.* was received in respect of sale of securities, for which no provision was made in the Budget.
16	Mainly due to the investment in three months' instead of in six months' Bills as provided in the Budget.
17, 18	Mainly due to the conversion at maturity of 270,200*l.* 6 per cent. Exchequer Bonds into 5¾ per cent. Bonds, instead of their being paid off and the proceeds re-invested. The Budget, however, contemplated the inclusion of the receipts for interest and discount under the Revenue Head of "Interest" and not their investment.
19	Due to Exchequer Bonds in the Reserve being realised and the proceeds re-invested in British Treasury Bills.
20	Due to the changed conditions of employment of these ships owing to the termination of the war.
21	Mainly due to the transfer of securities to the Officers' Families' Fund.
22	Mainly due to the purchase in the market of Treasury Bills maturing earlier than was estimated in the Budget. There was, however, a reduction in the amount of three months' Bills held during the year owing to a grant late in 1918–19.
23	The deposits proved to be unconnected with the war and have been shown as miscellaneous in the Account.
24	Exceptional receipt.
25, 26	Due to Exchequer Bonds maturing during the year, and the re-investment being made in three months' British Treasury Bills.
27	*See* Note No. 23.

Bills of Exchange and Telegraphic Transfers on India	12,250,000	31,226,219	18,976,219	—	33
	60,105,000	110,837,897			
TOTAL RECEIPTS £	222,838,000	330,822,363			

of the Home Treasury of the Government of *India*, for the Year 1919–20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	Mainly due to increased expenditure in India and in the Field, and to the rise in the rate of exchange at which recoveries were effected. On the other hand, the Budget provided for a recovery in respect of War Stores not shipped to India which has been shown in the Account under "Deposits and Advances."
2	The Budget, which was based on information received from India, proved to be too high.
3	The transactions during the year resulted in a refund of 431*l.*
4	Receipts on this account were too uncertain to be estimated when the Budget was prepared.
5	The Budget was based on information received from India. The increase is mainly attributable to a recovery expected in 1918–19.
6	An exceptional transaction.
7 8 9	The Budget was based on information received from India.
10	Owing to the demand for remittances to this country consequent on the rise in exchange, the transactions on this account resulted in a net disbursement.
11	There was an increase of 413,598*l.* in supplies to His Majesty's ships, of 66,197*l.* in the receipts for teak supplied to the Admiralty, and of 348,337*l.* in respect of miscellaneous advances in India and of war disbursements excluded from the special War Accounts. On the other hand, there was a decrease of 143,000*l.* in the receipts on account of African Protectorates, and there were variations under other sub-heads.
12 13	Due to the cessation of requirements in East Africa. The Budget was framed on the most recent information.
14 16	The receipts on these accounts were too uncertain to be estimated.
15	Mainly due to the rise in the rate of exchange at which recoveries were effected.
17	An exceptional transaction which could not be foreseen when the Budget was prepared.
18	The Budget, which was based on the experience of previous years, proved to be too low.
19 20 21 22	The Budget was, in each case, a nominal one.
23	Of the Debentures maturing, 395,000*l.* were renewed instead of being replaced by fresh capital, and 115,000*l.* were discharged.
24	The Budget was a nominal one. The Account includes 2,429*l.* in respect of compensation received for the commandeering by the War Office of the Company's premises.
25	The sales have been smaller and the price realised much lower than appeared probable when the Budget was prepared.
26 27 28 29 30	The receipts on these accounts were too uncertain to be estimated.
31	An exceptional transaction. (*See* Payment side.)
32	The Account represents the amount appropriated from Paper Currency Reserve to assist Home Treasury Balances in meeting payments for Reverse Telegraphic Transfers and purchases of gold.
33	The Budget Estimate was based on the Telegram from the Viceroy dated the 19th March 1919. The Telegram from the Viceroy dated the 24th February 1920 intimated, however, that Bills and Transfers amounting to 31,226,200*l.* could be met from Treasury Balances.

CIVIL FURLOUGH AND ABSENTEE ALLOWANCES	300,000	576,971	276,971	—	41
Carried forward £	5,857,900	5,979,991			

of the Home Treasury of the Government of *India*, for the Year 1919–20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	Due to the allowances of an Officer on special duty for which no provision was made in the Budget.
2	Due to exceptional expenditure and to the allowances of an Officer on special duty for which no provision could be made in the Budget.
3	The demands were greater than was indicated in the forecasts received from India.
4	
5	Due to increase in prices.
6	The demands were greater than was indicated in the forecasts received from India. Payments were also made which were expected to fall in 1918–19.
7	The demands were greater than was indicated in the forecasts received from India. There was also an increase in prices.
8	Mainly due to the number of Probationers being much greater than was anticipated.
9	The demands were greater than was indicated in the forecasts received from India.
10	There was an increase of 26,615*l.* owing to the transfer to "Railway Revenue Account: State Railways, Interest on Debt," being less than the Budget. On the other hand there was a decrease 498*l.* owing to transfer to "Irrigation: Major Works, Interest on Debt," being more than the Budget, and also a decrease of 262*l.* in interest on India Stocks.
11	The payments to His Majesty's Exchequer in discharge of liability were 104,000*l.* less than the Budget, but were made at an earlier date than seemed probable when the Budget was prepared.
12	The Budget represented a provision for Sinking Fund of the difference between 2,132,000*l.*, the total sum fixed for Interest and Sinking Fund by Telegram from the Viceroy, dated 6th January 1919, and 1,498,300*l.* included for Interest. The payment shown in the Account was made in accordance with Telegram from the Viceroy, dated 15th February 1920.
13	The number of Officers on leave was fewer than was provided for in the Budget.
14	The demands were greater than was indicated in the forecasts received from India.
15	Due to the Joint Purse receipts from the Eastern Telegraph Company, which were taken in reduction of payments, being much greater than was expected.
16	Mainly due to the demands for stores being less than was indicated in the forecasts received from India. Payments were also postponed to 1920-21.
17	The Budget figure was a nominal one. The Account represents the allowances of an Officer on deputation and charges in connection with the assay of Pyx coins sent home.
18	Due to cancellations in demands.
19	There was an increase of 77,776*l.* under "Salaries of the Home Establishment" and 3,392*l.* under "Auditor and Assistants" due to the additional temporary staff required for increased work and to the grant of further war bonuses, an increase of 2,162*l.* under "Law Charges," and 3,100*l.* under "Office Charges and Expenses," mainly due to the necessity for increased accommodation. There were also variations under other sub-heads.
20	Mainly due to expenditure arising out of the India Reforms Bill.
21	Due to the postponement of payments to 1920–21.
22	The expenditure in connection with the Jails Commission proved much greater than was expected when the Budget was prepared.
23	The demands were greater than was indicated in the forecasts received from India.
24	Provision was made in the Budget for the passage of a large number of Officers, but the appointments were very few. On the other hand expenditure was incurred in connection with Officers on special duty for which no provision was made.
25	Due to payments which were expected to fall in 1918–19.
26	Due to expenditure in connection with appointments to the Bengal Pilot Service.
27	Mainly due to the allowances of Officers studying educational methods for which no provision was made in the Budget, and to the payments in connection with Government Scholars being greater than was expected.
28	Fewer appointments were made than was anticipated.
29	The payments on this account decreased more rapidly than was expected.
30	Due to the allowances of Officers on deputation or study leave for which no provision had been made.
31	The demands were less than was indicated in the forecasts received from India. Payments were also postponed to 1920–21.
32	Mainly due to the allowances of Officers specially employed, and to a grant of 500*l.* in aid of the London School of Tropical Medicine, for which no provision was made in the Budget.
33	Due to exceptional expenditure which could not be foreseen.
34	Due to payments which were expected to fall in 1918-19.
35	The miscellaneous expenditure on this account proved to be less than was expected.
36	The demands were less than was indicated in the forecasts received from India.
37	Mainly due to the allowances of Officers on special duty, to the expenses of a Coal Expert, and to the increased cost of Tide Tables.
38	Due to payments which were expected to fall in 1918–19.
39	Due to the revision of pensions.
40	Due to the grant of an additional allowance.
41	Due to the payments on account of extended privilege leave and to the rise in exchange.

of the Home Treasury of the Government of *India*, for the Year 1919–20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Account includes Indian Civil Service Annuities which were provided for in the Budget under "Indian Civil, Military and Medical Funds, &c." There were also increased payments in respect of retired Officers of other Civil Services in India owing to the grant of additional pensions, and to the rise in exchange.
2	The Indian Civil Service Annuities estimated for under this head are included in the Account under the previous head. *See* Note No. 1. There were also slight decreases under several sub-heads.
3	The payments on this account increased more rapidly than was expected.
4	Mainly due to the delay in the presentation by the Stationery Office of claims for printing.
5	The demands were greater than was indicated in the forecasts received from India.
6	Mainly due to expenditure in connection with various Committees and the Secretariat of the League of Nations.
7	The Account includes 83,732*l.* in respect of Marine Insurance, of which 77,179*l.* represents the cost of Stores lost in transit owing to enemy action. It also includes 4,356*l.* in respect of Stores taken into stock and 6,119*l.* representing refunds to in excess of recoveries from Contractors in respect of fines and penalties incurred in providing Stores There was an increase of 1,713*l.* under payments for lighterage, &c., and a decrease of 12,682*l.* in respect of packing charges not transferred to final heads.
8	The demands were greater than was indicated in the forecasts received from India.
9	The Budget represented one year's interest at 3·3269 per cent. (the rate adopted in the Account for 1917–18) on 59,262,948*l.* (56,159,548*l.*, the total expenditure to 31st March 1918, + 603,400*l.*, the Revised Estimate for 1918–19, + 2,500,000*l.*, moiety of the Budget for 1919–20). The Account is one year's interest at 3·3345 per cent. (the ascertained rate for 1919–20) on 58,331,476*l.* (56,791,690*l.*, the total expenditure to 31st March 1919, + 1,539,786*l.*, moiety of the actual expenditure during 1919–20).
10	Due to the renewal of Debentures at a higher rate of interest than was estimated.
11	There was a decrease of 6,705*l.* owing to the discharge of Debentures. On the other hand Debentures were renewed at a higher rate of interest than was estimated.
12	There was a decrease of 8,415*l.* owing to the discharge of Debentures. On the other hand Debentures were renewed at a higher rate of interest than was estimated.
13	Due to the discharge of Debentures which it was estimated would have been renewed.

TOTAL EXPENDITURE CHARGEABLE AGAINST REVENUE (carried forwd)	£ 24,630,500	25,541,288			

of the Home Treasury of the Government of *India*, for the Year 1919–20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	The Budget represented one year's interest at 3·3269 per cent. (the rate adopted in the Account for 1917–18) on 3,745,359*l*. (3,739,909*l*., the total expenditure to 31st March 1918, + 1,200*l*., the Revised Estimate for 1918–19, + 4,250*l*., moiety of the Budget for 1919–20). The Account is one year's interest at 3·3345 per cent. (the ascertained rate for 1919–20) on 3,751,632*l*. (3,741,122*l*., the total expenditure to 31st March 1919, + 10,510*l*., moiety of the actual expenditure during 1919–20).
2	Due to the payments on account of extended privilege leave and the rise in exchange.
3	Large expenditure in connection with the passages of engineers provided for in the Budget did not fall within the year. On the other hand, expenditure was incurred in respect of advances of pay to engineers and allowances of Officers on special duty for which provision had not been made.
4	The demands were greater than was indicated in the forecasts received from India.
5	The Account includes 137,838*l*. for Voyage Pay, for which no provision was made in the Budget. There was also a large increase under Furlough Pay, mainly owing to the number of Officers on leave being greater than was expected.
6	More Officers were on leave than was expected when the Budget was prepared. Increases have also occurred in respect of Officers on commuted furlough, and also the rise in exchange.
7	The Budget represented a payment to the War Office on account of the estimated saving in transport charges owing to the war. A payment of 334,145*l*. was, however, made, which included arrears from 1914–15 to 1917–18 inclusive. The Account also includes some charges of the Indian Transport Department at the Admiralty.
8	Mainly owing to the expenditure for the purchase of donkeys provided for in the Budget not having been incurred.
9	The Account includes expenditure in connection with temporary nurses and 4,562*l*. in respect of the Army in India Committee, for which no provision had been made in the Budget.
10	The demands were greater than was indicated in the forecasts received from India.
11	No forecast was received from India. The Account represents payments in respect of indents received during the year.
12	Due to the postponement of payments to 1920–21.
13	The demands were less than was indicated in the forecasts received from India, and payments were also postponed to 1920-21.
14	The demands were greater than was indicated in the forecasts received from India, and payments were also made which were expected to fall in 1918–19.
15	Partly due to the postponement of payments to 1920–21, but mainly due to the demands from India on this Office being less than was expected. The decrease, however, has probably been more than covered by payments included in the Remittance Account under "Stores supplied by the War Office on direct demands from India" and "Aviation."
16	The Budget included 500,000*l*. in respect of additional pensionary charges of British Troops which was withheld pending final decision with regard to further War contribution.
17	Due to delay in the preparation of Accounts by the Army Agents.
18	Due to the retirement in the year of a larger number of Officers than was expected, and to the payment of temporary invalid and disablement pensions.
19	Mainly due to the grant to widows of alternative pensions.
20	The payments on this Account increased more rapidly than was expected.
21	More Officers were on leave than was expected when the Budget was prepared. Increases also occurred owing to the payment of war bonuses and gratuities.
22	Due to increase in prices.
23	Mainly due to demands being greater than was indicated in the forecasts received from India.

Carried forward	£ 47,771,200	41,397,984			

of the Home Treasury of the Government of *India*, for the Year 1919–20—*continued*.

EXPLANATIONS OF INCREASE OR DECREASE.

1 Due to the postponement of payments to 1920–21. The Account includes payments for 900 American wagons allotted from the Reserve of Wagons, for which separate provision was made in the Budget.
2 Mainly due to the payment for bridgework supplied in 1914 by a Luxemburg firm.
3, 4 Due to the postponement of payments to 1920–21.
5 No indent for Stores for this Railway has been received from India.
6 The payments for American wagons were appropriated between the Eastern Bengal State Railway, the East Indian Railway, and the Bengal-Nagpur Railway, according to the number of wagons allotted to each line, as specified in the Telegram from the Viceroy, dated 29th January 1920.
7 The increase occurred mainly under inspection charges.

8 The demands were greater than was indicated in the forecasts received from India.

9 Due to cancellations in demands.
10 The Budget provided 6,300*l*. for payments to Delhi Architects as per Telegram from Viceroy dated the 11th September 1918, and 2,000*l*. in respect of outlay on furniture, &c., by the Delhi Advisory Committee. The Account represents miscellaneous expenditure in connection with the appointment of artisans.

11 *See* Explanation on the Receipt side.
12 The Budget was framed in accordance with a Telegram from the Viceroy dated the 8th March 1919. The Account includes payments for 1,660 American wagons allotted to the Bengal-Nagpur Railway Company from the Reserve of Wagons, provision for which was made in the Budget under "State Railways."

13 The Budget was based on the Telegram from the Viceroy dated the 24th February 1919. The payments to His M[illegible] Exchequer were made in accordance with successive Telegrams from the Viceroy.

of the Home Treasury of the Government of *India*, for the Year 1919-20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	*See* Explanations on the Receipt side.
2	
3	The expenditure on these accounts proved to be less than appeared probable when the Budget was prepared.
4	
5	
6	The Account represents the cost of War Stores, paid for under Contracts running at the date of the Armistice, which were taken into store with a view to disposal in this country instead of being shipped to India.
7	Exceptional transaction for which no provision could be made in the Budget.
8	No expenditure on these accounts appeared probable when the Budget was prepared.
9	
10	
12	
11	The expenditure on this account was very problematical when the Budget was prepared.
13	The Account represents advances of an exceptional character.
14	A sum of 6,000,000*l*., which it was estimated would remain at short notice throughout the year, was invested in Treasury Bills. On the other hand, there was a decrease in sums available for investment. (*See* Explanation on the Receipt side.)
15	Mainly due to the investment in three months', instead of six months', British Treasury Bills.
16	*See* Explanation No. 32 on the Receipt side under "Remittance Account."
17	*See* Explanation on the Receipt side.
18	No provision was made in the Budget for the re-investment of the cost of the Exchequer Bonds maturing or realised during the year. The Account represents the re-investment in six months' British Treasury Bills which were realised before maturity and the proceeds appropriated as required for the assistance of the Home Treasury Balances.
19	Due to the changed conditions of the employment of the ships owing to the termination of the War.
20	Mainly due to a grant, by a transfer of securities, to the Officers' Families' Fund.
21	
22	The deposits proved to be unconnected with the War, and the refunds have therefore been shown as miscellaneous in the Account.
23	Due to the re-investment in three months' British Treasury Bills of the proceeds of Exchequer Bonds maturing in the year.
24	*See* Note No. 22.

	27,877,300	78,288,455			
TOTAL DISBURSEMENTS £	225,119,500	333,540,797			

India Office,
18th August 1920.

of the Home Treasury of the Government of *India*, for the Year 1919–20—*continued*.

	EXPLANATIONS OF INCREASE OR DECREASE.
1	Due to delay in the presentation by the Ministry of Shipping of claims for freight.
2	The Account mainly represents the cost of conveyance to India of mules in 1916, and the purchase and conveyance of mules and jacks during 1917 and 1918.
3	The demands were greater than was indicated in the forecasts received from India, and payments were also made which were expected to fall in 1918–19.
5	
4	The claims by the War Office proved to be much greater than appeared probable when the Budget was prepared.
6	Due to payments which were expected to fall in 1918–19.
7	The Account represents miscellaneous charges incurred.
8	Due to the postponement of payments to 1920–21.
9	*See* Note No. 15, under "Military Services—Aviation."
10	Exceptional transaction for which no provision could be made in the Budget.
11	The Account represents sundry adjustments in respect of recoveries from the War Office in previous years, which were due to other services but were credited under this head.
12	The Account represents a refund to the War Office in respect of charges on Indian account during 1918–19.
13	The Account represents adjustments of amount received in previous years.
14	Due to payments which were expected to fall in March 1919.
15	Exceptional transaction for which no provision could be made in the Budget.
16	Owing to the demand for remittances to this country consequent on the rise in exchange, the transactions resulted in a net payment instead of a net receipt.
17	There was a large decrease in the allotments of British soldiers owing to the cessation of compulsory stoppages. On the other hand an increase occurred under Miscellaneous Remittances for payment to the War Office on account of soldiers with the Forces, and there were exceptional transactions which could not be foreseen when the Budget was prepared.
18	Mainly due to the continuance of the Allotments of Officers from Mesopotamia who were detained in India, owing to disturbances in that country, when en route for home.
19	The payments of balances due in respect of invalided or deceased soldiers were more than was expected.
21	
20	Owing to the rate of exchange. Remittances through Banks were more favourable to remitters than Bills drawn on this Office.
22	The Budget, based on the experience of previous years, proved to be too low.
23	
24	The decrease mainly represents expenditure which is now expected to fall in 1920–21.
25	
27	
29	
26	Mainly due to an allotment of 2,500 American wagons from the Reserve of Wagons, provision for which was made in the Budget under "State Railways."
28	Of the debentures maturing during the year, 395,000*l*. were renewed and the remainder discharged.
30	The demands were greater than was indicated in the forecast received from India.
31	
32	The requirements from India were less than seemed probable when the Budget was prepared.
33	Mainly due to the payment of 26,927*l*. to the Oversea Prize Disposal Committee in respect of the net earnings of Prize Steamers.
34	The Account represents the balance of the hire of the vessel.
35	The Account mainly represents payment in arrear for coal, in respect of which no Estimate could be framed.
36	Exceptional transactions for which no provision could be made in the Budget.
38	
37	The Budget, which was based on information received from India, proved to be too low.
39	The Budget was framed in accordance with the telegram from the Viceroy dated the 15th February 1919.
40	There was a decrease of 320,000*l*. in the Telegraphic Transfers drawn by His Majesty's Minister at Tehran, but, on the other hand, the provision in the Budget for exceptional expenditure proved much too low.
41	The Budget provided 2,000,000*l*. for purchases in America under the Pittman Act, and 10,000,000*l*. for other purchases. The Account represents 2,397,332*l*. for purchases in America, and 4,609,027*l*. for other purchases.
42	Exceptional transactions for which no provision could be made in the Budget.
43	
44

No. 3.

REPORT of the AUDITOR upon the ACCOUNTS OF THE SECRETARY OF STATE FOR INDIA IN COUNCIL, from 1st April 1920 to 31st March 1921; prepared and submitted to Parliament and to the Secretary of State in Council, in pursuance of the 27th Section of the Government of India Act.

GENERAL.

1. The Home Accounts of the Government of India for the year 1920–21 are different in form from those of previous years, owing to the appointment in October 1920 of the High Commissioner for India. The accounts of the Secretary of State are shown in Account No. 2, those of the High Commissioner in Account No. 4, while Account No. 1 combines under major heads the amounts shown in No. 2 and No. 4. Under clause 9 of the Order in Council appointing the High Commissioner, his accounts are audited by the Auditor of the accounts of the Secretary of State in Council. All questions relating to the transferred services for the whole of the financial year 1920–21 are dealt with in the Report appended to Account No. 4.

It was indicated in paragraph 8 of the preceding Report that the methods of auditing had been modified on account of the increase in the volume of work. Not only has the work increased in volume but in complexity also, and without a largely increased staff it would be impossible to carry out so extensive an audit as in pre-war years. I have intimated to the Secretary of State in Council and to the High Commissioner that, in my opinion, an adequate check can be maintained by the adoption of a test audit, and my proposals as to the methods and extent of examination have been approved.

The Report also differs in form from those of previous years. With regard to one alteration an explanation seems to be desirable. For many years the Report has been closed with a list of amounts surcharged or disallowed on the technical ground that they were outstanding at the close of the financial year under report; a balance differing from that shown in the printed account was accordingly reached.

The origin of this procedure is probably to be found in subsection (6) of section 27 of the Government of India Act, which reads: "The Auditor shall specify in detail in his "Reports all sums of money, stores and property which ought to be accounted for and are "not brought into account." While the sums disallowed had not been accounted for during the year under report, there was, in the majority of cases, at the date of the Report no financial irregularity, as the amounts were the subject of queries raised late in, or after the close of, the financial year, which could not possibly have been adjusted by the end of that year, but which, at the date of the Report, had actually been adjusted. In the present Report the list of disallowances has been discontinued and only such cases as seem to call for comment under what I conceive to have been the intention of subsection (6) of the Act are dealt with. The altered balance arrived at by adding the amounts disallowed does not seem to have been of any use and will no longer be given.

CONTRIBUTION OF HIS MAJESTY'S TREASURY IN RESPECT OF THE ADMINISTRATIVE EXPENSES OF THE INDIA OFFICE.

2. Under section 30, Government of India Act, 1919, it is provided that the salary of the Secretary of State shall be paid out of monies provided by Parliament, and further that the salaries of his Under Secretaries and any other expenses of his Department may be so paid. In 1920–21, in addition to paying the salary of the Secretary of State (5,000*l.*) the Treasury agreed to pay that of the Parliamentary Under Secretary (1,500*l.*) and also to contribute the cost, estimated to be 112,000*l.*, of that portion of the staff of the India Office employed on administrative and political, as distinct from agency, functions. The amount actually shown as a grant-in-aid is 72,000*l.* The explanation of the difference of 40,000*l.* is as follows:—

The Royal Commission on Indian Expenditure which reported in 1900 recommended that the Treasury should contribute to Indian revenues 257,000*l.* per annum as follows:—

	£
In aid of expenses of the India Office	50,000
Half the military charges of Aden	72,000
Increased contribution to cost of Persian Missions	5,000
Half the cost of the transport of troops to and from India	130,000
	£257,000

Instead of direct payment of the first two items above, the following arrangements, giving practically the same result, were substituted.

A payment of 100,000*l.* was made as a contribution to the military expenditure of Aden, and two sums amounting to 22,500*l.* previously paid by the India Office to Imperial revenues were remitted, viz., 10,000*l.* towards the subsidy in respect of the Zanzibar-Mauritius Cable and 12,500*l.* in respect of Establishments in China. The actual payment made to Indian revenues from 1901–02 was therefore 230,000*l.* a year, brought to account as credits in respect of Sea Transport 130,000*l.* and Aden 100,000*l.*

Attention was drawn by this Department in 1914 to the fact that the subsidy for the Zanzibar-Mauritius Cable had expired in November 1913, and that, in consequence, Indian revenues were from that date being relieved of 10,000*l.* per annum less than the Royal

Commission had recommended. The Treasury refused to admit India's claim to the annual payment of a further 10,000*l.* on this account, and the Secretary of State decided to take no further action in the matter.

This point, however, was taken into consideration in connection with the payment to be made from Imperial revenues towards the cost of the India Office under the Government of India Act, 1919. As explained above, that contribution was fixed at 112,000*l.*; from this a deduction had to be made of the amount already contributed for this purpose under the Royal Commission's suggestions but not shown as such in the accounts, but instead of deducting 50,000*l.* the amount was reduced to 40,000*l.* in consequence of the cessation of the subsidy towards the Zanzibar-Mauritius Cable. Thus though the query raised in 1914 had no immediate effect, there is some satisfaction in being able to report seven years later that as a result of its being raised Indian revenues will benefit from 1920–21 onwards to the extent of 10,000*l* a year.

Further investigations showed that 112,000*l.* was an under estimate and that the amount should have been 176,000*l.* This was admitted by the Treasury and the balance of 64,000*l.* in respect of 1920–21 has been credited in the accounts for 1921–22.

The grant-in-aid by the Treasury does not include any amount by way of rent or in respect of the cost of maintenance of the fabric of the India Office.

In the present Account the grant-in-aid is shown under the heading "Miscellaneous." It was suggested by this Department that the more correct method of accounting for the amounts contributed by the Imperial Government towards the cost of the India Office would be to show them as deductions under the heading "General Administration," and this will be done in succeeding accounts.

Further, it would, I think, be preferable to show in detail under the appropriate headings all the amounts contributed or forgone by the Imperial Government.

Commission paid to the India Office Broker.

3. The purchase and sale of securities of the Secretary of State in Council is carried out by a broker, who charges commission at various rates according to the nature of the transactions. Attention was drawn by this Department to the large amount of commission paid in the early months of the financial year 1920–21, and it was suggested for consideration whether a sliding scale of commission rates similar to the one in operation some years ago should be reintroduced, or a salaried broker should be employed as in the case of the National Debt Office, where the emoluments of the broker are fixed at 2,000*l.* a year (increased from 1,500*l.* as from October 1920). It was decided, however, to continue the existing scale of commission, except in the case of the purchase of one class of securities, where the rate was reduced. The total amount of commission paid during 1920–21 was 12,863*l.* 0*s.* 6*d.*

In addition, the broker received 11,892*l.* 2*s.* 6*d.* from the Imperial Government as commission at $\frac{1}{8}$ per cent. on the conversion of 9,513,700*l.* Exchequer Bonds held by the Secretary of State, owing to the fact that the application forms for conversion used by the India Office bore the stamp of the broker's firm. Half the amount received by the broker was paid over by him to the Secretary of State, Indian revenues thus receiving commission of $\frac{1}{16}$ per cent. A similar transaction in 1918 was carried out through the Bank of England a brokerage of $\frac{1}{16}$ per cent. being paid under special arrangement by the Treasury to the India Office. It was pointed out by this Department that if this precedent had been followed in the present instance Imperial revenues would have benefited to the extent of 5,946*l.* 1*s.* 3*d.* It has been decided that any future similar cases shall be dealt with direct by the India Office.

Enemy Ships under the Control of the India Office.

4. These ships were transferred in October 1920 to the control of the High Commissioner for India. The freight earnings, &c., to 30th September 1920 have been credited to a suspense heading in the account of the Secretary of State, and the cost of operating the ships, &c., has been charged to that head. The balance held in the Secretary of State's cash account on 30th September 1920 was 3,584,646*l.* 2*s.* 10*d.*, and this amount is included in the balance on 31st March 1921.

Eastern Mail Subsidy.

5. No payments were made during 1920–21 in respect of India's contribution towards this subsidy. Advances were made from 1915 to 1920, but the Secretary of State has withheld subsequent payments pending satisfactory settlement of the question in dispute. The Postmaster-General has recently made certain suggestions regarding the re-assessment of the subsidy from 1st February 1915, which have been forwarded to the Government of India for their consideration.

Compensation to Deferred Annuitants of the East Indian Railway for Loss of Income Tax Relief.

6. A sum of 23,174*l.* 11*s.* 2*d.* is charged under this heading, which appears for the first time in the accounts for 1920–21.

The East Indian Railway was purchased from the Company by the Government of India in 1879, and payment in respect of the capital stock of 32,750,000*l.* was made by means of an annuity of 1,473,750*l.*, terminating in 1953. One-fifth of this annuity was deferred and interest at 4 per cent. per annum on the 6,550,000*l.* stock represented thereby was payable

until such date as management by the Company, to which the line was leased, came to an end. From that time onwards the full annuity payment would be made.

The Secretary of State gave notice of his intention to determine the contract under which the Company managed the line on 31st December 1919, but subsequently it was extended until 31st December 1924. One of the clauses of the supplementary contract provided for the payment of the above compensation on the following grounds :—

The amounts paid to the ordinary annuitants every half-year consist of interest and capital, and no income tax is payable on the portion representing capital. The deferred annuitants on determination of the contract will thenceforth be in the same position as the ordinary annuitants, and will likewise be entitled to equivalent abatement of income tax. The point was raised whether the amount paid as interest during the period of suspension did not really include repayment of capital, and, if so, whether the deferred annuitants were not entitled to relief of income tax on the portion representing principal.

It was arranged that the Railway Company should, at its own cost, and with all reasonable despatch, bring a legal action to have the point decided. Meanwhile as from the 1st January 1920, pending the result of such action, the Secretary of State would provisionally pay to the Company for distribution among the deferred annuitants such additional sum as would compensate them in respect of the loss they would sustain if the action failed.

Up to the present the case has not come into court although all the necessary preparatory steps have been taken.

Amount due from Turkey.

7. The sum of 1,342*l.* 12*s.* 2*d.* referred to in paragraphs of preceding Reports as being due from the Turkish Government on account of traffic balance—message revenue, Indo-European Telegraph Department—is still outstanding; the amount relates to a period prior to the entry of Turkey into the war, namely, April to November 1914.

Payments relating to Persia.

8. Since 1903 various amounts have been advanced from Indian revenues to the Persian Government. The position at 31st March 1921, so far as amounts brought to account in this country are concerned, was as follows :—

(*a*) 1903 Loans :—

These were consolidated in 1913 and monthly payments of 2,467*l.* 3*s.* 6*d.* are being made on account of principal and interest in accordance with an amortisation table which will expire in 1928.

(*b*) Loans in 1912, 1913, and 1914 :—

245,000*l.* was advanced on which interest is being paid regularly, but no repayment of principal is being made.

(*c*) Advances made from 1915–20 :—

690,892*l.* 19*s.* 2*d.* was paid in 1920–21, and the total amount paid from Indian revenues is 2,135,270*l.* 1*s.* 8*d.* of which 13,000*l.* was refunded in 1920–21 owing to attention being drawn by this Department to the fact that that sum, included in the advances made in previous years, had not been disbursed in Persia. The amount outstanding on 31st March 1921 was therefore 2,122,270*l.* 1*s.* 8*d.* No interest has been paid on these advances.

The amounts due under (*a*) for interest and principal, and under (*b*) for interest, were paid during 1920–21.

The principal outstanding on 31st March 1921 was—

	£	*s.*	*d.*
Under (*a*)	175,203	9	1
,, (*b*)	245,000	0	0
,, (*c*)	2,122,270	1	8
Total	£2,542,473	10	9

The loans under (*b*) and (*c*) were made jointly with the Imperial Government, and similar amounts were advanced from Imperial revenues.

An attempt is being made to consolidate the various loans with a view to their repayment during a term of years.

9. Various sums were expended in 1916 and 1919 in consequence of disturbances in Persia. These payments were chiefly for compensation to prisoners and were made jointly with the Imperial Government. The amount outstanding in the accounts of the Secretary of State on 31st March 1921 was 17,588*l.* 4*s.* 9*d.* I understand that an attempt will be made to recover this amount from the Persian Government.

Secret Service Money.

10. 7,000*l.* was placed at the disposal of the Secretary of State during the year. The amount actually expended was 6,609*l.*, and the balance in hand on the 31st March 1921 was 311*l.* 12*s.* 10*d.*

The Secretary of State has furnished me with a certificate that the expenditure was necessary for the public service.

India's Contribution towards the Cost of the War.

11. A further payment was made during the year in connection with the contribution of 100,000,000*l.* towards the cost of the war, stock to the amount of 572,655*l.* 13*s.* 10*d.* being cancelled at a cost of 500,000*l.*

The amount of British Government 5 per cent. War Loan (1929-47) in respect of which Indian revenues were still liable on the 31st March 1921, was 20,705,356*l.* 19*s.* 4*d.* The amount of interest paid during 1920-21 on the outstanding War Loan was 1,063,900*l.* 12*s.* 8*d.*

Expenditure in connection with the Employment of Troops on the Indian Establishment out of India.

12. On 31st March 1920 the special accounting arrangements adopted in 1914 in connection with the Indian Expeditionary Forces came to an end. After that date the actual expenditure relative to troops serving abroad is being charged to the Imperial Government, instead of, as formerly, the gross expenditure in India and the field, less a contribution representing the cost to Indian revenues in normal circumstances of the troops sent abroad.

The total credit given by India from 1914 to 1920 under the above arrangement amounts to over 33,000,000*l.*

As part of the special accounting arrangements in force during the war disbursements in this country on account of military furlough were advised to the Controller of War Accounts in India for inclusion in his accounts against the Imperial Government. Owing to a misunderstanding as to the date of the cessation of the normal cost system the pre-war accounting arrangements were not resumed at the India Office in 1920-21, and consequently a large amount brought finally to account in this country against Indian revenues is recoverable from the War Office.

The payment to the War Office of 19,300*l.* in respect of minor savings at the India Office, also consequent on the war accounting arrangements, and therefore not due owing to their cessation on 31st March 1920, has since been refunded.

Negotiations are now in progress with the War Office for the payment by that Department of a lump sum by way of terminal adjustment of amounts due in respect of outstanding war liabilities in this country. The furlough payments referred to above will be included in this settlement.

The vouchers relating to expenditure at the India Office in respect of the Expeditionary Forces and other war services, amounting to 1,081,018*l.* 10*s.* 11*d.*, have been audited on behalf of the Imperial Government as in previous years. The payments include amounts for pay and gratuities to officers on demobilisation. These were pre-audited owing to the difficulty, and often impossibility, of recovering any overpayment after demobilisation, and about 8,000*l.* was saved by the prevention of proposed erroneous payments.

Amounts Chargeable to Local Funds, &c.

13. In paragraph 23 of the preceding Report it was stated that attention had been drawn by this Department to the cases of several retired Marine officers where the whole of the pension had been charged to the heading "Royal Indian Marine, Retired Pay," whereas in view of the fact that the officers concerned had rendered service as Port officers at Madras, Bassein and Akyab, a proportion of the pension was chargeable to the appropriate port fund The necessary information as to their service has now been furnished by the Government of India, and 6,300*l.* has been advised for recovery from the various port funds concerned. The annual amount to be recovered in the case of officers still living is 589*l.*

A portion of the allowances of certain civil officers on leave from India during 1920-21 was chargeable to various local funds. Attention was drawn by this Department to these cases and 1,140*l.* has been advised for recovery from the authorities concerned.

Questions relating to Exchange.

14. Payments by Indian Accounting Officers in connection with the employment of members of the Australian Imperial Force in Mesopotamia were reclaimed in India from a representative of the Commonwealth Government, who obtained the rupee funds necessary to effect settlement by means of imprests the sterling equivalent of which was refunded to this Office by the Australian Imperial Force Headquarters in London. The imprests from April to December 1919 were converted at current official rates of exchange varying from 1*s.* 6*d.* to 2*s.* 4*d.* per rupee, but the expenditure which the imprests were used to repay had been incurred mainly when the sterling value of the rupee was lower. A claim was made on behalf of the Australian Imperial Force to be re-imbursed the exchange loss they incurred. This claim has now been settled by a net payment of 13,527*l.* 12*s.* 7*d.*, the sum of 877*l.* 15*s.* 10*d.* having been disallowed in audit by this Department.

The Secretary of State in Council, before meeting this claim, had considered whether it could not properly be set off against a much larger loss on exchange sustained by the Government of India on certain bills payable in rupees to the agents of the Commonwealth Government in connection with the purchase of horses in Australia, but had decided that, as the two matters were not related, the claim must be dealt with on its merits.

The bills referred to involved the Government of India in a loss of about 180,000*l.* through the adoption of an erroneous rate of exchange for their conversion, but as the investigation of this matter was the subject of direct communication between the Government of India and the Commonwealth Government it was not clear from the papers whether the latter had derived a corresponding profit or whether the advantage of the favourable exchange had been passed on to other parties.

As it seemed to this Department probable that part of the gain had accrued to Australian revenues it was suggested that it would not be unreasonable to ask the Commonwealth Government, in spite of the fact that the transactions were separate, to review all the circumstances and to agree to such readjustment as might be shown to be equitable.

The previous decision of the Secretary of State was, however, reaffirmed.

15. In addition to the remittance from India to this country by means of Reverse Transfers, amounting in 1919–20 and 1920–21 to upwards of 54,000,000*l.*, a considerable amount was remitted through the Post Office, the balance of postal and money orders issued in India for encashment in the United Kingdom over those issued in the United Kingdom for encashment in India in 1920–21 being 9,315,007*l.* 10*s.* 3*d.*

In 1919–20 there was a balance in favour of the General Post Office to the extent of 281,326*l.*, but in recent years there has generally been a balance of receipts over payments in the accounts of the Secretary of State.

The magnitude of the balance against India in 1920–21 is attributable generally to the strength of the demand for sterling remittance which prevailed during the year and was partially met by the sale of Reverse Transfers.

The limitations imposed on the sales of Reverse Transfers during the earlier part, and their discontinuance during the later part, of the period left a large demand for sterling remittance unsatisfied with a consequent fall in the market rate of exchange below the official parity of 2*s.* gold.

As the rate for postal and money orders was based on the official parity the demand for this form of remittance assumed large dimensions. The Government of India early realised the necessity for protecting their sterling resources from the effects of this demand, which threatened to defeat the object aimed at in limiting the weekly sales of Reverse Transfers; they therefore increased the commission on money orders and after some delay the poundage on postal orders with a view to bringing the effective value of these instruments to a slightly lower level than the market rate.

These measures were not, however, altogether effectual; the rates of commission and poundage were raised from time to time, but in the course of the constant fall in the market rate there were considerable periods during which the postal and money order rates continued to be more favourable. The balance in favour of the General Post Office continued to be abnormally heavy up to December 1920, when a more drastic increase in the charges was imposed.

Provisional Payments to Departments of the Imperial Government for Services rendered, &c.

16.—(i) War Office, for capitation rate on British Establishments in India, 1,896,000*l.*

Officers and soldiers of the British Services required for service in India are trained by the War Office, and the expenditure involved is repaid to that Department by means of a capitation rate on the establishment maintained in India. The pre-war rate was 11*l.* 8*s.* per head, and during the war a fixed contribution at that rate on the pre-war establishment, namely, 861,700*l.*, was paid by India under the special accounting arrangements described in previous reports. These came to an end on 31st March 1920, and for the year 1920–21 the War Office claimed 2,166,000*l.* in lieu of 861,700*l.* owing to the increase in pay, &c., which was assumed to be $2\frac{1}{2}$ times pre-war figures. The establishment in India was, however, approximately one-eighth below pre-war figures and 270,000*l.* was accordingly deducted, leaving 1,896,000*l.* No detailed evidence has been supplied in support of the assumed increase of 150 per cent. in charges and the payment must be regarded as provisional only.

(ii) War Office, for Gratuities on Death, Discharge, &c., 54,000*l.*

In this case also further information is necessary before the amount, which is an estimate by the War Office of India's share of such gratuities and is unsupported by any details, can be passed.

(iii) War Office, for Non-effective Services, *i.e.*, retired pay, pensions, &c., of His Majesty's British forces for service in India, 1,016,073*l.*

946,073*l.* of this amount is an advance on account of the year 1920–21. The balance of 70,000*l.* is in respect of increased pension rates for that year and the previous one. Similar advances, as mentioned in previous Reports, have been made since 1913–14. Those relating to the years 1913–14 to 1919–20 will, I am informed, be adjusted in the general settlement now under consideration of pension charges arising out of the war.

The normal method of adjustment will probably be resumed as from 1920–21.

(iv) War Office, for Sea Transport charges.

The total amount to be borne by Indian revenues for military passages during the war was fixed at 310,000*l.* per annum, and the balance, after deducting any actual payments made from Indian revenues, was paid over to the War Office. This arrangement was to continue for five years after the end of the war, subject to revision if either the India Office or the War Office so desired. In 1920–21 the latter Department maintained that the general cost of trooping was $3\frac{1}{2}$ times pre-war rates, and after making a reduction as at (i) on account of the smaller establishment in India, 900,000*l.* was taken as the cost of sea transport in lieu of 310,000*l.* The evidence for so large an increase has not yet been supplied and the figure of 900,000*l.* must be regarded at present as provisional only.

(v) Air Ministry, for effective services in respect of members of the Air Force serving in India, 100,000*l.*

Proposals have been made for arriving at a capitation rate in respect of these services, but no definite action has yet been taken. The amount is an estimate by the Air Ministry of the cost of services rendered by that Department.

(vi) Air Ministry, 22,000*l.*, in respect of clothing and ordnance stores taken to India by personnel of the Air Force during 1918–19 and 1919–20.

This is an advance subject to adjustment.

(vii) The advances relating to the purchase of stores, mentioned in paragraphs 3 and 22 of the previous Report as being unadjusted, are commented on in the Report on the Account of the High Commissioner.

AMOUNTS FOR WHICH PARLIAMENTARY SANCTION HAS NOT BEEN OBTAINED.

17.—(i) 13,100,000*l.* credited to the War Office in 1919 in respect of a proposed additional contribution by India towards the cost of the war.

Attention was drawn to this amount in the previous Report, but sanction has not yet been obtained.

(ii) 200,000*l.* on account of the cost of the Exchange Concession on Gratuities.

Gratuities to British officers and men in respect of war service became due for payment on 4th August 1919. These were sterling gratuities, and for the purpose of conversion into rupees in the case of officers and men serving in India or with an Indian Expeditionary Force at that date, the par rate of 1*s.* 4*d.* per rupee was adopted in conformity with the long-established practice, in which the War Office had acquiesced, of converting the sterling pay of British soldiers at that rate. In the view of the War Office, the gratuities should have been converted at the current official rate, which on the 4th August 1919 was 1*s.* 8*d.* per rupee. Owing to a misunderstanding, instructions were issued in India for conversion at 1*s.* 4*d.*, and though the attitude of the War Office was subsequently made clear, it was considered both by the Government of India and the Secretary of State to be impossible to withdraw the concession.

Under the normal cost accounting arrangements Indian revenues bore the cost of the gratuities, including the exchange concession, up to the estimated amount for which they would have been liable if the pre-war Indian establishment of regular officers and men had remained intact in India on 4th August 1919. The excess of actual payments over this amount, due mainly (*a*) to the employment of a large proportion of temporary officers drawing higher gratuities than regular officers, and (*b*) to the excess of actual over establishment numbers, owing principally to the requirements of Mesopotamia, was automatically debited to Imperial revenues in the various war accounts. The War Office refused to admit liability for the charge in so far as it was due to the exchange concession, on the ground that the concession had not been authorised by them, and indeed contravened their expressed views. The matter was referred for arbitration to Sir L. Worthington-Evans (at that time Minister without Portfolio), who gave his award in favour of the War Office.

During 1920–21, 200,000*l.* was paid to that Department as an advance, subject to adjustment when a more accurate estimate of the cost of the concession had been prepared and agreed to by the War Office. Further information is being obtained from India, but the final amount has not yet been arrived at.

In the case submitted by the India Office the disputed charge was described as expenditure to which the Parliamentary Resolutions of 1914 did not apply, and which it would be contrary to the Government of India Act, section 20 (1), that Indian revenues should bear. It was pointed out by this Department in May 1921 that in these circumstances Parliamentary sanction must be obtained for the expenditure necessitated by the award. The same point has since been raised by the Government of India.

W. A. STURDY,
Auditor.

G. H. STOKER, *Chief Accounting Officer.*

that, subject to the observations contained in the annexed Report, it is in my opinion correct.

W. A. STURDY, *Auditor.*

No. 5.

REPORT of the AUDITOR of INDIAN HOME ACCOUNTS upon the Accounts of the HIGH COMMISSIONER FOR INDIA, for the period 1st October 1920 to 31st March 1921.

GENERAL.

1. Under clause 9 of the Order in Council, dated 13th August 1920, which made provision for the appointment of the High Commissioner, it was laid down that his accounts should be audited by the Auditor of the accounts of the Secretary of State in Council, who should make a report on those accounts to the High Commissioner for transmission to the Governor-General in Council. The procedure to be followed was further dealt with in the Secretary of State's Despatch to India, Accounts, No. 12, dated 30th September 1920.

The duties transferred in the financial year 1920–21 were those relating to—

(*a*) the Store Department,
(*b*) the Indian Students' Department,
(*c*) the Official Agent to the Administrators-General in India,
(*d*) the Indian Trade Commissioner,

together with the connected accounting arrangements. The attached account relates to these services from October 1920 to March 1921, but questions relating to payments during the whole of the financial year are dealt with in this Report.

I have explained in my Report on the Account of the Secretary of State for the year 1920–21 that, owing to the great increase of work both in volume and complexity, instead of the practically complete audit carried out in pre-war years a test audit is now being substituted.

My proposals as to the methods and extent of examination necessary to maintain what I consider to be an adequate check have been approved.

ENEMY SHIPS UNDER THE CONTROL OF THE HIGH COMMISSIONER.

2. These ships were under the control of the India Office up to 30th September 1920. The balance of receipts over expenses at that date, amounting to 3,584,646*l.* 2*s.* 10*d.*, is held by the Secretary of State in his accounts. The excess receipts from 1st October 1920 to 31st March 1921 amounted to 400,475*l.* 6*s.* 1*d.*

CHARGES BY DEPARTMENTS OF THE IMPERIAL GOVERNMENT FOR SERVICES RENDERED IN CONNECTION WITH THE SUPPLY OF STORES.

3. The usual practice when stores are supplied by a Government Department on repayment is to make a percentage addition to the value of the stores to cover inspection, storage, handling charges, &c. The War Office in October 1919 made a considerable increase in the scale of these charges, and on the matter being referred to this Department for observations it was suggested that details should be requested of the data on which the proposed rates had been fixed; when these details had been supplied it transpired that a factor had been included which it was admitted ought not, in accordance with previous practice, to apply to stores supplied for Indian purposes, viz., interest on capital, in respect of which $2\frac{3}{4}$ per cent. was added. As a result of further correspondence and conferences, at which this Department was represented, this item was eliminated and other modifications were made. The War Office proposed to charge the new rates on all claims preferred on or after 14th October 1919, *i.e.*, the date of their promulgation, but they afterwards agreed that the new rates should apply only to issues of stores made on or after that date.

As the rates are applied to very large quantities of stores, Indian revenues will benefit considerably by the modifications of the original proposals made by the War Office.

RETURNED PACKING ACCOUNTS.

4. In the case of all stores, except those obtained on direct demand, sent to India, whether as freight or by post, a packing account, giving details of the articles contained in the various cases, is sent out. A separate packing account is sent in respect of each service concerned and bears instructions that it is to be returned to the Director-General of Stores, with any remarks as to damages or short delivery, by the first opportunity after the stores have been surveyed; the document thus serves two purposes; firstly, it affords evidence that the stores have been received, and secondly, it is the basis for effecting recovery in the case of damaged stores or short deliveries. During the war these accounts have been examined in this Department and the attention of the Director-General drawn to any case where action was necessary. Recently there has been a reversion to the pre-war practice under which the accounts were scrutinised by members of the staff of the Store Department and came under audit at a later stage. The importance of these documents is illustrated by a recent case, where a sum of 6,315*l.* was recovered on account of damage to rifles in transit owing to ineffective packing.

It has been the practice to give details in the Auditor's report of the numbers of accounts sent out each year and of those outstanding in respect of the year under review and of the two preceding years. For several years past the number of cases in which a packing account was never returned has run into several hundreds, *e.g.*, there are still 381 Ship Accounts and 936 Post Accounts outstanding for 1919–20 out of a total of 11,968. In 1920–21, 13,579 packing accounts were sent, of which 1,908 are still outstanding; 671 of these relate to Ship Accounts and 1,237 to Post Accounts.

In 1911 a Despatch was sent to India asking for the return of packing accounts so as to reach the Director-General within six months of the date of shipment of the stores to which they related; in cases where the packing account has not arrived within that period any claims against contractors for shortages, &c. have, as a general rule, been waived.

While the packing accounts are not the only documents sent to India relating to stores (invoices and tonnage accounts also being sent out), it seems to me to be unsatisfactory that in so large a proportion of cases the accounts are never returned.

Overcharges on Stores supplied to India.

5. Several questions have been raised by this Department relating to the prices charged for stores supplied to India which have resulted in the recovery of considerable amounts. The supplies were made by Departments of the Imperial Government, chiefly by the Ministry of Munitions, and the charges were based on rates laid down in priced vocabularies of stores. These rates are varied from time to time in accordance with the cost of the stores, and in most cases the point raised was whether the prices charged were those current at the time of issue. The following are typical cases:—

(i) Vickers and Lewis guns were supplied and charged for at 130*l.* and 90*l.* each respectively, whereas the correct rates at the time of issue proved to be 80*l.* and 52*l.* each respectively. In other cases 175*l.* per gun was charged instead of 148*l.* 10*s.* As a result of the queries 11,994*l.* was recovered.

(ii) 230,000 blankets were supplied at 15*s.* 6*d.* each, whereas the correct rate was 13*s.* 6*d.* Pending the receipt of information from India as to which, if any, of these blankets were issued for Imperial purposes, 15,000*l.* on account of the overcharge of 23,000*l.* has been refunded.

(iii) With regard to large supplies of condensed milk, attention was drawn to the fact that cases were charged for at 2*s.* each, whereas on similar previous supplies no such charge had been made. As a result 3,748*l.* was recovered.

(iv) Seaming material for aeroplanes was supplied and charged for at 3*s.* 1*d.* a yard, whereas similar supplies had been made at rates varying from 1*s.* 2*d.* to 1*s.* 11*d.* per dozen yards. On enquiry it proved that the rate should have been 3*s.* 1*d.* per dozen yards, and 1,394*l.* was recovered.

Outstanding Claims for Stores lost during the War.

6. In the two preceding Reports reference was made to the cases of the *Clan Mackay* and the *Shirala*.

The former vessel was lost at sea in 1918 owing to negligent navigation. A claim for the value of the stores was made on the owners of the vessel, who referred the matter to the Ministry of Shipping as the ship was being run on "Liner Requisition." Since the last Report the affairs of the Ministry of Shipping have been taken over by the Mercantile Marine Department of the Board of Trade, and correspondence is still proceeding with that Department. The amount of the claim is upwards of 22,000*l.*, and owing to the long delay in settlement the question is being considered of making an addition to the claim on account of interest.

The *Shirala* was torpedoed while carrying Indian Government stores to the value of 349,000*l.* Two attempts were made to salve these stores, but operations were abandoned at the end of 1920. The salvage is stated to have been disappointingly small, but the final account of apportionment has not yet been received.

Advances subject to Adjustment.

7. The advances referred to in paras. 3 and 22 of the preceding Report were accounted for in 1920–21. Two further advances were made to the War Office in that year, viz., 130,000*l.* on account of mechanical transport supplied to India, and 100,000*l.* to cover estimated expenditure in ordnance factories on stores supplied for India.

W. A. Sturdy,
Auditor.

India Audit Office,

SIDNEY TURNER,
Accountant-General.

No. 12.—STATEMENT showing New or Increased SALARIES or PENSIONS granted or created in *England* between 1st April 1921 and 31st March 1922 (*see* the Government of India Act, Sec. 26).

SALARIES.

Appointments approved by His Majesty's Treasury, and the Secretary of State in Council, in connection with the Reorganisation Scheme, in lieu of existing Administrative appointments:—

	Salary.
	£
1 Permanent Under Secretary of State	3,000
1 Deputy Under Secretary of State	2,200
2 Assistant Under Secretaries of State	1,200—100—1,500
(One of these posts is not filled while the temporary post of Controller of Finance continues.)	
8 Assistant Secretaries	1,000—50—1,200
(Exclusive of the post of Accountant-General.)	
19 Principals	700—25—900
18 Assistant Principals	200—20—240 240—25—500
(Includes Administrative Officers on the scale £400—15—500 employed in Administrative Departments, including the administrative section of the Accountant-General's Department.)	

Correspondence Department.

Administrative Officer for non-effective questions. Salary £750 per annum (personal to present incumbent), in lieu of appointment of Clerk for Examination of Army Non-Effective Accounts.

Director-in-Chief of the Indo-European Telegraph, Public Works Department. Salary increased by an additional £100 per annum.

Miscellaneous Officers.

Assistant Government Director of Indian Railway Companies. Salary increased to £500 per annum.

Clerk in Legal Adviser's Department. New appointment, temporary and non-pensionable. Salary £200, rising by £10 annually to £250 (inclusive of bonus).

Surveyor and Clerk of the Works. Salary increased by £75 per annum.

Assistant to the Surveyor and Clerk of the Works. Salary increased by £50 per annum.

Information Officer. New appointment, temporary and non-pensionable. Salary £1,000 a year (inclusive of bonus).

Gratuities of £420 to a Senior Clerk, India Audit Office, and of £105 to an Officer of the Indian Civil Service temporarily employed in the India Office, in consideration of their work in connection with the Overbuying Guarantee.

Clerical Class. Appointments within the limits of the authorised establishment have been made provisionally, pending the introduction of the scheme for the Reorganisation of the Executive and Clerical Staffs.

In addition to the above, certain acting appointments have been made, and certain acting allowances granted for additional duties performed in abnormal circumstances under the conditions approved by His Majesty's Treasury for the Home Civil Service.

£	—	1,112,546 12 11	116,861 16 3	1,268,118 12 4	488,377 17 8	—	—	371,388 2 3	—	3,357,293 1 5

° Sinking Funds were established in connection with these Railways to redeem India 3½ and 3 per Cent. Stock issued in lieu of Annuity or Debenture Stock. These Funds have been applied to the purchase of India Stock of the denomination offering the best yield. The minus figures represent the interest on India 2½ per Cent. Stock so purchased, and on India 3 per Cent. Stock purchased in excess of the amount issued.

† The Discount Sinking Fund in redemption of Debt incurred in excess of money raised, in respect of the India 3 per Cent. Stock issued in connection with the purchase of the Oude and Rohilkund Railway, has been partly applied to the redemption of India 3½ per Cent. Stock instead of India 3 per Cent. Stock.

I certify that the above account has been examined under my directions; and that, apart from the following observation, it is, in my opinion, correct.

774*l.* is charged to the Punjab Government under the heading "Public Health." This amount represents the cost of nine passages to India, of which two only were in respect of officers appointed to that Province, one officer going to Bombay, five to the United Provinces, and one to the Central Provinces. I drew attention to this and adjustment has been made in the Account for 1922-23 by transfer of 86*l.* to Bombay, 430*l.* to United Provinces, and 86*l.* to Central Provinces.

India Audit Office, 16th April 1923.

W. A. Sturdy, *Auditor.*

No. 3.

REPORT of the AUDITOR upon the ACCOUNTS OF THE SECRETARY OF STATE FOR INDIA IN COUNCIL, from 1st April 1921 to 31st March 1922; prepared and submitted to Parliament and to the Secretary of State in Council, in pursuance of the 27th Section of the Government of India Act, 1915.

GENERAL.

1. Before dealing with the accounts for the year 1921–22 I wish to refer to the general question of the action taken on reports made by the Auditor on accounts submitted to him for examination.

Under section 27, Government of India Act, 1915, which reproduces section 52 of the Government of India Act, 1858, it is obligatory on the Auditor of the Accounts of the Secretary of State in Council to lay all his reports on those accounts before both Houses of Parliament with the accounts of the year to which they relate.

The final Report of the Royal Commission on the Administration of the Expenditure of India (1900) contains the following passage (para. 91):—"It is essential to an effective system of audit that the audited accounts of public expenditure, together with reports of the auditor thereon, should be examined and finally passed by an authority whose judgment has weight with the public."

The Commission went on to recommend that the report of the Indian Comptroller and Auditor-General should be sent to a Standing Committee, two members of which should be unconnected with the India Office, and that one of them should be the English Comptroller and Auditor-General; and further, that if this Committee were set up the reports of the Auditor to the Secretary of State in Council should also come before it for review. The Committee was never appointed, but in connection with the Reforms Scheme provision has been made for the establishment in India of Public Accounts Committees, similar to that set up annually by the House of Commons, which will review the reports of the Indian Auditor General.

Audit Reports and Committees on Public Accounts.

Under clause 9 of the Order in Council of 13th August 1920 appointing a High Commissioner for India, that officer lays before the Auditor of the Accounts of the Secretary of State in Council his accounts with vouchers, &c., and transmits to the Governor-General in Council a copy of any report made by the Auditor on such accounts. These reports will be reviewed by the Public Accounts Committees in India together with the reports of the Auditor-General.

In July 1922 the Government of India in a despatch asked that copies of my audit reports should be supplied for presentation to the Public Accounts Committees of the Central and Provincial Governments. In reply the Government of India was informed that under the Act the reports on the Accounts of the Secretary of State are prepared for submission to him to be laid before Parliament, but that copies would be sent out which might be placed at the disposal of officials of the Central and Provincial Governments and members of the Central and Provincial Legislatures.

The procedure under the Government of India Act is as follows:—

(1) The reports are duly presented to Parliament and are appended to the Accounts of the year to which they relate.

(2) A Departmental minute on the reports is prepared in the India Office and submitted to the Secretary of State in Council. In some instances action has been taken on suggestions and comments made in the reports, but where this is not done the only step open is to make a further reference in a subsequent report.

In this connection I would refer to a sum of 13,100,000*l.* which was paid to the War Office in 1919. This amount was a further contribution towards the expenses of military operations carried on beyond the frontiers of India, and for its payment the sanction of both Houses of Parliament was required under clause 22 of the Government of India Act. Attention was drawn to this by my predecessor in his report on the accounts for the years 1918–19 and 1919–20, and in my last report I referred to the matter. In para. 44 of this Report I have again to state that the requisite sanction has not yet been obtained for this payment, which was made four years ago, or for a payment of 200,000*l.* made in March 1921 and also referred to in my last Report.

Expenditure in 1919 not yet sanctioned by Parliament.

The present position therefore is as follows: The reports on the Accounts of the High Commissioner are reviewed by the Public Accounts Committees in India, but those on the Accounts of the Secretary of State, which relate to much larger expenditure, are only sent out for information and come under independent review in neither country.

2. Although the war, so far as actual fighting was concerned, came to an end in November 1918, its aftermath is still having, and will for some years continue to have, a considerable effect on the work of the India Office. During the war accounting methods on broad lines were adopted

Complexity of work during post-war years.

with reference to military expenditure, in the absence of which it would have been impossible to deal with the greatly increased volume of work; their cessation and the resumption of normal methods have given rise to complications which have made the task of the departments concerned exceedingly difficult. Again, rates of pay have been revised and pensions have been reassessed, under warrants and regulations which are necessarily very involved, and further complications have arisen owing to fluctuations in exchange. In considering the comments made in the following paragraphs the conditions referred to above should not, I think, be overlooked.

150,000*l.* saved to Indian revenues.

The number of queries raised in this Department has, perhaps naturally, greatly increased. Reference is made below to the more important of them. Some of these are still under consideration, but in the cases where replies have been received (including those referred to in my Report on the Accounts of the High Commissioner) the saving to Indian revenues is estimated at over 150,000*l.*

3. In October 1920 certain duties were transferred from the Secretary of State to the High Commissioner for India, namely, those relating to :—

(1) The Store Department.
(2) The Indian Students' Department.
(3) The Official Agent to the Administrators-General in India.
(4) The Indian Trade Commissioner.

Transfer of duties to the High Commissioner.

As from 1st April 1921 further duties previously performed in the Accountant-General's Department of the India Office were transferred to the High Commissioner, viz., the issue of :—

(1) Leave allowances, deputation pay and pensions of the Indian Civil Service, and of other civilian services, and family pensions of such officers.
(2) Leave allowances and deputation pay of military officers in civil employ.
(3) Leave allowances and pensions of officers of the Indian Ecclesiastical Service.
(4) Furlough pay and pensions of officers of the Bengal Pilot Service and family pensions of such officers.
(5) Other civil pensions, such as pensions of Judges.

Questions relating to the above services are dealt with in my report on the accounts of the High Commissioner, *vide* Account No. 5.

4. From the 1st April 1921, payments under certain headings have been charged directly against Provincial Governments. The total disbursements on behalf of each Government are shown in the Secretary of State's accounts of disbursements on account of the Central Government of India, page 23, and details are shown in a supplementary account under appropriate headings. At the desire of the Government of India, a separate audit certificate has been appended to that Account.

Separate Provincial Accounts.

5. In Appendix II., on page 26, will be found a statement showing the balances on suspense accounts included under "Deposits and Advances." This statement, which will appear year by year, was inserted at my request. The Accountant-General keeps details of these accounts in his ledger, but it was impossible, in the absence of such a statement, for anyone not having access to that book to ascertain the indebtedness or otherwise of Government in regard to them, without combining the accounts for a series of years.

Balances of Suspense Accounts.

Reference to the statement will show that the excess of the total of credit balances (representing liabilities) over that of debit balances (representing assets) at 31st March 1922, was 776,758*l.* 0*s.* 8*d.*

Most of the accounts included under "Deposits and Advances" are running accounts, periodically cleared with departments of the Imperial Government. The two accounts with the largest balances are not, however, of this nature; namely, "Enemy ships employed under the control of the India Office," which shows a credit balance of 3,584,646*l.* 2*s.* 10*d.*, and "Advances for the purpose of the Persian Government," which shows a debit balance of 2,520,955*l.* 1*s.* 8*d.* Reference is made to these accounts in paras. 8 and 15 respectively. Reference is also made below, *vide* para. 16, to the debit balance of 17,588*l.* 4*s.* 9*d.* on account of "Expenditure consequent on disturbances in Persia."

Contribution of His Majesty's Treasury in respect of Administrative Expenses of the India Office.

6. The total amount received on this account from the Imperial Government in 1921-22 was 200,000*l.*, shown in the account in reduction of payments under the following heads :—

	£
General Administration - - - -	180,677
Audit - - - - -	10,218
Stationery and Printing - - - -	9,105

Of the total amount 64,000*l.* was the balance due on account of the contribution for 1920-21, *vide* para. 2 of my last Report. The balance of 136,000*l.* represents the total grant in aid for

1921–22, namely, 176,000*l.*, less 40,000*l.*, which is brought to account as described in my last Report. In accordance with the suggestion made in that Report, all contributions by the Imperial Government will be shown in full detail in the accounts, commencing with those for 1923–24, under the appropriate headings.

Commission paid to the India Office Broker.

7. In para. 3 of my last Report I made some remarks as to the payments to the broker, which amounted in 1920–21 to 12,863*l.*, for commission on the purchase and sale of securities, in addition to 5,946*l.* received by him from the Imperial Government as commission on the conversion of bonds held by the Secretary of State in Council. In 1921–22 the payments for commission amounted to 7,502*l.*

As a result of my comments, the terms of payment to the broker were revised in July 1922, with effect from 1st April 1922. Technically, the payments made under that arrangement would not come under review until I present my Report on the account for 1922–23, *i.e.*, a year hence, but in order to show what was the effect of the revised scale of payments it is necessary to give details of the resultant figures.

The rate of commission on long-dated securities (*i.e.*, those with more than five years to run) was not altered, but that for short-dated securities was reduced to half after 3,000*l.* had been earned in any financial year as commission on such securities.

The total commission paid in 1922–23 was 13,444*l.*; of this, 3,762*l.* was in respect of long-dated securities and the balance of 9,682*l.* was for short-dated securities.

The revision of the terms thus effected a saving of 6,682*l.* in 1922–23.

The total commission received by the broker in the last three years, *i.e.*, 1st April 1920 to 31st March 1923 was over 39,000*l.*, *i.e.*, an average of 13,000*l.* a year.

Average payment for last three years, 13,000*l.*

In my last Report I drew attention to the fact that the broker to the Imperial Government received an inclusive salary of 2,000*l.* a year. I understand that the financial advisers of the Secretary of State are of the opinion that, in principle, payment by commission is preferable, in the case of the India Office broker, to payment by fixed salary. I am not in a position either to endorse or to challenge that opinion, but the amounts paid as commission, even after allowing for necessary office expenses, seem to me to be extraordinarily high.

These payments appear to have escaped the notice of the Indian Retrenchment Committee, presided over by Lord Inchcape, probably because they do not appear in the accounts, as the transactions in respect of which the payments are made are brought to account "net."

It seems desirable that the total paid each year should be recorded under "General Administration (England)," and this might be done without change of the existing system by means of a footnote.

c

Enemy Ships under the Control of the India Office.

8. The excess of receipts over payments from 1915 to 30th September 1920, during which period these ships were under the control of the India Office, is 3,584,646*l.* 2*s.* 10*d.*, as stated in para. 5. The ships were transferred, as from 1st October 1920, to the control of the High Commissioner, who holds the excess receipts from that date, which up to 31st March 1922 amounted to 328,808*l.* 11*s.* 6*d.* Details as to the profits earned to the latter date, &c., are given in para. 4 of my Report on the Account of the High Commissioner for 1921–22 (*vide* Account No. 5).

Eastern Mail Subsidy.

9. Reference to this question was made in para. 5 of my last Report. No settlement has yet been reached regarding the contribution payable by India to the General Post Office towards the cost of the Eastern Mail Service. The proposals made by the Postmaster-General for a re-assessment of India's contribution were not agreed to by the Government of India and negotiations are still proceeding. Meanwhile no further advances are being made by India.

Compensation to Deferred Annuitants of the East Indian Railway Company for Loss of Income Tax Relief.

10. Reference was made in para. 6 of my last Report to an amount paid under this head. A further sum of 32,128*l.* 9*s.* 4*d.* is included in the account for 1921–22, making a total to 31st March 1922 of 55,303*l.* 0*s.* 6*d.* These payments are borne by the Secretary of State provisionally under the supplementary contract of 1919, pending the result of an action to be brought by the East Indian Railway Company to determine whether, as explained in my last Report, the interest received by the deferred annuitants between 1st January 1920 and 31st December 1924, while the annuities continue to remain in abeyance, is properly assessable in full to income tax; or whether such a portion, as would have represented the payment of capital had the annuities been payable during this period, should not be exempt from tax.

In the event of the Company's suit failing, the amount paid for compensation will remain a final charge on Indian revenues. It was arranged, in December 1919, that the Railway Company should, at their own cost and with all reasonable despatch, bring the action to have the point decided. The writ was issued in May 1921, but the case has not yet come into Court.

Railway Audit.

11. The London accounts of the Indian Guaranteed Railway Companies are examined and certified by chartered accountants. An additional audit is, however, applied on behalf of the Secretary of State in Council.

In 1882 it was decided that the Auditor of Indian Home Accounts could not claim under the Government of India Act to carry out this supplementary audit, and in accordance with the orders of the Secretary of State in Council this duty was undertaken by the Accountant-General. In connection with the reorganisation of the India Office it was proposed and agreed, in November 1921, that the audit of these accounts should be transferred to my Department with effect from 1st April 1921. It was not possible, however, to complete the audit of the accounts for 1920-21, for which the Accountant-General's Department was responsible, until August 1922. In order to facilitate the transfer of work it was arranged that a member of my Department should collaborate in the examination of the accounts for 1920-21 with the officer formerly engaged on this work.

Transfer of work to Audit Department.

12. In the course of the audit of the accounts of the Southern Punjab Railway for that year attention was drawn to the fact that, although the Company were receiving in India the net earnings of the line in instalments shortly after the close of the half-year to which they related, payment to the Secretary of State of his share of the surplus profits was not being made, owing to necessary accounting arrangements, until more than six months later. The Company thus held for some months considerable balances belonging to the Secretary of State. The suggestion was made, therefore, that either the estimated amount of the Company's share of the net earnings only should be paid to them in India, or the Company should be required to pay interest at Bank Rate on the Secretary of State's share up to the date on which it is paid over. In order to avoid accounting difficulties the latter alternative was adopted. The interest credited in respect of the profits for the year ending 30th September 1922 amounted to rather more than 1,400*l*.

Earlier payment of surplus profits.

13. The audit of the accounts of the various Companies for 1921-22 is not yet complete owing to the circumstances mentioned above, but I hope that in succeeding years it will be possible to carry out the audit at an earlier date.

Amount due from Turkey.

14. In para. 7 of my last Report I referred to an amount of 1,342*l*. 12*s*. 2*d*. due from the Turkish Government on account of traffic balance (for 1914) message revenue, Indo-European Telegraph Department. I am informed that no action can be taken to recover this amount until peace relationships with Turkey are resumed, when this claim, along with others, will be pressed by the usual diplomatic means.

Payments relating to Persia.

15. In para. 8 of my last Report I referred to various advances which had been made from time to time since 1903 from Indian revenues to the Persian Government. The position at the 31st March 1922 was as follows :—

Loans and Advances.

(*a*) 1903 Loans. The monthly repayments of principal and interest under the amortisation table were made regularly in 1921-22.

(*b*) Loans in 1912, 1913 and 1914. Interest was duly paid in 1921-22.

(*c*) Advances made from 1915-20. No payments, on account either of interest or principal, were made in 1921-22.

The principal outstanding on 31st March 1922 was—

	£	*s.*	*d.*
Under (*a*)	153,685	0	0
,, (*b*)	245,000	0	0
,, (*c*)	2,122,270	1	8
Total	£2,520,955	1	8

So far as I am aware no progress has been made with the proposal referred to in my last Report, to consolidate the various loans with a view to their repayment by the Persian Government during a term of years.

16. The amount of 17,588*l.* 4*s.* 9*d.* referred to in para. 9 of my last Report, in respect of expenditure in 1916 and 1919 for compensation to prisoners, &c., in Persia, and held to be recoverable from the Persian Government, is still outstanding.

Compensation to prisoners of war.

Secret Service Money.

17. 6,000*l.* was placed at the disposal of the Secretary of State during 1921-22. The amount actually expended was 5,757*l.* 5*s.*, and the balance in hand on the 31st March 1922 was 554*l.* 7*s.* 10*d.*

The Secretary of State has furnished me with a certificate that the expenditure was necessary for the public service.

India's Contribution towards the Cost of the War.

18. A further payment was made during 1921–22 in connection with the contribution of 100,000,000*l.* towards the cost of the war, stock to the amount of 506,008*l.* 17*s.* 1*d.* being cancelled at a cost of 500,000*l.*

The amount of British Government 5 per cent. War Loan (1929-47) in respect of which Indian revenues were still liable on 31st March 1922, was 20,199,348*l.* 2*s.* 3*d.* The amount of interest paid during 1921–22 on the outstanding War Loan was 1,035,267*l.* 17*s.*

Relief and Repatriation of Destitute Indians.

19. Of the amount of 60,103*l.* 13*s.* 8*d.* charged under this head, approximately 53,000*l.* is the cost of maintenance and repatriation of a number of Adenese seamen found destitute in various ports in this country. Ordinarily such seamen, like Indians, are engaged under "lascar" articles, framed in pursuance of the Merchant Shipping Acts, which operate to render discharges in this country infrequent. Apparently, the majority of the Adenese in question had been allowed, wrongly, to ship under European articles, and in certain cases, where enquiry was made, the authorities at Aden explained that this had been permitted in order to avoid difficulties with British crews.

Section 185 of the Merchant Shipping Act, 1894, imposes on the Secretary of State the responsibility for taking charge of, and sending home or otherwise providing for, Indian seamen found destitute in this country.

The expenditure involved is recoverable from the owners of the vessel which brought the seaman to this country, but for a variety of reasons it is usually difficult and frequently impossible to establish liability.

The responsibility of the Secretary of State under the Act was held to extend to the Adenese, of whom about 1,200 were maintained in lodging-houses until shipping accommodation could be provided for their repatriation. The cost of their maintenance for five or six months amounted to 28,891*l.* 0*s.* 6*d.*, of which about 3,800*l.* is still subject to adjustment on receipt of final accounts. The intention was to repatriate the whole of the men, and sufficient shipping accommodation was accordingly provided at a cost of approximately 25,000*l.* In spite, however, of the fact that further assistance was refused to those who would not embark, only 431 could be induced to leave this country, and of these it was reported that several had returned a few months later.

The full accommodation engaged had to be paid for as it could not be utilised for freight; the cost of repatriation, therefore, worked out at nearly 60*l.* per man. Steps have since been taken to prevent as far as possible the engagement of Adenese as seamen under European articles.

Heavy cost of repatriation.

The greater part of this expenditure may not remain as a final charge to Indian revenues as the question of the responsibility for the administration of Aden is under consideration. The Colonial Office have been informed that repayment of the cost of maintaining and repatriating the Adenese seamen may, therefore, be claimed, entirely or partially, from the Imperial Government.

Questions relating to Pensions.

20. Retired officers of the Indian Service became eligible for assessment or re-assessment of pension under a decision in 1920 of the Secretary of State in Council consequent on a similar concession having been made to officers of the British Service under a Royal Warrant of 1919. Attention was drawn by this Department to several cases where the pensions admissible under this decision had been granted (1) at incorrect rates, and (2) from incorrect dates, &c. Unfortunately, owing to various causes, amongst them the very large increase in the work of this Department due to the war, these cases were not brought under audit until 1922. In dealing with the overpayments thus brought to light, some of which extended over a period of three years, recovery was in most of the cases in the first category confined to the overissue

Incorrect assessments.

in respect of six months only. This was based on the practice obtaining in India in accordance with regulations in force there. I drew attention to the fact that other Government Departments in this country did not deal so generously with pensioners in their payment who had been paid incorrectly, the recovery made being generally in respect of 12 months' overpayment, and in some cases even more.

Revised rules are now being drawn up, and it has been suggested that the period of 12 months should be adopted as regards overpayments both in this country and in India.

The overissues amounted to 3,350*l.*, of which 750*l.* was recovered and the balance written off. In about 30 cases the pensions have been reduced by sums varying from 10*l.* to 100*l.* per annum, the total annual saving being over 1,300*l.*

With regard to the second type of case, about 2,100*l.* was overissued, of which 1,950*l.* was recovered and the balance written off.

Anomalous cases of increased pensions under War Warrants.

21. One of the conditions for re-assessment of pension under the decision referred to in the preceding paragraph was that "satisfactory paid military service" should have been rendered during the war. Some cases have come under my notice where considerably increased pensions have been granted (*a*) for very short periods of war service, and (*b*) for service which *primâ facie* hardly appears to be "satisfactory":—

(i) An officer who retired from the Indian Army in 1905 was re-employed on the 11th September 1914, but after 19 days' service spent on regimental duty with the New Army he resigned as "he found himself physically unable to efficiently perform his duties." His pension was nevertheless increased from 250*l.* to 363*l.* 10*s.* per annum. On my drawing attention to this case inquiry was made of the War Office, to which the reply was, that notwithstanding the shortness of the service the re-assessment would have been made had the officer belonged to the British Army, as the cause of the termination of his service was medical unfitness.

(ii) An officer who retired in 1898 was re-employed with a battalion of the New Armies from 15th October to 6th November 1914, *i.e.*, for 21 days. His pension was increased from 250*l.* to 300*l.* per annum.

(iii) An officer retired in 1908 and was re-employed on the 5th August 1914 on recruiting duty. On 7th September 1914, *i.e.*, 34 days later, his employment ceased on account of "over work." His pension was increased from 250*l.* to 363*l.* 10*s.* per annum.

(iv) An officer retired in 1910 and was re-employed as the Commander of a New Army battalion from 23rd September to 23rd December 1914, *i.e.*, 3 months. His pension was increased from 700*l.* to 800*l.* a year.

(v) An officer of the Indian Army was reported in 1913 as being unfit to act as Second in Command of his regiment, and was accordingly passed over. The advisability of removing him from the service was about to be considered, when in June 1914 he was granted a year's leave pending retirement. In March 1915 he was sent back to India to rejoin his regiment, which in 1916 was ordered on service. The officer was reported to be unfit for any military duty and was therefore not sent with his regiment, but, as he was not considered to be fitted to command the Depôt, was again sent home on leave pending retirement, which took place in February 1917, on a pension of 465*l.* per annum, increased on re-assessment to 608*l.* per annum.

(vi) An officer of the Royal Indian Marine retired in October 1921. His confidential reports for the last 21 years of his service were in general unsatisfactory. In 1916 he was withdrawn from Mesopotamia at the request of his senior officer. In 1920 he was found guilty of a serious error of judgment, the ship of which he was in command running aground; later in the same year he was severely reprimanded and dismissed from the command of the same ship for having "so negligently performed his duty as to cause her to be lost by collision." He was granted leave till October 1921, when he was compulsorily retired on a pension of 378*l.* In considering the question of re-assessment of pension, his case was submitted to the Admiralty, which Department stated that the circumstances under which the officer was retired were not such as would have justified his retirement for misconduct if he had been an officer of the Royal Navy. He was accordingly granted a revised pension of 470*l.* per annum.

Incorrect grants of Education Allowance.

22. The Royal Warrants dealing with casualties arising out of the war provide that "in cases of pecuniary need" allowances may be granted for educational purposes in respect of children of widows and officers entitled to pensions under those Warrants. The allowances for each child vary from 15*l.* to 35*l.* for those at day schools, and may be awarded up to a limit of 80*l.* for those at boarding schools.

The allowances granted at the expense of Imperial revenues are administered at the Ministry of Pensions by a body constituted for the purpose known as the Special Grants Committee, which appears to have been entrusted with discretionary power to relax in special cases the conditions ordinarily imposed by the Warrants. The procedure adopted by the

India Office was to obtain particulars, including statements of means, on forms supplied by the Ministry, which, when completed, were transmitted, generally without critical examination, to the Special Grants Committee, with a request for a recommendation. Grants were then made, without further examination, on the basis of what the Committee stated would have been the award if the case had been that of a British Service officer.

No periodical review of the allowances in issue appears to have been contemplated.

Examination of the cases in this Department disclosed—

(1) That the statements of means were frequently inadequate and sometimes misleading (*e.g.*, income was returned net—*i.e.*, less income tax—instead of gross).
(2) That since the date of the grants there had frequently been a considerable increase of income due to the enhancement of pensions issued by the India Office.
(3) That allowances had been granted where the aggregate family income (amounting in some cases to over 1,000*l.* a year) did not seem to justify the grant of assistance intended to be given only where pecuniary need was established.

The enquiries which at my suggestion were made of the Ministry of Pensions disclosed that a revised and more stringent means scale than that previously in force had been introduced in March 1922. In all, queries were raised affecting the eligibility of between 50 and 60 pensioners, out of about 100 drawing the allowances. In 38 of these cases the payments being made were withdrawn or greatly reduced, the resultant saving being over 2,750*l.* a year. In eight other cases the allowances have been continued provisionally at existing rates, as the pensioners are considered to have "reserved rights," the original award having been made before the revised means scale was applied; in these cases, however, no increase (*e.g.*, from day school to boarding school rates) will be granted. The majority of the remaining cases are still under consideration.

As a result of the questions raised by me a close liaison with the Ministry of Pensions has been established, all new grants are subjected to close scrutiny, and steps are being taken to ensure that all allowances will be reviewed annually.

Insufficient evidence of eligibility for grants.

23. Men who retired with disability pensions due to service in the Great War are eligible for additional allowances for their wives and children, provided that they are supporting them. Payment of these additional allowances was being made without any evidence of existence or support. I called attention to this and the necessary information is now obtained.

Officers in receipt of disability pensions are entitled to receive the maximum rate whilst in hospital, or unable, through ill-health, to earn a livelihood, provided that they are not in receipt of salary or wages from their employer, or in receipt of a training grant from another Government Department. As no evidence on these points was being obtained by the India Office, questions were raised in specific cases and recoveries effected. A form of declaration similar to that employed by the Ministry of Pensions is now in use by the India Office, and should prevent overpayments of this kind in the future.

War pensions reducible by previous pensions.

24. The War Warrants provide that disability pensions granted in respect of service during the Great War must be reduced by the amount of any Wound or Injury Pension granted in respect of pre-war service. This provision was only brought to notice in audit. In two cases reductions have been made and other cases are still under consideration.

Attention has also been called to the provision in the Warrants that officers in receipt of pensions earned by rank service are only eligible for a disability addition at a lower rate than the ordinary disability pension. Reductions have been made in two cases, and the provision is being enforced in cases which have been dealt with since the queries were raised.

High rates of disablement pension granted to officers of the Indian Army Reserve.

25. During the war large numbers of officers were commissioned in the Indian Army Reserve under an Indian Army Order laying down terms of service which included "privileges, concessions, gratuities and pensions of various kinds as for officers of the Regular Army." This order has, after consideration by the Secretary of State's Legal Adviser, been construed as entitling the officers in question not only to the rights enjoyed by Indian Army officers at the date of the order, but to all subsequent improvements of pay, &c. As a result officers of the Indian Army Reserve have received treatment which, in the matter of pensions, is admittedly over-generous compared with that received by temporary commissioned officers in the British Service. The disparity was accentuated when pension terms based on the Royal Warrants of September 1919 and July 1920 were applied to the Indian Establishment with effect from 1st April 1919. For regular officers of the British Service the gratuity scales of invalid and disability pensions granted under that Warrant were subject from 1st April 1920 to a minimum of the rate of half-pay appropriate to the officers' rank, but for temporary officers there was no corresponding provision.

In making consequential alterations in the pension rules of the Indian Army, the provision of British half-pay rates as a minimum was necessarily retained, and the question arose whether officers of the Indian Army Reserve should be considered to have acquired a right to the same minimum. It seemed to me unreasonable that a right from which temporary officers of the British Service were excluded by the specific terms of the Warrant should be enjoyed by the corresponding class of officers on the Indian Establishment as a corollary of its extension to the regular officers of that Establishment. The Secretary of State in Council decided however that, in view of the legal opinion referred to, the concession could not be withheld. The result of treating officers of the Indian Army Reserve as if they were regular officers of the Indian Army is illustrated by the following typical instances:—

(1) A Second Lieutenant who was commissioned 7th October 1918 was invalided 5th August 1919, after four months' leave on medical certificate, with a war disability assessed at 70 per cent. He was awarded in the first instance a permanent invalid pension of 80*l.* plus a disability addition of 94*l.* 10*s.*, raised to 105*l.* from 1st April 1920. The disability addition was discontinued after 4th August 1920, as the officer did not apply for a renewal, the disability presumably having disappeared. His permanent pension was however increased to 118*l.* 12*s.* 6*d.* from the latter date under the decision admitting British half-pay as a minimum. A temporary officer of the British Service in like circumstances would have received a disability pension of 147*l.* from 5th August 1919 to 4th August 1920 and thereafter nothing.

(2) A Lieutenant who retired 21st September 1917 was granted a permanent pension of 80*l.* plus disability addition of 50*l.* a year for six months in respect of a disability not caused but aggravated by field service. After six months, as the aggravation had disappeared and the officer's normal state of health had been restored, payment of the disability addition was discontinued. He has now become eligible for a pension of 146*l.* (*i.e.*, British half-pay of rank) with effect from 1st April 1919. A temporary British Service officer in similar circumstances would have been granted 87*l.* 10*s.* a year only for six months, and thereafter nothing.

(3) A Lieutenant with a disablement of 30 to 40 per cent. received a permanent pension of 146*l.* A British Service officer with a 40 per cent. disablement would draw 84*l.* a year subject to reduction if the rate of disability decreased; if it fell permanently below 20 per cent. a final award of gratuity would be made in lieu of further pension.

(4) A Captain with a disability of 30 per cent. was granted a permanent pension of 214*l.* 8*s.* 9*d.* A British Service officer would draw 63*l.* only, subject to reduction or cessation as in case (3).

26. War disability pensions granted under Royal Warrants to officers and men of the British services are administered by the Ministry of Pensions. The Warrants were, with some modifications, made applicable to the Indian services and the pensions granted are issued by the India Office after an assessment of disability has been made by the India Office Medical Board.

India Office Medical Board and disablement assessments.

Pending the settlement of the question of the incidence of these pensions, it is not certain that those issued by the India Office will actually fall on Indian revenues, but in any event the governing principles are admittedly the same whether the cost falls on the British or Indian taxpayer.

A number of cases came under my notice which led me to form the opinion that, on the whole, more generous treatment was accorded by the India Office than by the Ministry of Pensions. Isolated cases were being referred to the Ministry of Pensions for advice, but all the regulations drawn up (and frequently amended) by that department were not being observed and in some instances had not been supplied to the India Office, and in consequence were not being brought to the notice of the India Office Medical Board.

I obtained copies of these regulations from the Ministry of Pensions and drew attention to some of them which had a bearing on the cases which had been assessed at the India Office at a higher degree of disability, &c., than appeared to be correct. I cited the cases (necessarily few in number) where officers had been examined by the medical boards of both departments; in each instance the India Office Board had reported a higher degree of disability than the Ministry of Pensions Board.

I also drew attention to the fact that the form of medical report used by the India Office was less detailed than that used by the Ministry of Pensions, and in consequence correct assessment was much less likely to result.

In general I expressed some doubt whether the India Office Medical Board, comprising three members only, could, in addition to its other work, deal with the assessments, numbering about 1,000 to 1,200 a year, as adequately as the other department with its greater variety of specialist opinion, &c., and suggested that it might be preferable to use the machinery of the Ministry of Pensions for this purpose, as had already been done in the matter of assessment of earning capacity of officers with a view to the grant to them of alternative pensions.

The matter received the careful consideration of the Secretary of State in Council, but it was decided, chiefly on grounds of policy, to retain the present arrangements for medical

examination. The previous form of report has, however, been amended, and the rules and instructions of the Ministry of Pensions, all of which are now being obtained, are to be followed strictly by the India Office Board. Definite detailed instructions to that effect have recently been issued.

This tightening up of administration, if effectively carried out, should, in view of the large amount being disbursed on account of disability pensions, lead to considerable saving.

Advances to Regiments proceeding to India.

27. The amount of 17,286*l.* 15*s.* 4*d.* charged under this head represents repayment to the War Office of advances made by Regimental Paymasters in respect of the pay of units for the period of the voyage to India. Under the special war accounting arrangements, which covered the period ending 31st March 1920, the amounts so paid were, up to 31st March 1919, borne finally by the War Office, and from 1st April 1919 to 31st March 1920 repaid by the India Office, but reported to India for inclusion in the accounts of Recoverable War Expenditure. Correspondence with India resulting from an enquiry made by this Department elicited the fact that advances amounting to 28,174*l.* 9*s.* 8*d.* in respect of the year 1919–20, but brought to account by the India Office after the end of the financial year, had escaped inclusion. A claim for repayment of this amount has accordingly been made against the War Office.

The incidence of the charges for 1920–21 and 1921–22 is not yet decided. The suggestion has been made by this Department that, in view of the abnormal conditions and following the arrangements with the War Office as regards Sea Transport Charges, *vide* para. 42 (iv), India's liability for the voyage pay of units proceeding to and from India during the post-war quinquennium should be discharged by the payment of a fixed annual sum based on the pre-war average with necessary corrections for increased pay, reduced establishment, &c. This suggestion is under discussion with the War Office.

Payments to the War Office and the Air Ministry for Marriage Allowance, &c., issued by those Departments to Families residing in this Country of British Soldiers and Airmen serving in India.

28. The amount of 971,876*l.* 15*s.* 5*d.* charged under this heading is in respect of the sums issued in this country to families and other dependants of soldiers serving in India. It consists mainly of provisional payments (i) to the War Office of (*a*) allotments only from April to September 1920, and (*b*) allotments and marriage allowance from October 1920 to September 1921; and (ii) to the Air Ministry of (*a*) allotments and separation allowance, April to September 1920, and (*b*) allotments and marriage allowance, October 1920 to September 1921.

Marriage allowance for British troops was introduced with effect from 4th October 1920, from which date the separation allowance formerly issued to families was discontinued. Separation allowance of families of soldiers in India was covered by the annual capitation rate paid to the War Office for effective services, and consequently did not appear as a separate item in the account, except as regards comparatively small issues to Indian Unattached List ranks. Marriage allowance, on the other hand, is being directly charged to Indian revenues, whether issued to the soldier in India or to his family when separated from him.

Issues in this country to the families of soldiers in India are made by Regimental Paymasters and claims are raised against the India Office.

The particulars of units and periods to which the claims related were insufficient to enable me to pass the payments as correctly debitable to Indian revenues. A test audit has been carried out at the offices of certain Paymasters whose accounts aggregate about 30 per cent. of the total claims. As a result, sums amounting to about 12,000*l.* have been disallowed, mainly in respect of units which were not on the Indian establishment during the periods to which the claims related. On the other hand, an undercharge of 3,930*l.* was brought to light. The discrepancies referred to have been admitted and adjusted against subsequent claims. Examination showed also that the claims included amounts totalling about 12,000*l.* in respect of troops at Aden. Steps have been taken to reclaim a moiety of this amount, which, under existing arrangements regarding military charges for that station, is payable from Imperial revenues.

Test Audit of Paymasters' Accounts.

Further information has been called for, on receipt of which it is probable that additional adjustments will be necessary. Other questions raised in audit are under discussion.

Regimental Paymasters issue, in addition to marriage allowance, allotments compulsorily deducted from the soldier's pay for the support of his family, and voluntary allotments to the family or other dependants. Allotments, both compulsory and voluntary, are included in the claims on the India Office, and are offset by recoveries in India. Before April 1920, the adjustment of the allotments was effected through the Account Current; prior to 1915 the monthly totals of issues by the Regimental Paymasters were repaid to the War Office, and were included in schedules of the Account Current sent to India; but during the war, for greater simplicity of accounting, the total recoveries actually made were remitted from India. The latter system, which had the effect of throwing on Imperial revenues any loss due to

failure to recover, was discontinued, at the instance of the War Office, on 31st March 1920, *i.e.*, the date of the cessation of the normal cost system for British troops. Owing to delay in settling details of the post-war system, amounts continued to be remitted from India for payment to the War Office ; a payment in respect of such remittances which it was proposed to make to that Department was submitted for pre-audit, whereupon I pointed out that 35,708*l.* 5*s.* included therein referred to allotments in respect of periods subsequent to 1st April 1920, and was, therefore, not due to the War Office. The amount was accordingly not paid, and a further amount of 1,640*l.* 6*s.* which had been paid previously in respect of similar remittances was recovered.

Erroneous payment prevented in pre-audit.

Under the system in force from 1st April 1920, payments on account of allotments are debited finally in the Secretary of State's accounts and recoveries are credited finally in those of the Government of India. This arrangement, while theoretically less sound than adjustment through the Account Current, seems to be necessitated by practical considerations of reducing clerical labour. Correlation between issues and recoveries is maintained by a system of nominal rolls exchanged between the Paymasters and Officers commanding units. Until recently there has, generally speaking, been great delay in India in rendering these rolls, and they have proved defective in many respects.

With regard to the period April to September 1920 in particular, the information supplied by the rolls was so inadequate that it has been impossible either to compile or check the claims on the basis of actual figures. The various Paymasters adopted different methods of estimating the amounts recoverable from Indian revenues. On receipt of further information which has been called for, I hope to be able to check the fairness of the basis of estimate adopted, but in any event it seems impossible to be satisfied that recoveries were made in India to the extent of the amounts issued to families at home.

Defective check on recoveries of allotments.

Owing to delay in applying the marriage allowance system to troops on the Indian Establishment, no recoveries were made from soldiers in that country in respect of the compulsory allotments which had been issued, with the allowance, to wives separated from their husbands, during the period 4th October to 30th November 1920. It was decided that retrospective recoveries should not be made.

Losses due to delay in promulgating orders regarding change of system.

The allowances introduced during the war for dependants, other than wives and children, of soldiers were discontinued, so far as the Imperial Establishment was concerned, on 4th October 1920, on the introduction of the marriage allowance system. Owing to the above-mentioned delay in applying the order to the Indian Establishment, the allowance to dependants of soldiers in India continued to be issued up to 13th December 1920, at the expense of Indian revenues.

Questions relating to Military Furlough Payments.

29. The basis of payments made to officers, whilst on leave in this country, consists of last pay certificates furnished by India. In numerous cases inconvenience has been caused by delay in the despatch of these documents, and when received they have frequently proved to be faulty in certain respects. Steps have been taken which it is hoped will remedy these defects.

Last pay certificates: delays and deficiencies.

Attention was drawn by this Department to several cases of overissue due to incorrect information contained in the certificates.

One of the most important items contained in the certificate is the date on which the officer was struck off duty. In certain cases this was omitted entirely ; in others it was confused with the date of embarkation or that to which pay had been issued. In several cases the period spent in hospital was treated as duty instead of leave.

On attention being drawn by this Department to these mistakes correct information was obtained and adjustment made where possible.

30. Another type of error arose in connection with the grant of after-war leave. This special leave, which was not to exceed 60 days, was sanctioned for military officers after the termination of hostilities. It could be granted to officers holding commissions in the Indian Army and also to officers in the British Service who had been in receipt of Indian rates of pay for a period of at least two years between 4th August 1914 and 3rd August 1919.

Erroneous grants of after-war leave.

Cases (*a*) of double grants of leave and (*b*) of grants to officers not entitled to this special leave, involving considerable overpayments, have been brought to notice by my Department.

31. Furlough pay is issued at the India Office, on behalf of the Imperial Government, to officers belonging to the Indian Army serving in Iraq, Egypt, Palestine, &c. Attention was drawn by my Department to a number of cases where the furlough pay was being incorrectly charged against Indian revenues.

Incorrect classification of recoverable expenditure.

32. During the industrial emergency in the early months of 1921 a number of officers of the Indian Establishment were lent for duty to the Home Government, and the War Office agreed to bear their pay during the period of employment.

Incidence of pay of officers and men lent during the industrial emergency.

The question was raised in my Department whether the pay of British soldiers on the Indian Establishment, similarly lent, should not also be charged to Imperial revenues. The War Office assented to this proposal, and a claim on that Department for about 400*l.* was sent for pre-audit. On examination the claim was found to be incomplete and an amended claim of over 1,000*l.* is being preferred.

33. The saving to Indian revenues as a result of questions raised in connection with the matters referred to in paras. 29 to 32 amounts, in respect of cases relating to the year 1921–22, to upwards of 8,000*l.*

Expenditure in connection with the Employment of Troops on the Indian Establishment out of India.

34. As explained in para. 12 of my last Report, the special accounting arrangements adopted in 1915 with regard to Expeditionary Forces sent from India came to an end on the 31st March 1920, but owing to a misunderstanding as to the date of cessation of the system a considerable amount which was recoverable from the War Office was charged finally to Indian revenues in 1920–21.

In addition, payments in respect of after-war leave, gratuities, demobilisation pay, &c., all of which were due to the war and were, under the accounting arrangements adopted, recoverable from the Imperial Government, continued to be made by the India Office. Adjustment on the basis of actual payments would have been impracticable, and a conference was held, at which I was present, between representatives of the India Office, the War Office and the Treasury. As a result, an arrangement was reached with the War Office under which the payment by that Department of the sum of 900,000*l.* should be regarded as covering all the amounts referred to above, and as discharging all outstanding liabilities of the Imperial Government on account of expenditure in this country of the nature indicated. This amount has now been brought to credit, 610,000*l.* appearing in the account for 1921–22 and the balance of 290,000*l.* in that for 1922–23.

Terminal adjustment of outstanding war liabilities.

35. The vouchers relating to 204,370*l.* 0*s.* 11*d.* on account of expenditure at the India Office in respect of troops in Iraq, Palestine and Constantinople have been audited on behalf of the Imperial Government as in previous years.

Audit of expenditure on behalf of the Imperial Government.

Visit to England of the Indian Peace Contingent.

36. The practice regarding visits of State guests from India is that His Majesty's Imperial Government defrays the cost of entertainment in this country, but that Indian revenues are liable for the cost of transport to and from England. The arrangements for the entertainment of the Peace Contingent were made by the India Office on behalf of the Imperial Government, and the accounts relating thereto were sent to this Department for pre-audit before the claim for repayment was made.

I pointed out that considerable quantities of rations for Indian troops were brought from India with the Contingent, and in so far as they were not consumed on the voyage, but were used during the stay in this country, the cost should be borne by Imperial revenues. Further information on this point was accordingly obtained, and as a result 2,202*l.* was added to the claim. On the other hand I pointed out that certain credits amounting to 948*l.* were due to the Imperial Government and allowance was made in respect of this amount.

With regard to the transport of the Contingent, claims amounting to 92,805*l.* were received from the Mercantile Marine Department of the Board of Trade. One item of the claims was for passages in the R.I.M.S. *Hardinge*, which was being used by the Imperial Government as a transport, and 13,460*l.* in respect thereof was paid by the India Office. The correctness of this item was questioned in audit, and pending the receipt of further information from India the other claims were not paid in full. As a result of the audit objection the claim in respect of the *Hardinge* was reduced by 6,297*l.*

Other questions raised in audit are still under investigation.

Amounts chargeable to Local Funds, &c.

37. In para. 13 of my last Report reference was made to cases of retired marine officers where the whole of the pension had been charged to the heading "Royal Indian Marine Retired Pay," whereas, in view of the fact that the officers concerned had rendered

service as Port Officers at various Indian ports, a proportion of the pension was chargeable to the appropriate Port Fund. Further queries have been raised, with the result that 808*l.* has been advised to India for recovery from the Port Funds concerned. The annual amount recoverable in the case of those officers who are still living is 628*l.* Several other cases are still under investigation. As a result of the errors in connection with these cases which have been brought to light by my Department, steps are being taken to secure that adequate information is obtained from India in order that the pensions may be correctly allocated to the revenues which are liable.

These remarks apply to Executive Officers of the Royal Indian Marine. It has also come to my notice that Engineer Officers of that service have served in various shore appointments and that part of their pensions may also be chargeable to Port Funds. Investigation of this point is being made in India.

Question relating to Exchange.

38. I commented in para. 15 of my last Report on the large amounts remitted to this country from India during 1920–21 by means of postal and money orders issued at the official parity of 2*s.* the rupee at a time when the market rate of exchange was below this figure. The amount of remittances by this means was ultimately reduced to the normal by periodical increases, as the value of the rupee fell, in the commission or poundage charged on the orders.

In 1921–22 payments by the India Office to the Board of Trade in respect of balances of Indian Shipping Masters' accounts amounted to 180,201*l.* 15*s.* 10*d.* as against an average annual amount of 1,000*l.* to 2,000*l.* This increase was due to the fact that the balances of these accounts for the latter half of 1920–21, adjusted during the year under review, were swollen by the inclusion of large sums remitted to this country by means of "seamen's" money orders. This system of remittance is one designed under the authority of the Merchant Shipping Act to give facilities for remitting the wages, &c., of seamen to their relatives and other persons. Claims on the India Office by the Board of Trade for differences on exchange in respect of these remittances revealed the fact that for a large part of 1920 and the first half of 1921, during which period the official rate of exchange exceeded the current rate by a margin reaching at one time 8*d.* in the rupee, seamen's money orders had been issued at Bombay at the official rate for postal money orders, while, owing presumably to the poundage chargeable on the former orders being a special one fixed at 1*d.* in the pound, no compensating increase had been made in the poundage charged. The opportunity thus afforded for profitable remittance transactions appears to have resulted in the increase of the total amount remitted by this means from the normal figure of a few hundred pounds a month to nearly 20,000*l.* in the month of January 1921 and over 60,000*l.* in February 1921. From the size of these figures it was evident that the system had been put to improper use, and that large profits had been made by remitters at the expense of Indian revenues. As the result of certain precautions taken at Bombay to test the *bona fides* of the remitters, the amount fell considerably in March 1921, but still reached so high a figure as 27,000*l.* In April 1921 the Board of Trade imposed a limit on the amount of individual remittances, and from June 1921 the current rate of exchange was applied to these transactions, with the result that the amount remitted gradually reverted to the normal average. The Secretary of State ordered an investigation into the circumstances attending the issue of the money orders on such a scale at rates of exchange so favourable to the remitters. The report of the Government of India was received recently and is under consideration. The loss to Indian revenues amounted to upwards of 54,000*l.*

Loss of 54,000*l.* to Indian revenues.

Remittance Transactions between India and Iraq.

39. During the war the funds required in Iraq to meet military expenditure were supplied by India by currency and telegraphic transfers. Recovery was made from the Imperial Government through the War Accounts. In addition to the funds obtained as above, it came to notice that large sums were being drawn by Iraq, partly for civil and partly for military requirements, by means of money orders on India. The amounts so drawn were: in 1918–19, 440,000*l.*; in 1919–20, 230,000*l.*; and in 1920–21, 6,740,000*l.* No adjustment in respect of these amounts was made between Indian and Imperial revenues at the time, and the omission was not discovered until December 1920, when the matter came to notice in India. A request was made by cable to the India Office asking that the necessary steps should be taken to effect recovery from the Imperial Government. Negotiations were at once opened with the departments concerned, namely, the Treasury, the Colonial Office and the War Office, but the representatives of these departments found themselves unable to make a refund pending investigation of the accounts in Iraq. It was ultimately arranged that the Controller of War Accounts should go from India to Baghdad, and that a member of the Finance Department at the India Office should meet him and a representative of the Imperial Government there, in October 1921, in order that the accounts might be examined on the spot. The result of the investigation was that, as stated above, over 7,000,000*l.* was found to

be due to Indian revenues, partly from Iraq and partly from the War Office, the requirements of both having been met from money received from the sale of money orders on India. Repayment of this amount was made between November 1921 and March 1922, but no claim for interest was made.

On these receipts coming under examination in my Department, I said that, although the question of loss of interest in consequence of the long delay in settlement had not been overlooked, it had not in my opinion received sufficient consideration, as the impression held by the India Office appeared to be that only a few thousand pounds were involved. The delay in making recoveries occurred first in India and later in this country as shown above. If it had been known in India that the amounts in question were due from the Imperial Government, recovery would have been made *pari passu*, and it is unfortunate that the discovery that such large sums were owing by the Imperial Government was not made earlier. The Iraq Administration and the War Office representatives in that country should, however, both have realised that they were receiving advances which would have to be repaid, and if their accounts had been kept on a sound system they would have done so and the matter would have been brought to notice earlier. The India Office became aware of the claims in December 1920, but payment was not, as explained above, actually made by the Imperial Government until a year later. I compute that the loss to India by way of interest due to delay in India and England amounts to between 400,000*l*. and 500,000*l*.

Loss of interest due to delay in settlement of claims on the Imperial Government.

Another set of transactions occurred which, although apparently quite separate from those referred to above, was in effect closely connected with them. On advice received from India payments were made by the India Office to the Imperial Government in respect of surplus revenues of Iraq. Over 600,000*l*. was paid on this account, which was held by the Treasury in suspense and was specifically earmarked in the accounts of the Imperial Government. The interest earned, so far as I can discover, amounted to between 80,000*l*. and 100,000*l*. These amounts, both capital and interest, were used in part repayment of the Indian claim of 7,000,000*l*. I pointed out that, although it is not the practice for Government Departments to charge interest on claims due from one to the other, it is customary, where large amounts are involved, to make advances, based on estimates, pending the actual settlement of the accounts, and I suggested that as this had not been done India was in equity entitled at least to the interest referred to, viz., 80,000*l*. to 100,000*l*., and further, that if it was felt that interest could not be claimed on the balance of the amount due to India, the Colonial Office might be asked, again on grounds of equity, in dealing with current transactions (to which reference is made below), to pay over to Indian revenues for some time to come the bulk of the annual total estimated drawings in the early part of the financial year instead of by instalments. These suggestions were, however, negatived by the Secretary of State in Council.

c

40. With regard to current transactions, the method of settlement in use was that the total amount drawn on India during any one month was reported to the India Office about the 8th or 9th of the following month, and was usually received from the Imperial Government about the 17th of that month. I pointed out that under this method a considerable amount by way of interest was lost to Indian revenues, and I suggested that if my proposal referred to above, *i.e.*, for anticipatory payments, was not accepted, the Imperial Government should make mid-monthly advances on the basis of estimates of the amounts required. This has been agreed to, with considerable advantage to Indian revenues. With drawings of 2,500,000*l*. per annum (the estimated figure for 1923–24) and interest at 2 per cent. (the present rate for Treasury Bills), the amount saved would be about 4,000*l*. a year.

Satisfactory arrangements for recovery of current supply of funds.

Provisional Receipts from Departments of the Imperial Government for Services rendered, &c., subject to Adjustment.

41. (i) Recovery from the Imperial Government in respect of retired pay, &c., of Indian troops lent to it, 1,228,000*l*.

The amounts recoverable on this account prior to the war were comparatively small and were not shown separately as receipts, but were set off against the claim of the War Office for retired pay, &c., of His Majesty's British Forces for service in India, the net amount paid being brought to charge. In future the amounts recovered on this account will be shown as receipts, as in the Accounts for 1921–22.

The question of non-effective charges in respect of Indian troops, &c., during the period from 1914 to 1919 is being dealt with separately. The amount of 1,030,000*l*. shown as arrears for 1919–20 and 1920–21, and the amount of 198,000*l*. in respect of 1921–22, are provisional only and may require adjustment.

(ii) Bounties paid in India to British soldiers for extension of service, 240,000*l.*

In 1916 and again in 1918, 1919, and 1921, bounties were given to British soldiers for extension of colour service.

The incidence of the cost of the 1916 bounties is still under discussion with the War Office, the question being complicated by the normal cost system of accounting used during the war.

The later bounties are divisible equally between the Indian and the Imperial Governments.

Entries for amounts issued in India have been included in Schedules of the Account Current received from that country, but further information is necessary before final adjustment can be made.

I have raised a question as to the rate of exchange applicable to the above entries, which were converted into sterling at 1*s.* 4*d.* During a large part of the period concerned exchange was at a much higher figure, and a large addition may have to be made to the claim.

Meanwhile no advance has been made by the War Office in respect of the 1916 bounties, the amount of 240,000*l.* received being on account of the moiety of the later bounties payable by that Office.

Other questions raised by this Department are still under consideration.

(iii) Receipts from the War Office :—

(*a*) on account of value of clothing, accoutrements, &c., in possession of regiments on their transfer from the Indian to the British Establishment :—

Clothing and Necessaries, 22,450*l.*
Ordnance and Miscellaneous, 80,000*l.*

(*b*) on account of Consolidated Clothing Allowances of British troops returning from India, 52,300*l.*

From 1914 to the 31st March 1920 adjustments in respect of clothing, &c., in possession of troops, and clothing allowances were covered by the special war accounting arrangements.

The above receipts are in respect of 1920–21 and 1921–22, and are subject to final adjustment.

Provisional Payments to Departments of the Imperial Government for Services rendered, &c., subject to Adjustment.

42. (i) War Office : capitation rate for Effective Services.

Reference was made in para. 16 (i) of my last Report to the amount paid provisionally to the War Office for capitation rate on British troops in India for 1920–21, namely, 1,896,000*l.* In 1921–22 a similar amount was paid on this account. These advances were made on the assumption that post-war rates of pay, &c., were $2\frac{1}{2}$ times pre-war figures, and the amounts paid were reached by applying a capitation rate of 28*l.* 10*s.* (as compared with the pre-war rate of 11*l.* 8*s.*) to the reduced establishment of British troops in India. Detailed figures in support of this assumption have recently been furnished by the War Office, and an attempt is being made to settle finally the amount due in respect of these two years.

The War Office have recently made the suggestion that 1919–20 should be regarded as a post-war year for the purpose of capitation rate payments; they are accordingly proposing that the basis of payment for that year should be a rate of 24*l.* 19*s.* 6*d.* instead of 11*l.* 8*s.* This would involve a further payment by India of 786,000*l.* in addition to the sum of 861,700*l.* paid in 1919–20 under the terms of the memorandum referred to in previous reports, whereby India agreed to continue to make, during the war, the capitation rate payments on the pre-war basis, although the services for which such payments were made were not being performed.

For reasons with which I agree, the India Office has not admitted the contention of the War Office; a conference was recently held (at which this Department was represented) to consider this question, but agreement has not yet been reached.

(ii) War Office for Gratuities on Death, Discharge, &c., 92,000*l.*

An advance of 54,000*l.* on this account in respect of 1920–21 was referred to in para. 16 (ii) of my last Report. The War Office have recently furnished information regarding the strengths borne on the British and Indian Establishments on which the division of cost between the two Governments is calculated. Provisional adjustment has been made by the further payment of 16,683*l.* 12*s.* 9*d.* on account of 1920–21, and the repayment by the War Office of 32,933*l.* 6*s.* 8*d.* on account of 1921–22. These amounts are subject to final adjustment on examination in India and by this Department of the statistics furnished by the War Office.

(iii) War Office for non-effective services, *i.e.*, retired pay and pensions of His Majesty's British Forces for service in India, 1,055,000*l.*

This is an advance on account of the year 1921–22. The advances made in respect of each year from 1913–14 to 1920–21 are still awaiting adjustment. The questions involved are exceedingly complicated, and the final settlement of non-effective charges for this period is still under consideration.

(iv) War Office, for Sea Transport Charges.

In 1920–21 advances amounting to 900,000*l.* were made to the War Office on account of sea transport of troops to and from India, as explained in para. 16 (iv) of my last Report. In 1921–22 advances were made on the basis of a contribution by India of a similar amount. These payments were made on the assumption that the post-war cost of sea transport was 3½ times that of pre-war cost, a reduction being made on account of the smaller establishment of British troops maintained in India. In my last Report I said that evidence for so large an increase in cost had not yet been furnished, and that the advances made in 1920–21 must therefore be regarded as provisional.

Detailed figures have recently been furnished by the War Office, which show that the advances made were much too high, probably to the extent of 120,000*l.* for 1920–21 and 200,000*l.* for 1921–22. An attempt is now being made to settle the final amount due in respect of the two years. As against the over-advances referred to above, the War Office are now contending that 1919–20 should be regarded as the first year of the post-war quinquennium provided for in the memorandum referred to in previous reports, under which a contribution of 310,000*l.* was to be made by India in respect of sea transport charges during the war, and for five years thereafter, subject to a revision during the latter period at the desire either of the War Office or the India Office.

About 312,000*l.* would, in this event, be due to the War Office in respect of 1919–20, But the contention of that Department has not been admitted by the India Office, for reasons with which I agree; a conference (at which this Department was represented) was recently held to consider this question, but agreement has not yet been reached.

(v) War Office for National Unemployment Insurance: Army, 115,400*l.*

This amount is an advance which has since been adjusted provisionally by a further payment of 4,992*l.* in 1922–23. A similar provisional payment of 3,266*l.* 7*s.* 10*d.* has likewise been made in adjustment of an advance of 30,500*l* in 1920–21 in respect of Unemployment Insurance from 1st August 1920, from which date contributions consequent on the Unemployment Insurance Act of that year first became payable. The contributions are paid by the War Office to the Ministry of Labour in respect of all warrant officers, non-commissioned officers and men discharged otherwise than under circumstances due to their own fault, and are based on calculations made by the Government Actuaries as to the sums necessary "to insure soldiers against "unemployment, which may occur in the period following their discharge before they "have been in civil employment sufficiently long to enable them to be entitled to the "benefits of the Act." The Indian share is calculated *pro rata* on the relative strengths of the Indian and British Establishments respectively during the appropriate periods.

The payments referred to are subject to examination in India and by this Department.

(vi) Payments to the War Office:—

(*a*) On account of clothing, accoutrements, &c., in possession of regiments on their transfer from the British to the Indian Establishment:—

Clothing, 43,900*l.*; Ordnance and Miscellaneous, 155,000*l.*

(*b*) On account of consolidated clothing allowances of British troops proceeding to India, 96,650*l.*

These are converse transactions to those referred to in para. 41 (iii) above, and are subject to final adjustment.

(vii) Air Ministry for effective services in respect of personnel of the Air Force serving in India, 92,000*l.*

The proposals for arriving at a capitation rate in respect of these services are still under consideration. The above amount, together with 100,000*l.* advanced in 1920–21, is subject to adjustment.

Case of Fraud.

43. The pension of a gunner of the Royal Indian Marine was transferred from India in 1921. The usual last pension certificate was received and drafts for the amount of pension due were, without waiting for an application from the pensioner, sent to the address named in the certificate. These drafts, completed and signed, were passed through a bank by a nephew of the pensioner living at the same address. Certificates of identity had been obtained from two clergymen who afterwards stated that they had never previously seen the signatory, and who were not, therefore, in a position to certify that he was the person named in the draft.

The fraud only came to light when the pensioner applied for the amount due to him. Proceedings were taken and the defaulter was captured and sentenced to a term of imprisonment. 5*l.* was recovered from the bank, the authorities of which admitted carelessness in negotiating one of the drafts; the remainder of the amount wrongly issued, viz., 43*l.* 15*s.* 5*d.*, was written off.

Pensions are not now issued until application is made for their payment; a specimen signature is thereby provided which is used to check the signature on the drafts when they are presented for payment.

Amounts for which Parliamentary sanction has not been obtained.

44. In para. 17 of my last Report I drew attention to two payments which, under the Government of India Act, required Parliamentary sanction, viz.:—

(i) 13,100,000*l.* credited to the War Office in respect of a further additional contribution by India towards the cost of the war.

The necessary sanction has not yet been obtained, and I am informed that the question of obtaining such sanction has been postponed until the liability for casualty pensions granted on account of the war has been settled.

(ii) 200,000*l.* on account of the cost of exchange concession on gratuities.

The circumstances under which this payment was made were fully explained in my last Report (para. 17 (ii)). The further information which was to be obtained from India has not yet been received.

W. A. Sturdy,
Auditor.

India Audit Office,
16th April 1923.

Office of High Commissioner for India, London, S.W. 1,
16th August 1922.

G. H. Stoker,
Chief Accounting Officer.

I certify that the above account has been examined under my directions and that it is in my opinion correct.

General questions affecting certain amounts included in the above account are referred to in my Report on the High Commissioner's Account with the Central Government of India for the year 1921–22.

The amount of 3,277*l.* 16*s.* 10*d.* charged under the head "Industries—Voted," is the net amount after the transfer, at the request of this Department, of the leave allowances of an Inspector of Jute Warehouses incorrectly charged to that head of account.

504*l.* 17*s.* 2*d.* has accordingly been charged in the Central Government Account, under the heading "Miscellaneous Pay and Pensions chargeable to other than Indian Revenues," for recovery from the Calcutta Fire Brigade Fund.

India Audit Office, 16th January 1923.

W. A. Sturdy, *Auditor.*

16th August 1922.

G. H. Stoker,
Chief Accounting Officer.

I certify that the above account has been examined under my directions and that it is in my opinion correct.

General questions affecting certain amounts included in the above account are referred to in my Report on the High Commissioner's Account with the Central Government of India for the year 1921–22.

India Audit Office, 16th January 1923.

W. A. Sturdy, *Auditor.*

No. 5.

REPORT of the AUDITOR of INDIAN HOME ACCOUNTS upon the Accounts of the HIGH COMMISSIONER FOR INDIA, for the year ended 31st March 1922; prepared and submitted to the GOVERNOR-GENERAL IN COUNCIL, in accordance with Clause 9 of the Order in Council dated 13th August 1920.

GENERAL.

1. As from 1st April 1921, further duties previously performed in the Accountant-General's Department of the India Office were transferred to the High Commissioner, viz., the issue of:—

(i) Leave allowances, deputation pay, and pensions of the Indian Civil Service and of other civilian services, and family pensions of such officers.
(ii) Leave allowances and deputation pay of military officers in civil employ.
(iii) Leave allowances and pensions of officers of the Indian Ecclesiastical Service.
(iv) Furlough pay and pensions of officers of the Bengal Pilot Service and family pensions of such officers.
(v) Other civil pensions such as pensions of Judges.

2. From the same date the payments under certain headings were directly charged against Provincial Governments. The total disbursements on behalf of each Government are shown in the High Commissioner's Account of disbursements on account of the Central Government of India, page 53, and details (divided as to voted or non-voted, except in the case of Burma) are shown in supplementary accounts under the appropriate headings. At the desire of the Government of India a separate audit certificate has been appended to each Provincial Government Account.

In accordance with the financial arrangements under the Reforms Scheme, all pensions in payment at the India Office on 31st March 1921 remain a charge against the Central Government; pensions sanctioned after that date are charged *pro rata* according to service spent under the Central or a Provincial Government.

3. A statement showing the balances on accounts included in the section of the Account headed "Deposits and Advances" is contained in Appendix 1 on page 54. Details of these accounts are kept in the ledger, but in the absence of some such statement (which has never previously appeared in the Home Accounts) it was impossible, without combining the accounts for a series of years, to ascertain the indebtedness or otherwise of Government in regard to the accounts concerned. A similar statement will appear in the accounts of the Secretary of State.

The statement enables the true position at the end of the financial year to be ascertained from the accounts; thus the cash balance on the 31st March 1922 is shown as 136,127*l.* 17*s.* (page 53), but actually at that date there was a net indebtedness of 374,425*l.* 2*s.* 2*d.*, *i.e.*:—

	£	*s.*	*d.*
Credit balances on Deposit Accounts - - - -	596,206	8	4
Debit balances on Advance Accounts - - - -	85,653	9	2
	510,552	19	2
Less Cash in hand on 31st March - - - - -	136,127	17	0
	374,425	2	2

The credit balances on Deposit Accounts include (*a*) 328,808*l.* 11*s.* 6*d.* on account of Enemy Ships employed under the control of the High Commissioner (*see* para. 4) and (*b*) 267,367*l.* 16*s.* 10*d.* on account of Bills Payable (*see* para. 5). The debit balances on Advance Accounts include 84,231*l.* 9*s.* 6*d.* on account of stores supplied to, and services rendered on behalf of, the Iraq Administration.

ENEMY SHIPS UNDER THE CONTROL OF THE HIGH COMMISSIONER.

4. Certain enemy ships detained in Indian ports at the outbreak of war came under the control of the India Office in 1915. The management of the vessels was vested first in Messrs. Graham & Co.; later they were placed in direct charge of Capt. T. G. Segrave, R.N.R., C.B.E. (India Office Shipping Surveyor and Adviser) as Director of India Office Shipping. Control was transferred to the High Commissioner on his appointment in October 1920, the

management continuing in Capt. Segrave's hands. From that date all receipts for freight, &c., have been paid into the High Commissioner's account at the Bank of England and the necessary payments on account of working expenses are met from that account.

The balance in the hands of the Secretary of State on 30th September 1920, viz., 3,584,646*l.* 2*s.* 10*d.*, is still held in the Cash Account of the Secretary of State. The excess of receipts over payments for the period 1st October 1920 to 31st March 1922 is 328,808*l.* 11*s.* 6*d.*, *vide* para. 3.

No decision has yet been reached as to the disposal of the profits resulting from the working of these ships. The question of the disposal of the vessels, eleven in number, has recently been under consideration; four are technically "prize" ships; of these, three have recently been sold, and the fourth will shortly be on offer for sale. The transfer of another vessel (the *Moora*) to the Commonwealth Government of Australia is under consideration. The remaining six are "reparation" vessels, and their disposal is not yet settled.

The question of responsibility for the audit of the accounts has never been clearly defined owing chiefly to the uncertainty as to the disposal of the profits. A qualified accountant, having a quasi-independent status, has charge of the accounting arrangements of the Director of India Office Shipping and prepares an annual balance sheet and profit and loss account. A joint check and test audit on a limited scale is applied by a member of the High Commissioner's Accounting Department and a member of my Department. These arrangements should, in my opinion, be sufficient to safeguard against the occurrence of any financial irregularity.

The balance sheet to 31st March 1922 shows that the profit from 1915 to date amounts to 3,790,192*l.* 19*s.* 8*d.*, and in addition there is a reserve fund of 124,358*l.* 13*s.* 3*d.* Provision has also been made for depreciation of the vessels. The Government practice of non-insurance has been followed, but a *pro formâ* Insurance Account has been kept. Premia at current rates are credited to this Account, and losses incurred are debited against it. Up to 31st March 1922 the Account shows a surplus, included in the profit shown above, of 129,000*l.*

The greater part of the profit of over £3¾ millions was made during the shipping boom, but in spite of adverse freight conditions in 1921–22 profit continued to be made.

Bills Payable.

5. Cost accounting methods are now being applied by the Military Accounts Department in India, and the method of accounting for expenditure on stores supplied by the High Commissioner for the Army and Marine Departments has consequently been modified. The amounts brought to charge under "Military Services, Stores for India," do not represent the exact cash payments made during the year. The difference between payments and charges is shown, under each heading, in Appendix II. (page 55). In all, 267,367*l.* 16*s.* 10*d.*, which had not actually been disbursed on 31st March 1922, has thus been classified in the account under the headings concerned. Payments made after that date for stores brought to charge in the account are debited against the heading "Bills Payable" in a subsequent year. This device was adopted in order that amounts which had been included in the budget for the year might be brought to account during the year. From the point of view of the financial purist there is the objection that amounts are included in the Revenue Section of the Cash Account which, at the date of compilation of the account, were still outstanding. I am of the opinion, however, that the expedient is justifiable so long as it is confined to expenditure on stores which have actually been delivered to the India Store Depôt or shipped to India.

The procedure explained above has been adopted with regard to claims for 75,000*l.* in respect of "direct demand" stores, which are still under examination in India. During the war a large number of indents for stores were sent direct to Departments of the Imperial Government, and not, as is the usual practice, through the Director-General of Stores. As full details were not available in this country, the claims in respect of these stores were in some cases paid subject to adjustment, and in others not until after examination in India. On the 31st March the claims referred to above for "direct demand" stores, in respect of which payment has not yet been made, were (and still are) under examination in India. The method of accounting employed is justifiable, I think, as there is no doubt that stores to the value of 75,000*l.* had been supplied. A similar transaction will probably appear in the Account for the current year, but, apart from that, this somewhat exceptional method of accounting should not recur, as direct demands are no longer made.

Departmental Charges for Services rendered by the High Commissioner.

6. For many years it has been the practice to make a charge of 2 per cent. on the cost of stores supplied to Provincial Governments in respect of services rendered by the Store Department in connection therewith. The additional 2 per cent. was formerly adjusted in India, but commencing from 1st April 1921, the adjustment is being made in the Home Accounts.

From that date a similar percentage is being added on stores supplied to quasi-commercial departments, *e.g.*, Posts and Telegraphs, and State Railways.

The amounts so charged, viz., 9,357*l.* 3*s.* 11*d.* and 81,657*l.* 5*s.* 11*d.* respectively, are taken in reduction of the cost of the Establishments of the High Commissioner (page 45).

Marine Insurance.

7. The mercantile custom of insuring stores during the voyage period is not followed by Government, which dispenses with this, as with most other forms of insurance; the value of stores lost or damaged in transit to India, contributions to general average, &c., are charged under the heading "Miscellaneous" (page 49).

No *pro formâ* Insurance Account is maintained, but in addition to the 2 per cent. mentioned in para. 6, 1 per cent. is charged on the value of stores supplied to Provincial Governments to cover marine insurance, commission on freight paid to the Shipping Broker, and other miscellaneous expenditure. From 1st April 1921 this charge is also being adjusted in the Home Accounts, and from the same date a similar charge is being made against quasi-commercial departments. The amounts for the year 1921–22, viz., 7,289*l.* 1*s.* 8*d.*, and 39,579*l.* 13*s.* 11*d.* respectively, are credited under the heading "Miscellaneous" (page 48).

Returned Packing Accounts.

8. In the previous report I expressed the opinion that it was unsatisfactory that so large a proportion of packing accounts was never returned by India. I explained the two purposes served by the return of such documents, viz., that they afford evidence of the stores having been duly received, and form the basis for effecting recovery in cases where stores are damaged or short-delivered.

I understand that it has been the practice since January 1920 to send periodical reminders in the case of "ship" packing accounts. As regards "post" packing accounts, which mainly relate to publications of little value, reminders are only sent in the exceptional cases where the stores are of considerable value. I shall therefore make no comment regarding the non-return of "post" accounts, but the position regarding "ship" accounts is not yet satisfactory. The numbers of "ship" accounts outstanding at the date of my previous report, viz., 18th April 1922, were as follows:—

Year 1919–20, 381; 1920–21, 671.

Since then 75 accounts for the former year, and 87 for the latter, have been received, leaving 316 and 584 respectively still outstanding.

In 1921–22 the total number of "ship" accounts was 5,178. Of these 4,700 have been returned, leaving 478 still outstanding. Of the latter number 330 relate to shipments made over a year ago.

Overcharges on Stores supplied to India by Departments of the Imperial Government.

9. At the date of the report relating to the Accounts for 1920–21 certain queries on amounts paid during that year were still unanswered or unadjusted. Among these were the following:—

(i) A rate was charged for rifles which included the cost of oil-bottles and pull-throughs, but in the case of several indents the rifles only were supplied. 12,929*l.* has since been recovered.

(ii) Incorrect rates were charged for certain fuzes. 1,672*l.* has since been recovered.

(iii) Seaming material for aeroplanes was supplied and charged for at 2*s.* 4½*d.* per yard. On enquiry it proved that the rate should have been 2*s.* 11¾*d.* per dozen yards. 1,597*l.* has since been recovered.

(iv) In para. 5 (ii) of the previous report mention was made of an overcharge, brought to light in audit, of 23,000*l.*, of which 15,000*l.* had been provisionally repaid. The balance of 8,000*l.* has since been recovered.

Further queries relating to the years 1920–21 and 1921–22, involving considerable over-payments, have recently been raised.

Outstanding Claims for Stores lost during the War.

10. Of the two cases mentioned in para. 6 of the previous report, that of the *Clan Mackay*, in which the sum of 22,000*l.* is involved, is still under correspondence with the Mercantile Marine Department of the Board of Trade. It has recently been suggested that the matter in dispute should be referred to arbitration.

PROVISIONAL PAYMENTS TO DEPARTMENTS OF THE IMPERIAL GOVERNMENT MADE SUBJECT TO ADJUSTMENT.

11. Two advances made in 1920–21 subject to adjustment, were referred to in para. 7 of the previous report. The one, of 130,000*l.*, on account of Mechanical Transport Stores was adjusted against a later claim. The other, of 100,000*l.*, was in respect of the estimated expenditure on stores manufactured for India in Ordnance Factories in England. 96,337*l.* 18*s.* 10*d.* was brought to account in March 1922; the balance is still in process of adjustment.

In 1921–22 the following provisional payments were made:—

(1) 70,000*l.* on account of estimated expenditure on stores for India manufactured in Ordnance Factories.
(2) 367,202*l.* 11*s.* 3*d.* for freight on stores supplied to India.
(3) 148,244*l.* 2*s.* 3*d.* for light railway stores for the North-West Frontier.
(4) 13,335*l.* 0*s.* 11*d.* for stores supplied by the Admiralty.

None of these payments is yet adjusted and the detailed claims have accordingly not yet come before me for audit. Further, there are some payments, amounting to about 20,000*l.*, made to the Admiralty in March 1921, which are similarly still unadjusted.

The procedure with regard to these provisional payments, which are generally made, quite legitimately, at the end of a financial year in order to avoid lapses, requires careful watching as there seems to be a tendency to excessive delay. Once the payment is made to the Department concerned, there is naturally less incentive on the part of that Department to deal with the case urgently; but from the point of view both of administration and audit, it is desirable that provisional adjustment should not be allowed in any way to delay final settlement.

W. A. STURDY,
Auditor.

INDIA AUDIT OFFICE,
16th January 1923.

No. 6.—SUMMARY of PAYMENTS in the Year 1921–22 for Stores procured for Shipment to India.

* Sinking Funds were established in connection with these Railways to redeem India 3½ and 3 per Cent. Stock issued in lieu of Annuity or Debenture Stock. These Funds have been applied to the purchase of India Stock of the denomination offering the best yield. The minus figures represent the interest on India 7, 5½ and 2½ per Cent. Stock so purchased, and on India 3 per Cent. Stock purchased in excess of the amount issued.

† The Discount Sinking Fund in redemption of Debt incurred in excess of money raised, in respect of the India 3 per Cent. Stock issued in connection with the purchase of the Oude and Rohilkund Railway, has been partly applied to the redemption of India 7, 5½ and 3½ per Cent. Stock instead of India 3 per Cent. Stock.

India Audit Office, 31st January 1924.

W. A. Sturdy, *Auditor.*

No. 3.

REPORT of the AUDITOR upon the ACCOUNTS OF THE SECRETARY OF STATE FOR INDIA IN COUNCIL, from 1st April 1922 to 31st March 1923; prepared and submitted to the Secretary of State in Council, in pursuance of section 27 (5) of the Government of India Act, 1915.

GENERAL.

1. In para. 1 of my last Report I made some remarks concerning the action taken on Reports made by me on accounts submitted for examination. I drew attention to the fact that while the Report on the Accounts of the High Commissioner was reviewed by the Public Accounts Committee set up by the Legislative Assembly in India, the Report on the Account of the Secretary of State came under no independent review.

Audit Reports and Committee on Public Accounts.

At the request of the Government of India it has been arranged that the Reports on both Accounts shall be placed before the Public Accounts Committee. In order that those Reports may be considered together with the Reports of the Auditor-General on the Indian Accounts, it will be necessary in future years to submit them early in December instead of the following April. As the decision referred to above was only reached during this month this Report has been prepared under urgency.

2. In the circumstances I have endeavoured to make the Report to some extent informative as well as critical. Partly owing to lack of time and partly in order to save repetition, I have made frequent reference to paragraphs of my last Report. My comments are grouped under major headings in the order in which they appear in the accounts.

3. It may be useful if I refer to the section of the Government of India Act which relates to reports by the Auditor.

Section 27 (5) lays down that the "Auditor shall report to the Secretary of State in "Council his approval or disapproval of the accounts with such remarks and observations "in relation thereto as he thinks fit, especially noting cases (if any) in which it appears "to him that any money arising out of the revenues of India has been appropriated to "purposes other than those to which they are applicable." Section 27 (6) says that the Auditor shall "specify any defects, inaccuracies or irregularities which may appear in the "accounts, or in the authorities, vouchers or documents having relation thereto."

4. In para. 2 of my last Report I referred to the effects of the aftermath of the war on the work of the India Office. During the year under review this was, in some directions, still being felt considerably, and the number of queries raised by my Department was still far above the normal. While the chief value of audit consists in its moral and deterrent effect, it will be seen from later paragraphs that considerable amounts have been saved to Indian revenues as a result of questions raised. The total amount in the cases where replies have been received (including about 20,000*l.* referred to in my Report on the Account of the High Commissioner) again exceeds 150,000*l.*

150,000*l.* saved to Indian revenues.

5. In para. 44 of my last Report I again drew attention to two payments which, under the Government of India Act, require Parliamentary sanction, viz.:—

(i) 13,100,000*l.* credited to the War Office in 1919 in respect of a further additional contribution by India towards the cost of the war, and

(ii) 200,000*l.* paid in 1921 on account of the cost of exchange concession on gratuities.

Expenditure in 1919 and 1921 not yet sanctioned by Parliament.

As regards (i), sanction has not yet been obtained; the view held by the India Office is that although such sanction is necessary, the payment was provisional only. Since it was made, several claims have been raised both by the Imperial Government and the India Office, regarding which efforts are being made to effect a comprehensive settlement Unless and until such a settlement is reached, I must continue to refer to this amount as having been paid without the necessary authority having been obtained.

With reference to (ii), it is the intention of the India Office to seek sanction for this amount along with the sum of 13,100,000*l.* referred to above. The full information necessary on which to assess the final amount to be paid to the War Office has not yet been received from India.

RAILWAY REVENUE ACCOUNT.

6. Reference was made in para. 10 of my last Report to sums paid up to 31st March 1922 on account of compensation for loss of income-tax relief. A further sum of 29,760*l.* 4*s.* 10*d.* was paid in 1922–23, making a total to 31st March 1923 of 85,063*l.* 5*s.* 4*d.* These payments were borne by the Secretary of State provisionally under the supplementary contract of 1919, pending the result of an action to be brought by the East Indian Railway Company to determine whether the interest received by the deferred annuitants between 1st January 1920 and 31st December 1924,

Compensation to Deferred Annuitants of the East Indian Railway Company for loss of Income Tax relief.

while the annuities continue to remain in abeyance, is properly assessable in full to income tax, or whether such a portion as would have represented the payment of capital had the annuities been payable during this period should not be exempt from tax. It was arranged in December 1919 that the Railway Company should at their own cost and with all reasonable despatch bring the action to have the point decided. The writ was issued in March 1921, but owing to delay, apparently due to the difficulty of Counsel on both sides in arranging a date suitable to all parties concerned, the case came into Court only a few days ago. The decision was against the Railway Company. The amounts involved are therefore finally chargeable against Indian revenues.

7. The contract with the East Indian Railway Company comes to an end in December 1924, after which date the working of the railway will be transferred to India. In these circumstances, a favourable opportunity having arisen, the remainder of the lease, expiring in 1944, of the Company's London office premises has been sold on the following terms: (*a*) purchase price, 24,000*l*., to be paid on 1st January 1925; (*b*) purchasers to provide suitable office accommodation for the Company as long as required at a rental not greater than the present annual cost.

East Indian Railway. Sale of London office premises.

The premises were vacated as from 24th June 1922, and 24,000*l*. was placed on deposit with the Imperial Bank of India on 6th July 1922 by the purchasers, to be held jointly in their name and that of the Secretary of State, as security for payment of the purchase money in due course. I was furnished with a certificate that this amount was still on deposit on the 31st March 1923.

The amount charged to capital in respect of the lease in 1879, when the line was purchased by the Secretary of State, was 4,600*l*.

8. The receipt of 14,973*l*. 6*s*. 7*d*. under the sub-heading Subsidized Companies, represents the Government moiety of the surplus net earnings of the Rohilkund and Kumaon Railway Company's main line remaining after payment of interest on that part of borrowed capital and share capital allocated to it, as provided in the contract between the Secretary of State and the Company. Although the average rate of exchange (slightly under 1*s*. 4*d*. the rupee) was appreciably lower than in recent previous years, this is the highest amount received so far by the Secretary of State as his share of the profits.

Surplus profits. Rohilkund and Kumaon Railway.

The increase is due to the considerable sum credited to Revenue in respect of the sale proceeds of the Company's road service, which was disposed of during the year. The proceeds included, in addition, an item of Rs. 60,000 for "goodwill." Of this sum an instalment of Rs. 30,000 was received by the Company, but, although shown as a credit in the Indian Net Revenue account, it was not included by the Company's Home Board in the amount of surplus profits to be divided. This omission was questioned in audit, and the matter is still under consideration.

Hitherto the Secretary of State's moiety of net profits had not been paid over until the Surplus Profits account had been examined and accepted on his behalf, the Company having meanwhile the use of the money. As the sum involved was now considerable, I suggested that an advance payment should be made as soon as the approximate amount due was known, subject to adjustment when the account had been audited. It was arranged that in future an advance of 90 per cent. should be made. This amount will be received about nine months earlier than it would have been under former conditions.

Earlier payment of surplus profits.

9. The Burma Railways Company's liability for the cost of stamping transfers of the ordinary stock of the Company had, by agreement with the Inland Revenue Department, been commuted for a half-yearly payment of 750*l*., increased under the Finance Act of 1920 to 1,500*l*. The amount so paid had for many years invariably exceeded what would have been the actual cost of stamping. The question was raised in audit whether, if the gain which had previously accrued to the Company by compounding the duty had now been wiped out, it would not be desirable to approach the Inland Revenue authorities with a view to terminating the arrangement. Investigation showed that during the seven and a half years to January 1923 the excess payments amounted to 9,500*l*., and that over the whole period during which a composition had been paid there was a net loss of 700*l*. As the Company anticipated that the number of transfers would tend still further to decrease, steps were taken to secure the cancellation of the agreement with the Inland Revenue, and it was terminated as from 1st August 1923.

Saving on transfer duties.

POSTS AND TELEGRAPHS.

10. No settlement has yet been reached of the question referred to in para. 9 of my last Report regarding the contribution payable by India to the General Post Office towards the cost of the Eastern Mail Service. Revised proposals have recently been made to the Imperial Government, under which a considerably reduced amount would be paid by India with effect from 1st April 1923, subject to arrears for past years being waived. The reply to these proposals has not yet been received.

Eastern Mail Subsidy.

11. In para. 14 of my last Report I referred to an amount of 1,342*l.* 12*s.* 2*d.* due from the Turkish Government on account of traffic balance (for 1914) message revenue, Indo-European Telegraph Department. I am informed that as peace relations with Turkey have been resumed steps are now being taken to press this claim by the usual diplomatic means.

Amount due from Turkey.

General Administration.

12. The amount received in respect of the grant in aid from the Imperial Government in 1922–23 was 113,500*l.*, shown in the account in reduction of payments under the following heads :—

Contribution of His Majesty's Treasury in respect of Administrative Expenses of the India Office.

	£
General Administration - - - -	101,400
Audit - - - - -	5,800
Stationery and Printing - - - -	6,300

The total grant in aid for the year was 153,500*l.*, the balance of 40,000*l.* being brought to account as described in para. 2 of my Report on the Account for 1920–21. Commencing with the Account for 1923–24, all contributions by the Imperial Government will be shown in full detail, *vide* para. 6 of my last Report.

13. In para. 7 of my last Report reference was made to the revised scale of the Broker's commission fixed as a result of my comments on the Account for 1920–21. In order to show what the effect of the revision had been, I dealt in that Report with the payments for the year now under review, and pointed out that the reduced scale had resulted in a saving to Indian revenues in 1922–23 of 6,682*l.* In consequence, the rate of commission was again considered and further reductions were made in October 1923, with retrospective effect from 1st April 1923. In my next Report figures will be given to show the financial effect of these modifications.

Commission paid to the India Office Broker.

Miscellaneous.

14. 8,500*l.* was placed at the disposal of the Secretary of State during 1922-23. The amount actually expended was 8,654*l.* 4*s.* 10*d.*, and the balance in hand on the 31st March 1923 was 400*l.* 3*s.*

Secret Service money.

The Secretary of State has furnished me with a certificate that the expenditure was necessary for the public service.

15. Para. 19 of my last Report related to an amount of about 53,000*l.* disbursed in connection with the relief and repatriation of Adenese seamen found destitute in various ports in this country.

Receipts have recently been furnished for the sum of 3,800*l.* referred to as still subject to adjustment at the date of my Report. The relative accounts are under audit.

Relief and repatriation of destitute Indians.

I am informed that no material progress has been made with regard to the question of responsibility for the administration of Aden. No claim has therefore yet been made on the Imperial Government in respect of the cost of the repatriation of the seamen.

Military Services.

16. In para. 29 of my last Report I referred to delays and discrepancies in connection with Indian last pay certificates. Attention has been drawn to further cases of overissue due to defects in these documents. The question has been brought to the notice of the Government of India, and recently an officer of the Military Accounts Department on leave in this country was placed on duty to examine the matter in consultation with the Departments of the India Office concerned. His report contains suggestions for the prevention of delays, the reduction of correspondence and the greater accuracy of the documents.

Defects in last pay certificates.

17. In para. 30 of my last Report I referred to a type of error which had been detected in connection with the grant of after-war leave. Further cases involving (*a*) double grants of leave and (*b*) grants to officers not entitled to such leave, have been pointed out during 1922–23.

Erroneous grants of after-war leave.

18. Furlough pay is issued at the India Office on behalf of the Imperial Government to officers belonging to the Indian Army lent for service in Iraq, Egypt and Palestine Attention has been drawn by my Department to a number of cases where the furlough pay had been incorrectly charged to Indian revenues. These include a number of detached officers whose pay on termination of their service in Iraq, &c., was accepted by the India Office from the dates on which they were placed at its disposal by the War Office. I pointed out that this would involve payment from Indian revenues during leave earned by Imperial service, and

Incorrect classification of recoverable expenditure.

after correspondence the War Office agreed to accept in these and subsequent similar cases liability for such leave.

19. The saving to Indian revenues as a result of questions raised in connection with the matters referred to in paras. 16 to 18 amounts, in respect of cases relating to the year 1922–23, to upwards of 8,000*l*.

Voyage pay of units proceeding to and returning from India.

20. In para. 27 of my last Report I referred to a proposal made by this Department that in view of the abnormal conditions and following the arrangements made with the War Office as regards sea transport charges, India's liability for voyage pay of units proceeding to and from India during the post-war quinquennium should be discharged by the payment of a fixed annual sum based on the pre-war average, with necessary corrections for increased pay, reduced establishment, &c. This has now been agreed and the annual amount payable is 22,500*l*. Final adjustment up to 31st March 1923 will be made on receipt from India of information as to any amounts disbursed there from 1st April 1920 to 31st March 1923 on account of voyage pay of units.

The amount of 28,174*l*. 9*s*. 8*d*. referred to in para. 27 of my last Report has been accepted as a charge against Army Funds.

Proposals have been made to apportion the land transport charges in India connected with the moves of units on the same basis as voyage pay.

Marriage allowance and allotments: British troops.

21. An amount of 509,362*l*. 9*s*. 1*d*. was paid in 1922–23 to the War Office and Air Ministry in respect of marriage allowance and allotments for the twelve months from October 1921 to September 1922.

With regard to the claims rendered by Regimental Paymasters which were referred to in para 28 of my last Report, the further information called for regarding the units and periods to which the claims related has not yet been furnished. Questions raised as to the incidence of the charge for marriage allowance of (1) units, and (2) drafts, have now been settled in principle. As regards (1), the War Office have agreed to the discharge of India's liability for voyage pay (including marriage allowance) of units proceeding to and from India during the post-war quinquennium, by the payment of a fixed annual sum (*vide* para. 20). As regards (2), it has been decided that the marriage allowance of drafts and details during the voyage periods is to be treated as covered by the capitation rate for Effective Services.

The rectification of the accounts in connection with these and certain other questions raised in audit (some of which have been outstanding for a considerable time) will be a matter of difficulty: the War Office have recently been asked to agree to a conference as the best means of arriving at a satisfactory arrangement.

A general examination of the claims for the period mentioned above has been made and a test audit carried out at the offices of certain Paymasters whose accounts aggregate about 20 per cent. of the total claims. Sums amounting to about 5,300*l*. were disallowed and have been adjusted against subsequent claims. The disallowances were mainly of charges in respect of units which had left the Indian establishment, but at one pay office where a number of individual cases were examined it was found that an amount of 1,284*l*. 8*s*. 10*d*. had been charged for periods subsequent to the voyage of soldiers returned from India on transfer or discharge.

The question of devising an equitable method of adjusting possible overcharges at other pay offices similar to those discovered in the test audit will be discussed at the proposed conference with the War Office.

The examination of the claims showed also that they included amounts totalling about 17,300*l*. in respect of troops at Aden. Steps have been taken to reclaim a moiety of this amount, which, under existing arrangements regarding military charges for that station, is payable from Imperial revenues.

The difficulties caused by the delay in India in rendering allotment rolls, referred to in my last Report, have, it is hoped, been removed by a revised procedure which was instituted with effect from the December quarter, 1922.

Marriage allowance and allotments: Indian Army.

Payments amounting to 49,288*l*. 6*s*. 2*d*. were made at the India Office in respect of marriage allowance, &c., of soldiers on the India Unattached List, &c. It was pointed out in audit that the issue of marriage allowance to the families of a number of soldiers of the Royal Corps of Signals who came from India on transfer to the Home Establishment had been continued beyond the date of transfer, but no steps had been taken to adjust the overcharge against Indian revenues. The amount, about 1,200*l*., has now been recovered.

Visit to England of the Indian Peace Contingent.

22. The claims of 92,805*l*. by the Mercantile Marine Department of the Board of Trade for the transport of the Contingent to and from India, referred to in para. 36 of my last Report, have not yet been adjusted. Advances amounting to 70,460*l*. were made by the India Office pending their examination. A letter embodying points raised in audit was addressed in June 1923 to the Board of Trade, who still have the matter under consideration.

Payments in respect of surplus officers.

23. 453,365*l.* 5*s.* 7*d.* is charged in the Accounts for 1922-23 under the heading "Army Effective—Special Services—Gratuities and Allowances of Surplus Officers of the Indian Army."

This amount consists of payments made during the year to officers whose services have been terminated owing to reductions which have been made in the strength of the Indian Army. About 2,000 officers, Captains and Lieutenants, have been selected in this connection, and compensatory payments will continue to be made up to 1926-27. The concessions granted consist of (*a*) passages for the officer and his family to the United Kingdom or to any part of the British Empire; (*b*) all full pay leave admissible under regulations, subject to a minimum of two months' leave; (*c*) gratuities varying from 850*l.* to 1,250*l.* for a Lieutenant and from 1,250*l.* to 1,825*l.* for a Captain. (Under an extension of the original scheme the gratuity to a Captain might in the case of a senior officer reach 2,500*l.*) Of this gratuity 15 per cent. in the case of single officers and 20 per cent. in the case of married officers is payable on retirement; (*d*) annual allowances at the rate of 200*l.* for single officers and 300*l.* for married officers for a period not longer than three years from date of retirement. At any time within that period the balance of the gratuity can be claimed by the officer, and from the date of its payment the issue of the annual allowance terminates.

The question whether Imperial revenues are liable for any part of the cost of the Surplus Officers Scheme is under consideration.

British Army: Surplus Officers Scheme.

24. In the British Service also a reduction in establishment took place, and a number of officers serving in India were retired. The amount of 122,840*l.* 17*s.* 8*d.* charged under the heading "Army Effective; Furlough Pay of British Regiments serving in India," contains items in respect of the pay of some of these officers which, in whole or part, are recoverable from Imperial revenues. Correspondence on this matter is now proceeding.

Incorrect assessments of Pensions.

25. In India substantive Colonels are frequently employed in appointments which are usually held by officers of a lower rank, *i.e.*, Lieutenant-Colonels. I drew attention to a case where the widow of a Colonel, whose substantive appointment was Commandant of a Regiment, had been granted a pension as if her husband had been employed substantively in a Colonel's appointment, whereas in my opinion she was only entitled to pension as the widow of a Lieutenant-Colonel. The Department of the India Office concerned held that, according to the wording of the Royal Warrant, the pension granted was correct, but at my suggestion enquiry was made from the War Office, and the reply confirmed my contention, viz., that the widow is only entitled to the higher rate of pension where the officer has been employed in an appointment tenable by a Colonel. The pension was accordingly reduced from 100*l.* to 90*l.* per annum.

In the case of three other widows drawing Royal Warrant pensions attention was drawn to incorrect assessments; one was reduced from 90*l.* to 70*l.*, one from 70*l.* to 50*l.*, and the third from 150*l.* to nil.

In para. 20 of my last Report I referred to cases to which attention had been drawn, of pensions granted to officers at incorrect rates. Since then I have brought to notice fourteen other cases, which have now been adjusted, involving an annual saving of about 240*l.* About 800*l.* was overpaid before attention was drawn to these cases, of which 170*l.*, representing the over-issue for six months, was recovered and the balance written off under the rules then in force.

In connection with the overpayments of pensions, the net amount only after deduction of income tax is due for recovery from the officer. I drew attention to the fact that in several cases the amounts recovered were credited "net" to the service head whereas the gross amount involved should have been so credited and a *per contra* debit raised against the Inland Revenue Department on account of tax. Correct classification has now been made in these cases, resulting in a saving of about 300*l.* to Indian revenues.

Reference has been made in this and previous Reports to incorrect assessments of pensions, resulting in overpayments, but attention has also been drawn to, and adjustment made in, a number of cases where pensioners have not been granted the full amounts due to them, ranging from a few shillings up to 75*l.* a year.

Incorrect grants of education allowances.

26. In para. 22 of my last Report I referred to cases of incorrect grants of Education Allowance to which attention had been drawn, most of which had been dealt with at the date of the Report. In seven cases in which action was incomplete, the allowances have since been withdrawn or reduced, the resultant saving being about 450*l.* a year.

The measures taken in consequence of questions raised in audit are proving effective, and as a result allowances have been withdrawn or reduced in several other cases.

27. In para. 24 of my last Report attention was drawn to the fact that disability pensions granted in respect of the Great War must be reduced by the amount of any wound or injury pension granted in respect of previous service. Attention has since been drawn by this Department to further cases. Annual pensions were reduced in two cases by 75*l.* and in a third case by 30*l.*

War pensions reducible by previous pensions.

Attention was also drawn to the case of an officer whose war pension had been re-assessed in virtue of re-employed service rendered during the Great War, and who was accordingly ineligible for a disability addition in respect of disability incurred by service in a previous war; his pension of 30*l.* a year was not renewed.

28. Owing to the rise in the cost of living, pensioners above a certain age who were in receipt of an income not exceeding 150*l.* per annum if single and 200*l.* if married were granted an increase of pension on a graduated scale. Examination in this Department of the declarations of income which have to be furnished periodically by the pensioners showed that the bearing on these grants of the receipt by some of them of old age pensions had not been fully realised, and that in some cases the total amount received from public funds was larger than was admissible under the various rules. Steps have now been taken which should be effective in preventing the issue of larger amounts than are admissible in these cases. In other cases it was pointed out that (1) the net income after deduction of tax was included in the declaration instead of the gross amount; and (2) allowance had not been made for earnings or the value of maintenance, &c. The necessary corrections have been made.

Increases granted to small pensioners.

29. Under present arrangements disability pensions are issued by the Department authorising their grant irrespective of the service in which the disability was incurred. Attention was drawn to cases where pensions had been incorrectly issued by the India Office and payment has now been transferred to the Ministry of Pensions.

Pensions issued by the wrong authority.

30. I pointed out that certain pensions issued at the India Office and classified under final heads of account were ultimately chargeable to Iraq revenues. I suggested that it would be preferable and would facilitate recovery if the amounts were charged to a suspense heading pending the settlement of the question as to how recovery should be made. About 3,800*l.*, representing the issues up to 31st December 1922, was accordingly transferred to a suspense account. 1,763*l.* on account of issues since 1st April 1921 has now been recovered, the balance being under reference to Iraq. The issue of these pensions has been transferred to the Crown Agents with effect from 1st January 1923.

Pensions recoverable from Iraq revenues.

31. Certain widows of Indian Army officers are in receipt of pensions from Lord Clive's Fund, under the rules of which awards are made on a sliding scale, subject to a "means" limit. On admission a declaration of income has to be furnished, and pensioners are required to report any accessions of income at the time they are received. In addition, periodical declarations are required.

Pensions granted subject to a "means" limit.

I drew attention to a case where at death a pensioner left an amount considerably in excess of the means limit in her case. Enquiry was made, and it transpired that she had not reported certain accessions to her income. 596*l.* 5*s.* 9*d.*, representing pension erroneously drawn from July 1917 to September 1922, was recovered from her estate.

In another case it was proposed to reduce a pension of 84*l.* in issue to 58*l.* from December 1922, under the rules of the Fund. The case was referred to this Department for pre-audit, when attention was drawn to certain additional aspects; after further enquiries had been made the pension of 84*l.* was reduced to 71*l.* from April 1922, and to 28*l.* 10*s.* from April 1923.

32. The Chief Accountant of the India Office acts as Clerk to the Commissioners of Income Tax in relation to pay and pensions issued by him, and in that capacity obtains and holds in custody the usual returns made for Income Tax purposes. In the past, my Department has, as a matter of course, had access to these returns, subject to the observance of their confidential nature, and has used them in cases of doubt as a check on the adequacy and accuracy of declarations made for the purposes of Lord Clive's Fund pensions referred to in the preceding paragraph, and other pensions subject to a property limit. By this means many queries were raised and substantial savings effected.

Use of Income Tax returns for check purposes.

The propriety of this use of the income tax forms by my Department has now been challenged, and the Board of Inland Revenue sustained the objection. They have, however, agreed that the returns may be used for check purposes by those members of the India

Office who combine the functions of issuing pensions and assessing income tax. It remains to be seen whether equally good results will be secured, but my powers under the Government of India Act do not appear to give me the right to insist on access to these documents.

In the circumstances, I pointed out the advisability of tightening up the declarations of income required specifically for pension purposes, and have secured the introduction of several improvements in procedure.

33. In para. 26 of my last Report I referred to various matters connected with the assessment by the Medical Board at the India Office of pensions granted under Royal Warrants to officers of the Indian Army. I explained why the Secretary of State was averse from the transfer of the administration of these pensions to the Ministry of Pensions, and detailed the various steps taken, as a consequence of my criticism, to tighten up their administration at the India Office.

India Office Medical Board and disablement assessments.

After some experience of the new arrangements I came to the conclusion that the position was still far from satisfactory, and as a result of informal discussion a joint enquiry was made as to the procedure of the Ministry of Pensions by a member of the India Office and a member of this Department, the results of which substantiated the view held by me as to the divergence in the administrative methods of the two Departments in the assessment of disability pensions. I therefore asked in May 1923 that the question might be reconsidered. Further modifications of the practice of the India Office, with a view to bringing the two Departments more into line, are still under consideration.

34. Paras. 35 to 38 relate to receipts from, and paras. 39 to 45 to payments to Departments of the Imperial Government on account of services rendered, &c. These receipts and payments are provisional only and are subject to final adjustment.

35. Receipts from the War Office on account of:—

(*a*) Clothing and necessaries in possession of regiments on their transfer from the Indian to the British Establishment. A further advance of 21,100*l.* was received in 1922–23, which, together with the advance of 22,450*l.* referred to in para. 41 (iii) (*a*) of my last Report, is still subject to final adjustment.

(*b*) Accoutrements, &c., in possession of regiments on their transfer from the Indian to the British Establishment. The advance of 80,000*l.* referred to in para. 41 (iii) (*a*) of my last Report has now been adjusted.

Clothing, equipment, &c.

(*c*) Consolidated Clothing Allowances of British troops returning from India. A further advance of 52,700*l.* was received in 1922–23, which, together with the advance of 52,300*l.* referred to in para. 41 (iii) (*b*) of my last Report, is still subject to final adjustment.

36. A sum of 80,000*l.* was received from the Air Ministry in March 1923 on account of equipment of a squadron of the Air Force which proceeded from India to Iraq in 1921. This is still subject to final adjustment.

37. In para. 41 (ii) of my last Report I made some remarks regarding a provisional receipt of 240,000*l.* on account of bounties.

The War Office share of the expenditure in India in respect of the bounties granted in 1916, 1918 and 1919 has recently been computed by the India Office to be:—In respect of the 1916 bounties 81,120*l.* 10*s.* 2*d.* and of the 1918–19 bounties 400,495*l.* 7*s.* 7*d.*

The former amount is still under consideration by the War Office, but the latter has been admitted and adjusted by the receipt of the balance due after allowing for the advance of 240,000*l.* referred to above.

Bounties paid in India to British soldiers for extension of service.

In connection with the claim I pointed out that the 1*s.* 4*d.* rate of exchange, which had been used in a large number of entries of amounts issued in India included in the Account Current, was not applicable. It is difficult to estimate the amount by which the claim in respect of the 1918–19 bounties has been increased by using the correct rate of exchange, but it was probably upwards of 75,000*l.*

The 1921 bounties were borne entirely by the War Office and the amounts disbursed by India have been recovered.

38. A further amount of 100,900*l.* was received from the Imperial Government in 1922–23 on account of retired pay, &c., of Indian troops lent to it. This amount, together with the amount of 1,228,000*l.*, referred to in para. 41 (i) of my last Report, is subject to adjustment, and will probably be dealt with in the general settlement of outstanding claims referred to in para. 5.

Non-effective charges: Indian troops.

39. War Office: Capitation Rate for Effective Services:—

In para. 42 (i) of my last Report I gave details regarding the question of post-war payments to the Imperial Government on this account. Advances of 1,896,000*l.* were made in 1920–21 and 1921–22. The War Office have submitted claims, supported by detailed figures, as follows:—1920–21, 1,964,000*l.*; 1921–22, 1,867,000*l.*; 1922–23, 1,663,000*l.* (in lieu of 1,788,000*l.* originally estimated by the War Office as India's contribution for that year). Provisional adjustment has been made in the account for 1922–23 on that basis.

War Office: Effective Services.

The War Office claim, which the India Office have declined to admit, that 1919–20 should be regarded as a post-war year for the basis of capitation payments, involving a further payment by India of 786,000*l.*, is still the subject of correspondence.

40. War Office: for gratuities on death, discharge, &c.:—

82,000*l.* was advanced on this account in respect of payments during 1922–23.

The account for the year also includes a further payment of 16,683*l.* 12*s.* 9*d.* in respect of 1920-21 and a refund of 32,933*l.* 6*s.* 8*d.* in respect of 1921–22.

With regard to the charge for 1920-21, I raised a question as to the equity of reverting to pre-war methods of adjustment for that year. The War Office reply is to the effect that although the circumstances were exceptional the normal method of division of charges is, in their opinion, not inequitable to India. I have not accepted this contention pending the completion of my audit of the actual payments during that year by the War Office.

Gratuities payable under Royal Warrant.

With regard to the amended claim for 1921–22, I pointed out that incorrect figures of strength had been used in arriving at the amount due by India, and it was admitted by the War Office that an overcharge of 1,518*l.* had been made, which will be adjusted in the settlement for 1922–23.

A test audit of the actual payments during 1921-22 is being made, but is not yet complete.

41. War Office on account of Unemployment Insurance:—

The amount of 169,000*l.* under this head is an advance in respect of the year 1922–23 and is subject to adjustment. The amounts of 3,266*l.* 7*s.* 10*d.* and 4,922*l.* are adjustments in respect of the period 1st August 1920 to 31st March 1921 and the year 1921–22 respectively, and are provisional only pending acceptance of the figures by India.

42. Air Ministry for effective services in respect of personnel of the Air Force serving in India:—

A further amount of 95,500*l.* was advanced in 1922–23, which, together with the amounts of 92,000*l.* in 1921–22 and 100,000*l.* in 1920–21 referred to in para. 42 (vii) of my last Report, is still subject to adjustment.

Effective Services—Air Ministry.

43. War Office on account of:—

(*a*) Clothing and necessaries in possession of regiments on their transfer from the British to the Indian Establishment.

A further advance of 49,200*l.* was made in 1922–23, which, together with the advance of 43,900*l.* referred to in para. 42 (vi) (*a*) of my last Report, is still subject to final adjustment.

Clothing, equipment, &c.

(*b*) Accoutrements, &c., in possession of regiments on their transfer from the British to the Indian Establishment. The advance of 155,000*l.* referred to in para. 42 (vi) (*a*) of my last Report has now been adjusted.

(*c*) Consolidated Clothing Allowances of British troops proceeding to India. A further advance of 85,600*l.* was made during 1922–23, which, together with the amount of 96,650*l.* referred to in para. 42 (vi) (*b*) of my last Report, is still subject to final adjustment.

44. War Office for Sea Transport:—

In para. 42 (iv) of my last Report I gave some details regarding the question of post-war payments to the Imperial Government on this account. Further advances were made in 1922-23 and a claim for the refund of 313,000*l.* was made on the War Office in November last in settlement of India's liabilities up to 31st March 1923, but no reply has yet been received.

Of this amount 42,000*l.* represents additions resulting from criticism of the War Office figures by this Department, which also collaborated (*a*) in preparing the India Office case for rejecting the counterclaim for 312,000*l.* put forward by the War Office on the ground that the year 1919–20 should be treated as post-war for the purposes of

Sea Transport.

financial adjustment, and (*b*) in discussions as a result of which a further War Office claim for 81,000*l.* in respect of certain special moves connected with changes in the composition of the British Establishment in India was reduced to 25,000*l.*

In connection with the detailed adjustments for 1922–23 necessitated by the settlement of the Sea Transport Charges on a composition basis I pointed out that the cost of certain passages amounting to 1,790*l.* included in the Accounts of the High Commissioner for India was properly debitable to Imperial revenues and the necessary adjustment has been made.

45. War Office for non-effective services, *i.e.*, retired pay and pensions of His Majesty's Forces for service in India :—

Non-Effective Services: War Office.

1,068,000*l.* was advanced in 1922–23 on this account. The account for the year 1913–14 has been examined at the India Office, but adjustment of this and the accounts from 1914–15 onwards is involved in the general settlement referred to in para. 5.

Debt.

46. Under the head "Permanent Debt Incurred," in addition to "Receipts in the year," amounts of 48,186*l.* 18*s.* 3*d.* and 19,849*l.* 14*s.* 3*d.* are entered as "Discount written off to Revenue in the year" against the issues of 10,000,000*l.* (December 1921) and 12,500,000*l.* (June 1922) India 5½ per cent. Stock respectively. These amounts are book entries against *per contra* debits to interest on ordinary debt. The discount, which amounted to 650,000*l.* on the December 1921 issue and 500,000*l.* on the June 1922 issue, could not, without financial inconvenience, be brought to account, as is the practice where comparatively small sums are involved, as a charge against revenue in the financial years concerned. In the case of previous loans involving discount of large amounts, sinking funds were established to redeem the difference between the issue price and par by purchases of India stock in the market, and its subsequent cancellation, during the currency of the loan. This method involves certain incidental expenses connected with the purchase of stock, and is at best only approximate owing to variations in market prices. It was accordingly decided in the case of the 5½ per cent. Stock to secure the eventual equation of the amount recorded as proceeds of the loan with the actual liability, and at the same time to spread the charge against revenue over a series of years by appropriate book entries to be carried out half-yearly up to the earliest of the optional dates fixed for redemption, viz., 15th January 1932.

Treatment of discount on issues of India Stock.

The same method has since been used to bring to account the discount on subsequent issues of India 4½ per cent. Stock.

Deposits and Advances.

47. A statement showing the balances on the suspense accounts included under the heading "Deposits and Advances" will be found in Appendix II on page 24. As explained in para. 5 of my last Report these are chiefly running accounts, which are periodically cleared, with Departments of the Imperial Government. The two largest accounts are not of this nature, viz., (*a*) "Enemy Ships," which, so far as the accounts of the Secretary of State are concerned, shows the same credit balance, viz., 3,584,646*l.* 2*s.* 10*d.*, as last year (the present position of this account is dealt with in para. 4 of my Report on the accounts of the High Commissioner for 1922–23); and (*b*) "Advances for the purposes of the Persian Government" which shows a debit balance of 2,498,360*l.* 14*s.* 1*d.* and is referred to in the following paragraph.

Balances on Suspense Accounts.

48. In para. 15 of my last Report I gave details of the various advances which had been made from time to time from Indian revenues for the purposes of the Persian Government, and the balance on the Suspense Account at 31st March 1922, which comprised the outstanding amount of principal of the various loans, was dissected.

Similar payments were made by the Persian Government in 1922–23 as in the previous year, viz., instalments of principal and interest in accordance with the amortisation table in respect of the 1903 loan, and interest on the loans made from 1912 to 1914. No amounts, either for interest or principal, were received on account of the advances made from 1915 to 1920.

Payments relating to Persia.

The principal outstanding on 31st March 1923 was as follows :—

	£	*s.*	*d.*
1903 loans - - - -	131,090	12	5
1912–14 loans - - - -	245,000	0	0
1915–20 loans - - - -	2,122,270	1	8
Total - - -	£2,498,360	14	1

Attempts are still being made to effect recovery of the amounts due in respect of the later loans, but so far without success.

49. The amount of 17,588*l.* 4*s.* 9*d.* referred to in para. 16 of my last Report, in respect of expenditure in 1916 and 1919 for compensation to prisoners, &c., in Persia, held to be recoverable from the Persian Government, is still outstanding.

Compensation to prisoners of war.

Remittances.

50. Early in 1917 the Government of India, in view of the gravity of the shipping problem and of the necessity for relieving home industries, had under consideration the question of the production in India to the fullest extent possible of stores and munitions required by the forces in the East. A Controller of Supplies and Contracts was appointed, and a request was made for an experienced official of high standing from the Ministry of Munitions to be sent to India to collaborate with him in the organisation of the resources of India for this purpose. In March 1917 Sir F. W. Black, K.C.B., Director-General, Munitions Supply, accompanied by a staff of expert assistants, proceeded to India, and shortly afterwards submitted a scheme for the production there of all the munitions required in that country and by the forces in Mesopotamia and Egypt, with provision for subsequent expansion.

The estimated non-recurring cost of this scheme was 500,000*l.* The scheme was opposed by the Indian Munitions Board (which, with the Controller of Supplies as President, had been set up at the beginning of April 1917), on the grounds of expense, the difficulty of obtaining the requisite labour and materials, and the time that would be required for its completion. The Board preferred a smaller scheme under which the existing factories would be improved and adapted to war needs at an estimated cost of 120,000*l.*, with completion in eight months. The Ministry of Munitions urged the adoption of the larger scheme and estimated that in the hands of constructional engineers from home it could be completed in nine months. The Secretary of State supported this scheme in principle, and it was decided to adopt it on the understanding that Imperial revenues should bear three-fourths of the capital cost. This arrangement, which was apparently made without reference to the question of ultimate ownership of the property, was afterwards modified, and it was decided that India should bear half the cost up to a limit of 250,000*l.*, subject to the property becoming her own after the war.

Scheme for the extension of Indian Ordnance Factories.

Some confusion seems to have existed as to the responsibility for carrying out the scheme. Control seems to have been in the hands of the Indian Munitions Board, but (*a*) they were assisted by constructional experts sent out by the Ministry of Munitions; and (*b*) they worked in close touch with the local representative of the Ministry of Munitions, who was vested with power to veto expenditure and proposals.

It soon became evident that construction would not be completed in the time originally intended, and that the estimated cost of the scheme would be very considerably exceeded. The Munitions Board ascribed the excess expenditure on construction to the rapid rise in the cost of building material; to the fact that the area of the shops provided for in the final designs exceeded that contemplated in the original plans; and to the provision of certain essentials which had been omitted from the scheme. They contended that the original estimate had been too low; and in their view the scheme as designed by Sir F. Black was, as it stood, incomplete and unworkable. On the other hand, the Ministry of Munitions, while admitting that the original estimate had been framed hurriedly and with insufficient technical advice, maintained that India had chosen the siting badly—necessitating partial rebuilding; that the work had been carried out extravagantly and wastefully; and that the buildings had been made more substantial than was intended. For the reasons already given it seems doubtful whether ultimate responsibility for the increased expenditure on construction can be ascribed to the Indian authorities, and in any case it may be remarked that the Ministry of Munitions themselves ordered in England machinery costing 500,000*l.*, an amount equal to the original estimate for the whole scheme.

Expenditure was rapidly approaching a total of 1,000,000*l.* when the war came to an end. The work was carried on, however, on the advice of the Ministry of Munitions, in view of the progress made and the amount of expenditure already incurred or to which public funds were committed, and the scheme was completed in 1919. The total cost, including that of certain production material supplied, was over 1,300,000*l.*, of which sum India had spent 578,000*l.*

Prolonged negotiations took place with the Ministry of Munitions (later the Disposal and Liquidation Commission) and the Treasury regarding the adjustment of the accounts. The Imperial authorities continually pressed for a larger contribution from India on the ground of the greater value of the property to be taken over. But as the factories were largely in excess of India's requirements, their value was by no means commensurate with their cost, and India refused to bear a larger share of the expense than the maximum sum of 250,000*l.* originally agreed upon. Agreement was finally reached early in 1923 for settlement on the original terms, subject, however, to India taking over the whole of the production material valued at 230,000*l.* for the sum of about 210,000*l.*

On the basis of figures then available, settlement was effected by the receipt from the Disposal and Liquidation Commission in March 1923 of 160,000*l.* subject to adjustment. Later figures from India showed that the sum due under the settlement was 117,700*l.*, and 42,300*l.* has since been refunded to the Disposal Commission.

51. An amount of 65,000*l.* was received in 1922-23 from the Board of Trade as an advance subject to adjustment in respect of the capitalised value of pensions paid and to be paid in India to the dependants of lascars of British ships who lost their lives through war risks. The calculation made by the Government of India of the amount due to Indian revenues is at present under examination by the Actuary of His Majesty's Government.

Compensation, &c., in respect of lascars employed on War Service.

52. In para. 37 of my last Report I referred to considerable amounts charged to Central Revenues on account of pensions of retired marine officers which were being recovered from Port Funds as a result of the question having been raised by my Department. Attention has since been drawn to further cases involving about 200*l.* annually, which have now been adjusted.

Officers of the Royal Indian Marine were recently granted increased pension with retrospective effect from 1st April 1919. I pointed out that this presumably involved a corresponding increase in the amounts chargeable to the Port Funds. This matter is being investigated.

With regard to the pensions of engineer officers of the Royal Indian Marine, to which reference was made in my last Report, the Government of India have stated that no part of the pensions of such officers who served in port appointments is chargeable to Port Funds. Their pay was, however, borne by Provincial Governments, and it has now been decided, in the case of Royal Indian Marine officers, both executive and engineer, whose pay is borne by Provincial Revenues that pensionary charges shall be divided in proportion to the length of service rendered to the Central and Provincial Governments, and that retrospective adjustment will be made in the cases of all such officers who have retired since 1st April 1921.

Amounts chargeable to Local Funds, &c.

W. A. STURDY,
Auditor.

INDIA AUDIT OFFICE,
31st January 1924.

Office of High Commissioner for India, London, S.W. 1,
August 1923.

G. H. STOKER,
Chief Accounting Officer.

I certify that the above Account has been examined under my directions and that, subject to the following observation, it is, in my opinion, correct.

The amount of 25,716*l.* 14*s.* 9*d.* charged under the heading "General Administration" (Non-Voted) includes, in accordance with the classification shown on the last pay certificate, the leave salary of a member of the Indian Civil Service who held an appointment on the Calcutta Improvement Trust. I raised the question whether any portion of his leave salary was debitable to the Trust, and I was informed that steps were consequently being taken in India to recover Rs. 14,000 from that body.

* Including Lodging and Subsistence Allowance of Officers on Deputation or Study Leave.

Office of High Commissioner for India, London, S.W. 1,
August 1923.

G. H. STOKER,
Chief Accounting Officer.

I certify that the above Account has been examined under my directions and that it is in my opinion correct.

The last pay certificate of a member of the Indian Civil Service showed him as being entitled to 10 months 1 day combined privilege leave, leave on average salary and vacation leave. I raised the question whether such combined leave was not subject to a maximum of 8 months. Pending reference to India, combined leave was restricted to the shorter period, involving a reduction of 236*l.* in the amount payable as leave salary.

The view held by me was accepted by the Auditor-General.

INDIA AUDIT OFFICE, 31st December 1923.

INDIA AUDIT OFFICE, 31st December 1923.

W. A. STURDY, *Auditor.*

No. 5.

REPORT of the AUDITOR of INDIAN HOME ACCOUNTS upon the Accounts of the HIGH COMMISSIONER FOR INDIA, for the year ended 31st March 1923; prepared and submitted to the GOVERNOR-GENERAL IN COUNCIL, in accordance with Clause 9 of the Order in Council dated 13th August 1920.

GENERAL.

1. No further duties affecting the scope of these accounts were transferred to the High Commissioner during the year ended 31st March 1923.

2. As this Report and those on the accounts for future years will be submitted to the Public Accounts Committee set up by the Legislative Assembly, it may be useful if I state that these Reports are intended to be informative as well as critical. The Reports on the Accounts of the High Commissioner for 1920-21 and 1921-22 contain matter which may be helpful in connection with any scrutiny which may be made of the present Report.

3. A statement showing the balances on accounts included in the section of the Account headed "Deposits and Advances" is contained in Appendix 1 on page 18. The excess of the total of credit balances (representing liabilities) over that of debit balances (representing assets) is 1,051,372*l.* 6*s.* 11*d.* The credit balances on Deposit Accounts include (*a*) 332,487*l.* 5*s.* 5*d.* on account of Enemy Ships employed under the control of the High Commissioner (*see* para. 4) and (*b*) 743,688*l.* 4*s.* 6*d.* on account of Bills Payable (*see* para. 5). The debit balances include (*a*) 11,596*l.* 5*s.* 11*d.* on account of Stores, &c., for Iraq Administration (*see* para. 6) and (*b*) 9,842*l.* 16*s.* 6*d.* on account of Commutation of Pensions on behalf of Provincial Governments (*see* para. 7).

ENEMY SHIPS UNDER THE CONTROL OF THE HIGH COMMISSIONER.

4. In para. 4 of my last Report I gave a brief summary of the results from 1915 to 31st March 1922 of the management of certain enemy ships which were detained in Indian ports at the outbreak of war.

As stated therein, the balance of receipts over expenditure up to 30th September 1920 was 3,584,646*l.* 2*s.* 10*d.*, which amount is still held by the Secretary of State in Council. The surplus for the period 1st October 1920 to 31st March 1923 amounts to 332,487*l.* 5*s.* 5*d.*

No decision has yet been reached as to the disposal of the profits resulting from the working of these ships. Since the date of my last Report, the fleet of eleven has been reduced to six; four vessels which were "prize" ships have been sold, realising 107,307*l.* 10*s.*; this amount is at present held by the Imperial Government. Another vessel, the *Moora*, has been transferred to the Commonwealth Government of Australia; the remaining six vessels are "reparation" ships, and the question of their disposal has not yet been decided; five of them are being worked and one is "laid up."

The Profit and Loss Account and the Balance Sheet for the year to 31st March 1923 show the position at that date to be as follows:—The gross profit earned during the year was 79,087*l.* 15*s.* 3*d.*, of which 21,692*l.* 10*s.* has been written off, viz., the difference between the amount realised from the sale of the four vessels referred to above and their "book-value" at the date of their sale. 25,395*l.* 5*s.* 3*d.* has been transferred to Reserve and the balance of 32,000*l.* has been added to the profit earned up to 31st March 1922, viz., 3,790,192*l.* 19*s.* 8*d.* as shown in my last Report. The total profit up to 31st March 1923 is therefore 3,822,192*l.* 19*s.* 8*d.*, in addition to which there is a Reserve Fund of 70,779*l.* 1*s.* 8*d.*

The *pro formâ* Insurance Account up to 31st March 1923 shows a surplus of 83,865*l.* 7*s.* 2*d.*, which is included in the profit shown above.

BILLS PAYABLE.

5. In para. 5 of my last Report I referred to the modifications in the Home Accounts rendered necessary on the adoption of cost accounting methods by the Military Accounts Department in India.

On 31st March 1922 the balance of the Deposit Account "Bills Payable" was 267,367*l.* 16*s.* 10*d.* In 1922-23 the amount charged to the service heads concerned was 2,475,492*l.* 14*s.* 8*d.*, and the actual payments were 1,999,172*l.* 7*s.*, leaving a balance on 31st March 1923 of 743,688*l.* 4*s.* 6*d.*, which should represent the value of stores, &c., charged finally but not paid for at that date.

This balance is very large in relation to the transactions for the year and requires some explanation. It is swollen by three unusual items, viz.:—

(1) About 200,000*l.* claimed by the Imperial Government on account of freight on stores shipped to India on direct demands. No vouchers in support of the claims have yet been supplied by the Imperial Government.

(2) About 60,000*l.* in respect of departmental expenses on Aviation Stores. The rate to be paid on that account has not yet been agreed.

(3) The greater part of the amount of 75,000*l.* referred to in para. 5 of my last Report. I agreed, with some hesitation, to that amount being brought to account under the service heads by credit to "Bills Payable." I did so as I was assured that stores to that value had been shipped to India, but it has since transpired that only about 17,000*l.* is payable, and credits amounting to 58,000*l.* will be given to the service heads concerned in the Account for 1923–24.

It will be seen that under cost accounting methods it is not always possible to guarantee the accuracy of the classification as shown in the account under audit at the date of its certification, as that classification is actually audited only when the payments involved are made and brought to account under the heading "Bills Payable." In most cases any errors in the classification of amounts brought to account up to the 31st March are rectified in the March Final Account, which is not closed until the following August, but in the case of exceptional items such as those referred to above, where payment is not made until long after the close of the financial year, the actual audit is not carried out until after the date of the report on the Account in which the amounts have been classified under service heads.

Such items will, however, be covered by the certificate on a subsequent account, viz., that in which the actual disbursement of the amounts is brought to account by debit to the heading "Bills Payable."

Stores supplied for the Iraq Administration.

6. In all, about 200,000*l.* was spent for this purpose between October 1920 and December 1922. The balance owing by the Iraq Administration on this account on 31st March 1923 was 11,596*l.* 5*s.* 11*d.*, which amount still remains outstanding.

I have raised a question as to the adequacy of the special rate fixed for Departmental Expenses in connection with these transactions.

Commutation of Pensions chargeable to Provincial Governments.

7. A new account under the heading "Deposits and Advances" was opened during the year, viz., "Commutation of Pensions on behalf of Provincial Governments." In order to avoid any inconvenience which might be caused to Provincial Governments by the Commutation of Proportionate Pensions it was decided that they should be allowed to exercise the option of either meeting the capital charge immediately or continuing to bear the charge for the whole pension as if no commutation had taken place. In the latter event the capital amount is debited to the Central Government under the new head of account referred to above, which receives credit by transfer entries of the amounts represented by the difference between the total pensions and the reduced amounts actually issued in consequence of the commutation.

If no further entries were made in the Accounts, the amounts debited to the deposit head would differ from those credited thereto, owing to the fact that in arriving at the capital amount to be issued in respect of the commuted pension discount is taken into consideration. To counteract this, it was decided to debit the deposit head and to credit the revenue head "Interest" with the amount of interest on the outstanding balance of the deposit account at the rate used in drawing up the commutation tables.

Departmental Charges for Services rendered by the High Commissioner.

8. The total cost of the establishments of the High Commissioner for the year 1922–23 was 212,463*l.* 2*s.* 5*d.* This amount is reduced, as explained in para. 6 of my last Report, by a charge of 2 per cent. levied on the value of stores supplied (1) to quasi-commercial departments of the Central Government, *e.g.*, Posts and Telegraphs, and State Railways, and (2) to Provincial Governments.

The amounts so charged, viz., 44,865*l.* 10*s.* 7*d.* and 25,864*l.* 8*s.* 8*d.* respectively, reduced the cost of the High Commissioner's Establishments to 141,733*l.* 3*s.* 2*d.*

Double Supply of Medal Ribbon.

9. The amount of 363,609*l.* 1*s.* 5*d.* charged under the heading "Military Services: Army—Effective: Stores for India; (1) Clothing," includes a sum of 4,161*l.* in respect of the cost of 62,400 yards of General Service Medal Ribbon.

The normal procedure for the supply of medal ribbon is that it is provided by the Government, *i.e.*, the Government of India or the Imperial Government, which authorises the medal. The latter Government provided the ribbon for all medals awarded in connection with the Great War, and this procedure was followed in the case of the medal authorised in June 1920 for operations in Afghanistan, although this medal was granted by the Government of India. It was not until May 1921, however, that the War Office informed the India Office of the fact that the estimated quantity of ribbon, viz., 100,000 yards, had been provided by them; at the same time they asked that if contracts had already been made by

the India Office for this ribbon they should, if possible, be cancelled. The India Office, in reply, stated that in accordance with demands received from India in August and October 1920, 84,200 yards had been ordered; that 35,000 yards had already been shipped to India; that the ribbon provided by the War Office would not be required by India; and that no responsibility for its cost could be admitted. After correspondence, however, the Secretary of State in Council decided that the amount claimed by the War Office, viz., 6,675*l.*, should be paid. On being informed of this, the Government of India asked that they might be furnished with the reasons for this decision. The reply sent was to the effect that the amount had been paid on the ground that the War Office had acted as the agents of the India Office, and that in other cases where loss had been incurred through mistakes or misunderstandings on the part of the India Office or the Government of India it had been borne by Imperial revenues.

The ribbon (about 98,000 yards) was taken into stock by the Director-General of Stores and the amount paid by the Secretary of State was included by him in his account current with the High Commissioner and charged to the heading mentioned above. Later, viz., in January 1923, an Indian demand for 36,000 yards of this ribbon required for Waziristan and Mahsud medals was met from this stock, but the balance of 62,400 yards is still at the India Store Depôt.

Technical Cost Accounting.

10. An amount of 900*l.* is included under the heading "General Administration: Professional Inspection of Stores," in respect of a payment to the Admiralty on account of services rendered by the Technical Costs Branch of that Department during the year ending 31st October 1922. The branch was formerly part of the Ministry of Munitions, and was inaugurated in 1915 by that Department for the purpose of checking prices to be paid for shells, ammunition, &c. Later, it was extended to cover other stores. Its staff, which is composed of Accountants and Technical Cost Engineers, is able to form an approximate estimate of the actual manufacturing costs of various stores.

During the war many contracts for stores contained a variation clause, *i.e.*, the prices fixed were subject to increase or decrease according to fluctuations in the prices of material or the rates of wages. The services of the Technical Costs Branch of the Ministry of Munitions were utilised by the Director-General of Stores without any claim being made for a share of salaries, &c., of the Branch. On its transfer to the Admiralty the question of a contribution from Indian revenues was raised, and the amount of 900*l.* mentioned above was sanctioned. The number of contracts containing the variation clause has diminished, if it has not entirely ceased, but tenders for certain classes of stores are referred to the Technical Costs Branch for advice. The amount saved on stores supplied to India up to June 1923 has been estimated at over 100,000*l.* While I am unable to check this figure, there is no doubt that the Branch has been of great service in the past, and the mere knowledge among contractors of its use by the Store Department probably has a considerable bearing on the prices quoted for stores. The Branch will probably find a permanent place as an adjunct to the supply departments of the Imperial Government.

Returned Packing Accounts.

11. In para. 8 of my last Report I made some comments regarding the non-return from India of packing accounts of stores despatched to that country. These documents serve two purposes, viz., they afford evidence of the stores having been duly received, and form the basis for effecting recovery in cases where stores have been damaged or short-delivered.

As a result of my comments, instructions were issued in India to all Departments concerned that packing accounts should invariably be returned to the Director-General of Stores, and with the least possible delay. This, combined with the reminders sent to India by the Director-General of Stores, should result in all the accounts being returned.

Further, a note has been added to the packing accounts to the effect that where shortage or damage occurs for which a claim should be made against suppliers for replacement, repair, or recovery of value, full particulars should be sent at once by letter to the Director-General of Stores. By this means it should be possible to enforce claims which otherwise would have had to be abandoned owing to lapse of time due to delay in the return of the packing account.

In view of these steps I do not propose to give the usual figures of missing accounts in this Report. In the next Report it will be possible to state what the effect of the promulgation of these orders has been.

Overcharges on Stores supplied to India by Departments of the Imperial Government.

12. Most of the queries raised by my Department referred to in the last sentence of para. 9 of my previous Report have now been answered.

The principal ones were the following:—

(i) Three hundred and thirty-four telephone sets were charged for at 6*l.* 10*s.* each instead of at 5*l.* 1*s.* 484*l.* was recovered.

(ii) Incorrect rates were charged for a large number of fuzes. 4,645*l.* was recovered.
(iii) Twenty thousand five hundred bombs were charged for at rates which included cost of packing, but packing cases were also charged for separately. 9,211*l.* was recovered.
(iv) Six million chargers were ordered and paid for at the vocabulary price of 2*l.* 3*s.* 6*d.* per 1,000; the question was raised whether these stores came under an offer by the Ministry of Munitions to supply completed chargers from surplus stores at the cost of the steel strip required for their manufacture, viz., about 3,000*l.* Further investigation showed that these particular chargers could not be brought under that offer, but it was finally agreed that they should be paid for at 50 per cent. of vocabulary prices. 6,525*l.* was recovered.

Government Stores lost on S.S. "Egypt."

13. Shipowners generally use a form of Bill of Lading under which goods are accepted for shipment and delivery subject to certain exceptions under which liability for loss, &c., is not admitted by them. Among the exceptions is one which runs as follows: "Any act, neglect or default whatsoever or error in judgment of the Master, Pilot, Officers, Engineers, Mariners, Stevedores or others." The India Office for many years has succeeded in inducing shipowners to use a special Bill of Lading which does not include the above "negligence clause."

The use of this form of Bill was continued by the High Commissioner for India on his appointment in October 1920, when, *inter alia*, the duty of supplying Government stores was transferred to him.

In May 1922 stores to the value of about 20,000*l.* were shipped by the High Commissioner in the Peninsular and Oriental steamer *Egypt*, which collided off Ushant with a French steamer and subsequently sank with a total loss of all stores on board. The question of making a claim on the shipping company on account of negligent navigation was carefully considered, and, in the first instance, an attempt was made to effect settlement without litigation. The company stated, however, that they were not prepared to admit any responsibility in the matter. The opinion was then sought of a firm of solicitors who have specialised in shipping business, and who usually advised the Secretary of State in Council in such cases; their opinion, which was favourable to the institution of legal proceedings, was confirmed by eminent counsel, and success was anticipated as in previous similar cases where action had been taken on the form of Bill of Lading used by the India Office. Before commencing a suit, however, the case was sent in April 1923 to the Department of the Government of India concerned for concurrence in the action proposed.

The Government of India replied in May 1923, approving the proposal if settlement out of Court was found to be impossible.

Further correspondence with the company and India, chiefly demi-official, ensued, and finally it was decided not to press the case against the company.

While I do not think it advisable to state the reasons urged in favour of this decision, I consider it is obligatory on me to give some account of the matter in order that any further investigation felt to be necessary may be carried out.

Outstanding Claims for Stores lost during the War.

14. Reference was made in para. 10 of my last Report to the case of the *Clan Mackay*. Further correspondence has taken place and it has now been agreed that the matter in dispute, which involves about 22,000*l.*, shall be referred to arbitration. The terms of reference have not yet, however, been finally settled.

Provisional Payments to Departments of the Imperial Government made subject to Adjustment.

15. In para. 11 of my last Report I drew attention to certain provisional payments which were still unadjusted.

These have now been adjusted, with one exception, viz., 367,202*l.* 11*s.* 3*d.* Of this amount it was discovered that 105,031*l.* 7*s.* 2*d.*, which had been classified under the heading "Ordnance: Arsenals," was chargeable to certain Guaranteed Railway Companies, and the sum was included in the High Commissioner's Account Current with the Secretary of State for adjustment by him.

The balance of 262,171*l.* 4*s.* 1*d.* is still under investigation, and the vouchers relating thereto have not yet been submitted for audit.

W. A. Sturdy,
Auditor.

India Audit Office,
31st December 1923.

* Sinking Funds were established in connection with these Railways to redeem India 3½ and 3 per Cent. Stock issued in lieu of Annuity or Debenture Stock. These Funds have been applied to the purchase of India Stock of the denomination offering the best yield. The minus figures represent the interest on India 7, 5½ and 2½ per Cent. Stock so purchased, and on India 3 per Cent. Stock purchased in excess of the amount issued.

† The Discount Sinking Fund in redemption of Debt incurred in excess of money raised, in respect of the India 3 per Cent. Stock issued in connection with the purchase of the Oude and Rohilkund Railway, has been partly applied to the redemption of India 7, 5½ and 3½ per Cent. Stock instead of India 3 per Cent. Stock.

India Audit Office, 30th December 1924.

W. A. STURDY, *Auditor.*

No. 3.

REPORT of the AUDITOR upon the ACCOUNTS OF THE SECRETARY OF STATE FOR INDIA IN COUNCIL, from 1st April 1923 to 31st March 1924; prepared and submitted to the Secretary of State in Council, in pursuance of section 27 (5) of the Government of India Act, 1915.

I.—CENTRAL.

GENERAL.

Submission to Committee on Public Accounts.

1. This Report is submitted five months in advance of the date previously customary in order that it may be considered by the Public Accounts Committee of the Legislative Assembly during the spring session.

After-effects of the war.

2. In previous Reports reference has been made to the prolonged effect of the war on the work of the India Office; this continued to be evident during the year under review, and is not likely to diminish appreciably in the near future. Apart from such direct legacies of the war as reductions of military establishment and various kinds of non-effective charges, the general economic disturbance has necessarily exercised a far-reaching effect on expenditure connected with pay and pensions. At the India Office such payments form a large proportion of the total number, and, being extremely diversified, are governed by numerous sets of distinct and frequently complicated regulations. Since the war, most payments of this nature have been subject to periodical variation or revision according to changes in the cost of living, under conditions which vary with different classes of payment and are in some cases highly intricate. Fluctuations in the rupee-sterling exchange and the separation of the Central and Provincial Budgets consequent on Indian Reforms, may also be mentioned as factors which have added greatly in recent years to the complexity and laboriousness of financial and accounting work connected with the Home expenditure.

3. In the circumstances described above it is scarcely a matter for surprise that the number of queries raised in audit during several years past has much exceeded the pre-war average, and the fact that this was the case must not be taken as reflecting on the efficiency and care displayed in the administration and control of expenditure.

4. The number of questions relating to 1923–24 was appreciably smaller than in either of the two preceding years, a circumstance which affords some evidence that in many directions steps have been taken to obviate sources of error disclosed in previous Reports. In this connection it may be pointed out that frequently mistakes leading to erroneous payments originate, not at the India Office, but in India.

Savings resulting from audit questions.

5. The total amount saved to Indian revenues as a result of audit questions relating to the Home Accounts for the year is estimated at about 120,000*l.*

Of this amount, approximately 18,000*l.* arises on the Accounts of the High Commissioner. Of the remainder, the greater proportion is attributable to a comparatively small number of questions affecting the allocation of expenditure between Indian and Imperial revenues.

Apart from direct savings to Indian revenues, many of the questions raised have led to improvements in procedure and the amendment of regulations.

Waiver of recoveries.

6. Indian regulations, both civil and military, contain detailed rules prescribing the conditions under which demands against officers serving in India may be written off by competent authority as irrecoverable, but definite rules have not hitherto been operative with regard to recoveries in this country.

The desirability of instituting a more formal procedure received attention in connection with a number of erroneous payments brought to light in audit. As a result the Indian rules, revised in certain particulars, have now been made applicable for use at the India Office.

Expenditure requiring sanction by Imperial Parliament.

7. The sanction of the Imperial Parliament, which is necessary under the Government of India Act, has not yet been obtained for two payments from Indian revenues mentioned in previous Reports, viz., (1) 13,100,000*l.* paid provisionally to the War Office in 1919 in respect of a further additional contribution by India towards the cost of the war, and (2) 200,000*l.* paid to the War Office in 1921 as an advance subject to adjustment on account of the cost of exchange concession on

gratuities. The submission for sanction has been deferred pending the settlement of various large claims by the Imperial Government against Indian revenues in respect mainly of non-effective liabilities arising out of the war. A renewed effort to reach a comprehensive settlement of the claims and counterclaims is proceeding.

Appropriation Audit.

Functions of Appropriation Audit.

8. In the scheme of Parliamentary control over expenditure which has grown up in the course of the development of representative Government in Great Britain an important position is occupied by "Appropriation Audit." The chief functions of this form of audit are to ensure (*a*) that the expenditure under any head for which public money has been voted is actually applied to the purpose for which it was sanctioned, (*b*) that the sum provided by the Legislature for a particular service is not exceeded.

Responsibility for Appropriation Audit of the Home Accounts.

An exhaustive check of the classification of payments and receipts under their proper heads of account, corresponding to the former function, has always been carried out by this Department, but in the conditions prevailing prior to the Government of India Act of 1919 the formal Appropriation Audit of expenditure against Budget provision would have possessed no real value in relation to the Secretary of State's accounts, and was not carried out. On the introduction of the Indian Reforms the position with regard to Appropriation Audit of the Home Accounts was carefully considered. In view of the interdependence of Indian and English expenditure and the uncertainty which prevailed as to the eventual methods of making Budget provision for the latter, it was doubtful to what extent it would be practicable to conduct an independent appropriation audit in this country, and it seemed best that provisionally general responsibility for the appropriation audit of all expenditure against the Budget as a whole should be exercised by the Auditor-General, India. My attitude in this matter was also influenced partly by the fact that the question of the submission of the Home reports to the Public Accounts Committee was then unsettled, and partly by the practical consideration that the documents relating to grants, modifications, re-appropriations, &c., were more readily accessible in India than in this country. I understood that the Auditor-General, with whom I discussed the matter informally during his leave, concurred in this view.

The Government of India having now expressed a desire that the Appropriation Audit of Home Expenditure shall be carried out by me, and having arranged for the necessary documents to be transmitted to this Department, effect has been given to their wishes, commencing with the accounts of the year under review.

Special features of the Indian Budget.

9. As this is the first Report on the Home Accounts which embodies the results of Appropriation Audit in the full sense of the term, it seems desirable to outline certain features of the Indian Budget system which are essential to a proper understanding of the position.

Voted and non-voted expenditure.

Certain classes of expenditure, both of the Central and Provincial Governments, are precluded under the Government of India Act from the vote of the Legislative Assembly in the case of Central subjects and of the Provincial Councils in the case of Provincial subjects. Such expenditure is termed non-voted; all other expenditure is subject to the provision of funds either by the Legislative Assembly or a Provincial Council, and is termed voted. The expenditure on certain services specified in the Government of India Act, viz., Ecclesiastical, Political and Defence, is entirely non-voted, but in all other cases the expenditure on a given service may, according to its nature, be partly voted and partly non-voted.

It is a function of Appropriation Audit to watch that expenditure is allocated to its proper category and in particular that expenditure for which a vote is required is not classified under a non-voted head.

Re-appropriation.

If voted expenditure is incurred beyond the total of a grant the excess must be submitted for sanction to the Legislative Assembly or Provincial Council, but re-appropriation within a grant, provided that the total of the grant is not exceeded, may be sanctioned by the Finance Department of the Central Government or Province as the case may be, or by a subordinate authority to whom such power has been delegated, under regulation, by the Finance Department. In the case of non-voted expenditure the function of re-appropriation is likewise exercised by the respective Finance Departments or their delegates.

Diverse methods of treating English expenditure in Indian Budgets.

The structure of the Indian Budgets, both Central and Provincial, is complicated by the fact that provision must be made under a wide range of subjects for expenditure both in India and England. The methods of providing for English

expenditure differ with regard to different classes of expenditure and from one Province to another. It will be convenient to distinguish—

(1) *Combined Subject Grants*, covering the whole expenditure, whether English or Indian, on a particular service ;
(2) *Indian Subject Grants*, covering only the Indian portion of such expenditure ;
(3) *Composite Home Grants*, covering English expenditure only on a number of services for each of which there is a corresponding Indian Subject Grant.

The Secretary of State's voted expenditure on behalf of the Central Government during 1923–24 was distributed under nine grants, of which those relating to Commercial Services (Railways, Posts and Telegraphs), Stationery, Civil Works, Superannuation, and transactions involving capital expenditure, are combined subject grants ; the whole of the remainder falls under a single composite grant (No. 56) relating exclusively to the Secretary of State's expenditure and comprising about 20 heads, for each of which there is an Indian subject grant. This is the only self-contained grant in the Secretary of State's account, and it is therefore the only one in which the excess, if any, of expenditure over Budget provision can be reported by me.

As the Home Accounts are transmitted to India for incorporation in the Finance and Revenue Accounts of the Government of India, I assume that in the case of the combined subject grants referred to above, the comparison of the aggregate expenditure with the total grant will be watched by the Auditor-General, India.

The High Commissioner's account with the Central Government is similarly distributed under a number of combined subject grants and one composite grant (No. 57) relating solely to the High Commissioner's expenditure. The Budgets of Bombay and the United Provinces follow the same general plan (with variations in detail) as that of the Central Government. Those of Bengal and Central Provinces are also similar except that (1) in either case there is only one composite grant covering expenditure both by the Secretary of State and the High Commissioner, and (2) in the case of Central Provinces all expenditure on stores is excluded from the composite grant and appears under the appropriate subject grants. In the Budgets for 1923-24 of Madras, Punjab, Burma, Bihar and Orissa, and Assam, all voted Home expenditure without exception is exhibited under combined subject grants, but for 1924-25 the two last-mentioned Provincial Governments have adopted the method of composite subject grants.

Merits of the respective methods.

Theoretically, provision for English expenditure under combined subject grants seems the sounder method and one that lends itself to re-appropriation on logical lines. It frequently happens that a variation in English expenditure is automatically counterbalanced by a converse variation in Indian expenditure on the same service, and the obvious opportunity for re-appropriation which such a situation presents cannot be utilised unless the grant covers expenditure in both countries. On the other hand, it is claimed that the method of making a separate composite grant in favour of the authority more directly responsible for a given range of expenditure facilitates financial control, and that, particularly in the case of the Secretary of State's transactions on behalf of the Provinces, where expenditure small in the aggregate is spread over a relatively large number of heads, the balance of practical advantage is on the side of that method. The question of the most suitable means of making provision for Home expenditure in the Budget of the Central Government has already received attention from the Public Accounts Committee and has been remitted for consideration by the Government of India. The possibility of obtaining the consent of the Provincial Governments to uniform treatment of the Home expenditure on their account has also been the subject of a communication to that Government. It seems unnecessary, therefore, at the present stage to comment further on the discrepancies of existing methods.

Appropriation accounts.

10. In India, where the Accounts and Audit Departments are combined under the direction of the Auditor-General, India, the Accountants-General concerned with various classes of expenditure are subordinate to the latter officer, and each compiles his appropriation account and report in a single document. In reporting on the Home Accounts it seems unnecessary to compile a separate appropriation account, since a Statement of Comparison answering the purpose of such an account is already prepared by the Accountant-General, India Office, and transmitted annually by despatch to the Government of India. The Statement for 1923–24, which was forwarded under cover of Accounts Despatch No. 7, dated 4th September 1924, has accordingly been used as the basis of my appropriation report.

The Statement shows against each item appearing in the Secretary of State's account:—

(*a*) The Budget estimate.
(*b*) Subsequent modifications.
(*c*) The estimate as finally revised.
(*d*) The actual expenditure for the year.
(*e*) The amount of the net deficiency or excess of the actual expenditure compared with the revised estimate.
(*f*) Explanations of the difference between (1) the Budget and revised estimates and (2) the revised estimate and actual expenditure.

Appropriation report on transactions on account of the Central Government.

11. As regards the accounts of the Central Government, I have verified in detail the figures contained in the Statement under Budget Estimate by reference to the printed volume of Detailed Estimates and Demands for Grants (as voted by the Legislative Assembly) for 1923–24 and those under Revised Estimate from the Government of India's telegram dated 14th March 1924, confirming those estimates and intimating that sanction had been given by the Assembly to the further amounts required under voted heads.

In the case of the voted portion of the composite grant (No. 56) relating exclusively to the Secretary of State's expenditure, the position was as follows:—

Budget.	Modifications sanctioned.	Revised Estimate.	Actual expenditure.	Decrease.
£	£	£	£	£
148,200	+21,900	170,100	155,280	14,820

There was an excess of 465*l.* in the actual expenditure on the voted portion of grant 42 Superannuation, Allowances and Pensions, over the figure included in the Secretary of State's Revised Estimates, but a decrease of 2,916*l.* in the corresponding expenditure of the High Commissioner. There was thus no excess on the Home expenditure as a whole, which appears as a single sub-division of the grant.

No provision was made in the Estimates for the amount of 2,370,751*l.* 18*s.* 6*d.* brought to account under the non-voted Revenue heading "Extraordinary Payments." Details of this amount are given in para. 67 below.

In the case of all other combined subject grants the Secretary of State's expenditure under each was less than the amount allotted.

There were excesses requiring report to the Government of India in—
(*a*) Major heads comprised in the voted portion of grant 56.
(*b*) Major and minor heads of voted expenditure falling under other grants.
(*c*) Major and minor headsof non-voted expenditure.

All such excesses are correctly exhibited and explained in the Statement and no further detailed report appears necessary.

12. The most noteworthy variation between expenditure and estimates occurred under the non-voted head of Military Services, for which the figures are:—

Budget estimate.	Modification sanctioned.	Revised estimate.	Actual expenditure.	Decrease.
£	£	£	£	£
8,198,000	+ 516,100	8,714,100	8,347,456	366,644

Generally speaking, the factors accounting for the somewhat considerable variation under this head between Budget Estimate, Revised Estimate and actual expenditure were outside the control of the India Office and could not have been foreseen, but in two of the items, viz., (1) Leave pay and gratuities of temporary officers of the Indian Army Reserve of Officers or Indian Army retained beyond 31st January 1920: Revised Estimate, 15,000*l.*; Expenditure, 10,505*l.*; and (2) Gratuities and allowances to Surplus Officers of the Indian Army: Revised Estimate, 800,000*l.*; Expenditure, 612,689*l.*, I think it possible that, having regard to the information available, a closer forecast might have been made.

Subject to the above observations, I agree generally in the explanations furnished in the Statement with regard to variations between estimated and actual expenditure.

Changes in Classification.

Indian Military Widows' and Orphans' Fund. Sterling transactions.

13. The entry—Interest on balances of the Indian Military Widows' and Orphans' Fund under the major head: Interest on other Obligations, is a new item in the Home Accounts.

The sum of 4,165*l.* 9*s.* 8*d.* debited to this head is interest at 5½ per cent. on the mean balance standing at the credit of the above Fund during the year. Such interest, which is payable under the rules of the Fund, has hitherto been credited entirely in India. The Fund has two branches concerned with (1) the provision of pensions, and (2) passage insurance; as the pensions are essentially a sterling

liability, it was considered desirable to transfer the balance at the credit of the pensions branch in India to this country and to credit interest in the Home Accounts.

Interest on the balance in respect of passage insurance transactions continues to be credited in India.

Mode of exhibiting certain contributions from Imperial revenues.

14. My suggestion (referred to in para. 6 of the 1921-22 Report) that the contributions made by Imperial revenues for various purposes should be shown *in extenso* has been carried out for the first time in the Account under review. The figures are as follows:—

	£	
General Administration - - - - -	137,100	Taken in reduction of payments.
Audit - - - - - -	7,800	
Stationery - - - - - -	8,600	
Total contribution towards expenses of India Office - - - - - -	153,500	
Contribution in respect of Military Charges for Aden	72,000	Receipts.
,, ,, the transport of Troops -	130,000	

Per contra, the annual contribution of 12,000*l.* from Indian revenues in aid of the Diplomatic and Consular Establishments in China now appears for the first time in the Account under Political.

Consequential changes in classification have been adopted as regards certain other payments and receipts on account of Diplomatic and Consular Establishments. The amount refunded by the Foreign Office on account of the excess cost of such establishments, less certain contributions by India to the cost of particular Consulates, has hitherto been brought to account as a net receipt under Miscellaneous. The contributions in question are now shown in detail under Political and the gross receipt from the Foreign Office is taken in reduction of payments under that head.

Railways.

Surplus profits, Rohilkund and Kumaon Railway.

15. The receipt of 5,675*l.* 1*s.* under the sub-heading "Subsidised Companies" is the Government moiety of the surplus net earnings of the Rohilkund and Kumaon Railway Company's main line for 1922-23, calculated in the manner provided in the contract between the Secretary of State and the Company. During the year the Company received the final instalment of the sum of Rs. 60,000 for "goodwill" which formed part of the sale proceeds of their road service, but, as in the case of the instalment received in the previous year and mentioned in the last Report, they excluded the amount in calculating the surplus profits. The omission was questioned in audit, and the Company eventually agreed in October 1924 to admit the claim of the Secretary of State to a moiety of these receipts. As the result of other questions raised in audit, the allowances claimed by the Company in respect of Indian and British taxes paid by them on the Secretary of State's moiety, including adjustments relating to previous years, were reduced by 1,420*l.*

Surplus profits, Southern Punjab Railway.

16. The sum of 51,366*l.* 19*s.* 6*d.* is the balance of the Government share of surplus profits of the Southern Punjab Railway Company for the year ended 30th September 1922, making the total amount received for that year 95,119*l.* 14*s.* 7*d.*

The instalment of 65,596*l.* 19*s.* 5*d.* on account of the year ended 30th September 1923 forms part of a total sum of 148,942*l.* 13*s.* 5*d.* received as the Government share of surplus profits for that year.

As mentioned in a previous Report, the Company, as the result of a question raised in audit, agreed to pay interest at Bank rate on the Government share while it remained in their hands. Interest for the year ended 30th September 1922 amounted to 1,430*l.* 4*s.* 10*d.*, and for the following year 2,711*l.* 13*s.* 10*d.*

Saving on transfer duties, Burma Railways.

17. Reference was made in para. 9 of the last Report to a question raised in audit, as the result of which the Burma Railways Company terminated, as from 1st August 1923, the arrangement whereby their liability for the cost of stamping transfers of their ordinary stock was commuted for a half-yearly payment of 1,500*l.*

The actual cost of stamping during the first half-year following the termination of the arrangement was 362*l.* 11*s.*, and during the ensuing half-year 298*l.* 15*s.* The total saving for the year was thus 2,338*l.* 14*s.*

Posts and Telegraphs Revenue Account.

Eastern Mail subsidy.

18. The long-outstanding question with the General Post Office regarding India's contribution to the cost of the Eastern Mail Service, which has been mentioned in several previous Reports, has at length been settled. Under the new arrangement, which took effect from the 1st April 1923, the net cost of the service, less the total amount collected for sea postage on parcels, is divided in proportion to the Postal Union value of the mails sent by India and by other contributors, India's full contribution being the proportion thus arrived at *plus* the amount collected for sea postage on parcels sent from India. It was agreed to waive claims on either

side in respect of the period prior to 1st April 1923. The amount of 21,500*l.* paid in 1923–24 is the estimated sum due for the year to 31st March 1924, and is subject to adjustment on receipt of actual figures.

Amount due from Turkey.

19. With reference to para. 14 of the 1921–22 Report and para. 11 of the last Report, I understand that the sum of 1,342*l.* 12*s.* 2*d.* due to the Indo-European Telegraph Department from the Turkish Government has not yet been claimed from the latter, but that the claim is still under investigation by the Foreign Office, together with other pre-war claims.

General Administration.

Commission paid to India Office broker.

20. It was mentioned in previous Reports that I had drawn attention to the difference between the India Office and the Imperial Government as regards the remuneration of their respective brokers, and that the Secretary of State in Council had decided to adhere to the method of payment by commission, but at a diminished rate. A reduction was brought into effect from 1st April 1922 and a further decrease from 1st April 1923. The broker's commission during the year commencing on the latter date amounted to 8,710*l.* 15*s.* 3*d.*, a sum which is less by about 7,500*l.* than the amount which would have been payable under the scale in force before 1st April 1922.

Miscellaneous.

League of Nations.

21. 77,799*l.* 6*s.* 2*d.* was paid in 1923-24 in respect of India's contribution towards the expenses of the Secretariat of the League of Nations. This amount represents 6·9 per cent. of the total expenditure divisible amongst the members of the League. In former years the proportion borne by India was slightly under 5 per cent. of the total. The increase is due to the introduction of a different method of allocation of expenditure.

Under Article 6 of the original text of the Covenant constituting the League the expenses of the Secretariat were to be borne by Members in accordance with the apportionment of the expenses of the International Bureau of the Universal Postal Union.

At an early date representations were made by various Members of the League that the Postal Union basis of allocation was not an equitable criterion by which to apportion the much heavier expenditure involved in the activities of the League. The Article was accordingly amended so as to provide that the expenses of the League should be borne by the Members in the proportion decided by the Assembly of the League. In order to obtain advice in this matter the Assembly appointed an expert Committee, which recommended a provisional scheme under which each Member should contribute according to an index number consisting of units assigned by the Committee on a basis which took account (*a*) of population, and (*b*) of "net revenue."

The scheme, which increased considerably the proportion of the League expenditure borne by Indian revenues, has been criticised by India's representatives in the Assembly of the League on the grounds (*a*) that it assigns an undue importance to the factor of population, and (*b*) that in the calculation of "net revenue" the interest on productive debt is excluded.

The recommendations of the Committee were adopted by the Assembly and were carried out in assessing the contributions for 1923 and 1924.

In the assessment for 1925, although the provisional scheme was again employed the number of units assigned to India was reduced as a special measure from 65 to 60.

Relief and repatriation of destitute Indians.

22. In para. 15 of the last Report reference was made to disbursements, amounting to about 53,000*l.*, in connection with the relief and repatriation of Adenese seamen found destitute in various ports in this country. The examination of previous accounts for relief and maintenance has been completed, and as a result of questions raised in audit the amount claimed was reduced by 316*l.* 19*s.* 8*d.* A further claim for 859*l.* 1*s.* has since been paid.

The question of the responsibility for the civil administration of Aden remains in the same position as at the date of last Report; no claim in respect of the above-mentioned disbursements has therefore yet been made on the Imperial Government.

Secret Service.

23. 8,500*l.* was placed at the disposal of the Secretary of State during 1923–24 for Secret Service. The amount actually expended was 7,202*l.* 18*s.* 7*d.*, and the balance in hand on the 31st March 1924 was 1,697*l.* 4*s.* 5*d.*

The Secretary of State has furnished me with a certificate that the expenditure was necessary for the public service.

Commission on pensions and leave allowances paid abroad.

24. Under arrangements which have been in force for many years leave allowances and pensions payable to members and ex-members of Indian Services

residing in a Dominion or Colony have been disbursed by officers of the Government concerned and claimed, along with similar payments chargeable to Imperial revenues, from the War Office, by whom debits were raised against the India Office or the High Commissioner. The majority of Colonial Governments levied a commission of 3 per cent. on their disbursements, but until the year under review India's share of this charge was not passed on by the War Office. On the latter giving notice that, with effect from 1st April 1923, they could no longer bear the charge, it was considered desirable to ask the Governments concerned to submit their claims direct instead of through the War Office. At the same time negotiations were opened with a view to reduction of the rate of commission, which seemed unduly high, especially in relation to large individual payments such as the gratuities of "surplus" officers, many of whom have settled overseas.

Concessions, varying in their terms, were offered in several cases, but I suggested that before these were accepted the possibility of making payment through the agency of banks should be considered. In the case of Canadian payments it was found that a bank was prepared to undertake the work free of charge, and as the Dominion Government, though willing to forgo commission on the gratuities of surplus officers, adhered to the full rate of 3 per cent. for all other payments, the agency has been placed in the hands of the bank.

The New Zealand Government offered to charge 3 per cent. on all payments subject to a maximum of 3*l.* on any one payment. As it appeared that a commission on this basis would barely cover the difference of exchange, which is normally adverse to this country, the offer was agreed to provisionally. The offer of the Commonwealth of South Africa to charge a premium $\frac{1}{8}$ per cent. below the current Bank rate for telegraphic transfers on London was likewise accepted. Negotiations with the Commonwealth of Australia are in progress, with a view to obtain terms similar to those offered by New Zealand. Payments during the year amounting to 5,463*l.* 11*s.* 4*d.* appear in the account under Miscellaneous, but as a portion of this sum is attributable to disbursements to surplus officers (*see* para. 39), the allocation of the whole charge to Indian revenues is not necessarily final.

Similar payments by the High Commissioner amounted to 1,245*l.* 8*s.* 7*d.*

Military Services.

Defects in last pay certificates.

25. In para. 16 of the last Report mention was made of the deputation of an officer of the Military Accounts Department in connection with defects in the preparation of Indian last pay certificates, to which attention had repeatedly been drawn both by Departments of the India Office and by this Department.

It is satisfactory to record that, presumably as the result of suggestions made in the Report of this officer, a great improvement has taken place in these documents. A few further cases of erroneous grants of leave have been brought to notice, but these originated for the most part at an earlier period.

Incidence of charges.

26. Attention has again been called to cases in which furlough and other payments debitable to Departments of the Imperial Government have been charged to Indian revenues, but, owing partly to decreased employment of Indian personnel at foreign stations, and partly to greater care in the initial classification of pay charges, the number of such questions has diminished considerably.

Over-issue of pay.

27. An over-payment of about Rs. 5,000 occurred partly in India and partly in Iraq through the issue of pay at the rate for a Captain to an officer of the Indian Army Reserve who had never been gazetted to that rank. The error was discovered by reference to the Indian Army List in pre-auditing the officer's account on demobilisation. A sum of 45*l.* 5*s.* 2*d.* was withheld against the over-issue, but the balance had to be written off as irrecoverable.

28. In examining the Indian last pay certificate of a Major of the Indian Army it was noticed that the date on which he was shown as qualifying for increased pay admissible after five years' service in that rank had been calculated from the date of his promotion to Brevet Major, whereas, under regulation, brevet service should have been excluded. A prospective over-issue of about 50*l.* was prevented.

Erroneous payments of gratuity.

29. The last pay certificate of an officer holding a temporary commission and sent to this country for demobilisation showed that he had been paid in India a gratuity of Rs. 5,382, calculated on his service from August 1919 to January 1924. As no authority was known to this Department under which gratuity could in any case be admissible for the period 5th August 1919 to 31st January 1920, it was suggested that enquiry should be made as to the circumstances of the payment. From the further information furnished it appeared that no gratuity was admissible under the terms of the officer's engagement for any period of his service after 4th August 1919. Issue of the balance of pay due to the officer has been suspended pending a further report from India.

30. In the case of another temporary officer sent home for demobilisation the documents received from India contained an instruction that the gratuity admissible should be paid in this country. In pre-auditing a proposed payment of 184*l.* 12*s.* 8*d.* on this account it was pointed out that in the absence of information as to the terms on which this officer had been retained in India for further service after the termination of the war his entitlement to gratuity was doubtful. Further investigation showed that gratuity was not admissible and no payment was made.

31. The actual saving to Indian revenues as a result of the questions mentioned in the preceding paras. (25 to 30), and other questions on effective payments to individuals, amounts to more than 4,000*l.*, of which about 800*l.* is due to transfer of charges from Indian to Imperial revenues.

Soldiers in debt.

32. In the case of a non-commissioned officer on six months' furlough, a last pay certificate had been received from India authorising payment to be made in this country, subject to recovery of a large debit balance. Action had not been taken on this document, as it appeared that the Officer Commanding the unit had made arrangements to remit the non-commissioned officer's pay direct to him. After Rs. 400 had been remitted the Controller of Military Accounts concerned gave instructions that, owing to the account being so much in debt, no further payments should be remitted. At the instance of this Department the attention of the Military Accountant-General, India, was drawn to the irregularity of the procedure adopted by the Officer Commanding. An Indian Army Order has since been published precluding the grant of leave to soldiers in debt or otherwise involved.

Allowances additional to pay.

33. British Service Officers on the Indian Establishment are entitled, during ordinary leave out of India and when proceeding to and from duty in India, to British pay of rank and allowances governed by War Office regulations, and officers of the Air Force to similar payments based on regulations of the Air Ministry.

The adaptation of the War Office and Air Ministry rules to officers normally in receipt of Indian rates of pay proved to be a somewhat complicated matter, more especially as regards certain additional allowances admissible to married officers. The proposed orders were submitted for audit observations, as a result of which substantial restrictions on the grant of such allowances were introduced.

Amendment of regulations.

34. As a result of audit questions amendments have been made in the regulations relating to—

(i) The date determining commencement of leave on medical certificate.
(ii) Procedure in granting sick leave to non-departmental soldiers on the India Unattached List.
(iii) Disposal of officers applying to resign or retire or reverting to the Home Establishment while on leave out of India.

Memorandum of Arrangement with Air Ministry.

35. The detailed adjustment with the War Office of charges for pay, passage, &c., of officers and men of the British Service transferred, whether individually or in units, between the Imperial and Indian Establishments is regulated by a document known as the Memorandum of Arrangement, which, having remained in force for many years and having been suitably amended from time to time, forms a comprehensive code under which most questions of incidence of charge can be settled.

Owing to the employment of Royal Air Force personnel on the Indian Establishment the necessity for a similar arrangement with the Air Ministry became apparent. As the conditions of service of the Air Force differ in many important respects from those of the Army, the Memorandum of Arrangement with the War Office could not be applied without modifications. An inter-departmental conference was held, at which my Department was represented, and a separate Memorandum of Arrangement, following generally the lines of the corresponding agreement with the War Office, was drawn up. This has been adopted by the Secretary of State in Council and the Air Council.

Pending the settlement of outstanding questions involved in the Memorandum a number of claims by the Air Ministry for leave pay of officers who had served in India were held in abeyance. A provisional payment on this account of 4,000*l.* was made in March 1924, subject to adjustment after verification of the details in India.

Marriage allowances and allotments: British troops.

36. The amount of 455,430*l.* 4*s.* 10*d.* was paid in 1923–24 to the War Office and the Air Ministry in respect of marriage allowances and allotments for the 12 months to 30th September 1923. A general examination has been made of the claims for this period, and a test audit has been carried out at certain pay offices

at which the accounts aggregate about 38 per cent. of the total claims. Sums amounting to 473*l.* 10*s.* 9*d.* were disallowed and have been adjusted against subsequent claims.

As regards the questions referred to as outstanding in para. 21 of the last Report, the War Office gave instructions that a re-examination should be made by the Army Paymasters of the accounts from October 1920. As a result sums amounting to 33,865*l.* have been credited to Indian revenues in adjustment of over-charges for (1) units not in India, (2) voyage pay of units, (3) voyage pay of drafts and details, (4) periods subsequent to the voyage of soldiers returned from India on transfer or discharge. Questions have been raised as to the sufficiency of the amounts credited and it is probable that further adjustments will be necessary.

Marriage allowances and allotments: Indian Army.

37. Payments amounting to 41,449*l.* 16*s.* 4*d.* were made at the India Office in respect of marriage allowances and allotments of soldiers on the India Unattached List, &c. Queries raised in audit resulted in recovery from departments of the Imperial Government of 1,716*l.* 16*s.* 8*d.*, representing payments to the families of soldiers serving out of India.

Conveyance of the Indian Peace Contingent.

38. No further communication has been received from the Mercantile Marine Department of the Board of Trade with reference to their claim for 92,805*l.* mentioned in para. 22 of the last Report; consequently the advances of 70,460*l.* made by the India Office remain unadjusted.

Surplus officers.

39. The questions referred to in paras. 23 and 24 of the last Report as to the incidence of the cost of the concessions granted to officers of the Indian and British Armies declared surplus on reduction of the respective Establishments have been under discussion between the India Office and the War Office, but progress has been interrupted by consideration of the major questions referred to in paras. 7 and 58.

Revision of classification of pensions.

40. Rules made by the Secretary of State in Council in February 1921 provided that pensions granted after 1st April 1921 to Government servants who had been employed partly under the Army Department and partly in civil departments of the Central and Provincial Governments should be classified in the accounts according to the duration of service in the respective departments.

As the pensions issued by the India Office to military officers and other ranks continued to be debited, in accordance with previous practice, wholly to the heads of Military and Medical Retired Pay, I enquired why the new procedure had not been applied. Steps have been taken to obtain from India the detailed information necessary, and considerable readjustments of past charges will appear in a future account.

Incorrect awards of pension to officers.

41. A pension of 482*l.* a year had been awarded to a Major of the Indian Army on a calculation of service which included a period of employment with Militia. Under the regulations Militia Service only reckons for pension if the unit was "embodied" at the time. As the result of an audit question on this point it was ascertained that the unit had been embodied for a portion only of the period. The pension was reduced by 27*l.* 10*s.* a year.

42. Attention was also drawn to a case in which a pension assessed at a provisional rate continued to be issued at that rate after the promulgation of revised rates involving a reduction of 34*l.* a year.

43. A case was brought to notice in which the benefit of Indian Army pension rights had been allowed to an officer on probation who had never been confirmed in the Indian Army Reserve, and should consequently have been treated as a temporary officer of the British Service. He has now been demobilised and awarded a temporary disability pension of 42*l.* a year, liable to revision after six months, instead of 146*l.*, the rate in issue, which he would probably have continued to draw for life subject only to minor adjustments in respect of the cost of living.

Officers in receipt of wound pension.

44. Temporarily commissioned officers who received wounds in action of such severity as to qualify for a wound pension and whose earning capacity is seriously impaired are eligible to receive, in addition to the wound pension, allowances making a total in excess of the corresponding emoluments in other cases of war disability.

In scrutinising the returns of awards made in India which are forwarded to the India Office it was noticed that two officers of the Indian Army Reserve, to whom the special rates had been awarded, were serving in Civil Departments of the Government of India in which they had been employed before the war. As the presumption was that their earning capacity had not been "seriously impaired," the Government of India have been asked to make the requisite reductions.

Double issue of widows' pensions.

45. In issuing pension to the widows of two warrant officers of the India Unattached List who, after retirement, had been re-employed by the War Office for war service, circumstances came to light which suggested that pensions were also in issue by the Ministry of Pensions. Further enquiries disclosed a double issue of pension extending over a long period. Partial recoveries were effected, but as neither fraud nor misrepresentation could be substantiated, the remainder of the sums over-issued was written off as irrecoverable. I have asked that the inter-departmental practice governing the channel of issue of all military pensions may be more clearly formulated and suggestions for this purpose are under consideration by the Ministry of Pensions..

Education allowances.

46. In view of the numerous questions regarding educational allowances, referred to in para. 22 of the 1921–22 Report and para. 26 of the last Report, applications for fresh awards or the renewal of existing grants, after reference in some cases to the Ministry of Pensions, are now submitted, with any recommendations by the latter, for pre-audit. Criticism has been directed mainly to defects in the declarations of means rendered by applicants, and in several instances reductions of proposed grants have resulted. In one case it was pointed out that the beneficiary had omitted to disclose a considerable item of private income in making a previous application and a recovery of 150*l.* was obtained.

Pensions of orphans.

47. The regulations regarding the ordinary pensions of the children of deceased officers and warrant officers differ from those governing similar pensions admissible under the War Warrants, both as regards the period for which advance payments are admissible and, in the case of warrant officers' children, as regards the ages at which such pensions cease. Attention has been drawn to about a dozen cases in which, owing either to confusion between the two sets of rules or to oversight, erroneous payments had been made.

Dependants' pensions.

48. Dependants, other than widows and orphans, of officers and men killed in the war, if in necessitous circumstances and able to prove their dependence, are entitled to pensions under the War Warrants. I pointed out that the quarterly declarations of means signed by these pensioners were inadequate to disclose all the circumstances upon which the continued admissibility of the amount in issue was contingent, and suggested that a reference should be made to the Ministry of Pensions as to their procedure in dealing with the analogous and much more numerous pensions under their administration. It came to light that the Ministry were engaged in a comprehensive review of all the cases on their books, and that, instead of obtaining quarterly declarations, they propose to carry out a fresh review of every case triennially. A similar procedure has been adopted by the India Office. The initial review, which is still proceeding, has already disclosed improved circumstances justifying discontinuance or reduction of pension in a number of cases.

Increase of small pensions.

49. Persons in receipt of small pensions are eligible, under certain conditions mentioned in para. 28 of the last Report, for a percentage increase, but, if the basic pension has itself been revised to take account of the increased cost of living, the increased pension is restricted to the amount to which the unrevised rate might have been raised. Further, the increase is not admissible during residence in India. Attention has been drawn to several cases in which one or other of these limitations had been overlooked, and a number of other questions have been raised mainly concerned with the criticism of the returns of income which are required from applicants for the increase.

In one case it was ascertained that a pensioner who had not reported any addition to his declared income of 120*l.* a year had proceeded to India, where he was earning a salary of 600*l.* a year.

Pensioners resident in India.

50. Several other classes of pension are issuable at a reduced rate during residence in India. I have drawn attention to the necessity of obtaining adequate information on this point and numerous adjustments have been made.

51. The questions raised (including those mentioned in paras. 41 to 50) with regard to various classes of pensions have resulted in the recovery of about 800*l.* over-issued and the reduction of recurring payments by approximately 900*l.* a year.

Medical assessment of war disability.

52. In para. 26 of the 1921-22 Report, I gave some account of the divergence in practice between the India Office and the Ministry of Pensions in the assessment of disability for the purpose of pension or gratuity under the War Warrants and mentioned that steps had been taken to introduce greater uniformity. In para. 33 of the last Report I stated that these steps had not appeared satisfactory and that further modifications of India Office procedure were under consideration. It was

eventually decided that, in order to ensure the conformity of assessments to the standards set up by the Ministry, the latter should be asked to recommend a Medical Assessor to enable the Medical Board of the India Office to keep in touch with the procedure and practice of the Ministry. A retired senior officer of the Indian Medical Service, who had been employed as a Medical Assessor under the Ministry, was selected for service in this capacity and took up duty in April 1924.

In the interval which had elapsed since the question was first raised by this Department, numerous assessments had been made in which the disability was reported to be in a "permanent final and stationary" condition; normally, such an assessment would have been followed in the case of a serious disability by a final award of pension for life, but in view of the questions raised only provisional awards were made and reassessment was therefore possible.

A considerable proportion of such cases have now been reviewed and the results indicate that in an appreciable number the previous assessment was higher than would have been made under the Ministry of Pensions. I understand that it is hoped to complete the review before the end of the present financial year. Two points on which I laid emphasis in commenting on the India Office procedure were that specialist opinion was rarely obtained and that definite treatment was seldom recommended. In both respects increasing advantage of the facilities at the disposal of the Ministry of Pensions has been taken for some time past and full use is now made of the available machinery. In view of the experience of the Ministry in this matter, it may be assumed that considerable advantage has accrued, not merely to public revenues, but to the individuals affected.

Reduction of British troops in India: Receipt from War Office.

53. The execution of certain measures for reducing the establishment of British troops in India which had been recommended by the Indian Retrenchment Committee was postponed on grounds of policy affecting the disposition of the Imperial forces as a whole. In consideration of the extra expenditure thrown on Indian revenues the War Office agreed to contribute a sum of 75,000*l.* a year for two years. The first instalment appears under the special receipt heading of "Adjustments arising out of reductions in the establishment of British Troops."

Receipts on account of clothing and equipment of British troops.

54. A further advance of 12,800*l.* was received from the War Office on account of clothing and necessaries in possession of regiments on their transfer from the Indian to the British Establishment. This amount, together with the advances of 21,100*l.* and 22,450*l.* referred to in para. 35 (*a*) of the last Report, is subject to final adjustment, as are also the advances of 52,700*l.* and 52,300*l.* referred to in para. 35 (*c*) of the last Report, on account of Consolidated Clothing Allowances of British troops returning from India.

55. The advance of 80,000*l.*, referred to in para. 36 of the last Report, which was received from the Air Ministry in March 1923, on account of the equipment of a squadron of the Air Force which proceeded from India to Iraq in 1921, remains unadjusted pending the settlement of certain points in dispute.

Receipts on account of non-effective charges of Indian troops lent to Imperial Government.

56. A further amount of 69,700*l.* was received from the Imperial Government on account of retired pay, &c., of Indian troops lent for Imperial service. This and the previous receipts mentioned in para. 38 of the last Report are subject to adjustment when agreement has been reached with regard to the claims referred to in para. 7.

Payments to Imperial Government.

57. The principal payments made from Indian revenues to Departments of the Imperial Government for services arising out of the maintenance of British troops on the Indian Establishment are dealt with in the following paras. 58 to 65:—

58. War Office: Capitation Rate for Effective Services:—

A further advance of 1,700,000*l.* was made, calculated on approximately the same basis as those detailed in the last Report (para. 39). The principles on which India's annual payment under this head should be fixed are at present under discussion, and adjustment of the previous provisional payments remains in abeyance pending agreement on the major issue.

59. War Office, for gratuities on death, discharge, &c.:—

44,000*l.* was advanced on this account in respect of payments during 1923–24 and 2,674*l.* 7*s.* 2*d.* was refunded by the War Office in adjustment of advances in 1921–22 and 1922–23.

In para. 40 of the last Report I stated that I had questioned the method of determining India's share of payments during the year 1920–21. On my calling for vouchers from selected pay offices for the purpose of test auditing the accounts of that year the War Office caused a preliminary examination to be made, which showed that, as I had anticipated, numerous war gratuities had been included erroneously in the lists of payments.

The War Office therefore re-examined the whole of the charges for 1920–21 and 1921–22 and discovered that sums of 6,645*l.* 6*s.* 2*d.* and 1,545*l.* 12*s.* 4*d.* respectively had been overcharged to India. Credit will be given in adjusting the claim for 1923–24.

After eliminating war gratuities the amount debitable to Indian revenues for the year 1920-21 on the normal basis of division is 64,038*l.* 6*s.* 7*d.*, but I am still not satisfied that in the special conditions then prevailing with regard to discharges the normal basis is equitable. The question is under reference to the War Office.

60. War Office: Voyage pay of units proceeding to and from India:—

A provisional payment of 22,500*l.* was made, being the amount fixed as India's annual contribution for the years 1919–20 to 1923–24, described in para. 20 of the last Report.

The contribution is subject to reduction by the amount of the actual expenditure incurred at the India Office and in India during the above-mentioned period.

The figures of Indian expenditure have now been received, but are still subject to modification in certain respects.

When the final figures are determined adjustment will be made with the War Office up to 31st March 1924, after which date the contribution will cease and Indian revenues will bear actual charges.

The amount to be set off against the contribution has been increased by about 2,000*l.*, in addition to the sum mentioned in the last Report, as a result of audit questions on the classification of items in the Army Agents' accounts.

The charges for land transport of the units in India will be adjusted at the same time as the voyage pay and on similar lines.

61. War Office, on account of Unemployment Insurance:—

78,500*l.* was advanced in respect of the year 1923–24, and 761*l.* 0*s.* 7*d.* was refunded in adjustment of the advances for 1922–23.

62. Air Ministry, for Effective Services in respect of personnel of the Air Force serving in India:—

A further advance of 99,700*l.* was made, which, together with the amounts specified in para. 42 of the last Report, is subject to adjustment when the basis of charge for this service has been agreed with the Ministry. The latter have been pressed to submit detailed figures for examination, but up to the present have been unable to do so.

63. War Office, on account of:—

(*a*) Clothing and necessaries in possession of regiments on their transfer from the British to the Indian Establishment:—

A further advance of 22,800*l.* was made, which, together with the advances of 49,200*l.* and 43,900*l.* referred to in para. 43 of the last Report, is still subject to final adjustment.

(*b*) Consolidated Clothing Allowances of British troops proceeding to India:—

The advances of 85,600*l.* and 96,650*l.* referred to in para. 43 (*c*) of the last Report are still subject to final adjustment.

With a view to effecting a settlement of the advances mentioned in this paragraph and para. 54 above, a conference was held between the War Office and the India Office at which this Department was represented. Agreement was reached on a number of points, but others are contingent on the revision of the Effective Capitation Rate (*see* para. 58).

64. War Office: Sea transport:—

A further payment was made during the year of 610,000*l.*, the same amount as had been agreed with the War Office as appropriate in respect of the preceding year. As stated in para. 44 of the last Report, a claim for a refund of 313,000*l.* had been made against the War Office in respect of amounts over-advanced to them for the period 1920–21 to 1922–23. The claim in question has been further examined in this Department and corrected by the addition of 15,000*l.* No action has been taken by the War Office with regard to the claim, as they have a counterclaim of approximately equal amount which is disputed by the India Office. It seems improbable that the points at issue can be settled until agreement has been reached on the larger questions of principle referred to in para. 58 above.

65. War Office: Retired pay, pensions, &c., of British forces for service in India:—

A further sum of 1,130,238*l.* was advanced. No final adjustment has yet been made in respect of the annual payments on this account from 1913–14 onwards pending agreement with the Imperial Government as to India's liability with regard to non-effective charges arising out of the war (*see* para. 7).

Extraordinary Receipts.

Earnings of enemy ships transferred to revenue.

66. The sum of 1,675,000*l.* credited to revenue under the above head is a portion of the earnings of certain enemy ships which were captured in Indian ports during the war and employed partly for Government purposes and partly in freight and passenger service under the control first of the Secretary of State and latterly of the High Commissioner.

The balance of the amount earned up to 31st March 1924 remains in suspense under Deposits and Advances, viz., 1,909,646*l.* 2*s.* 10*d.* in the account of the Secretary of State, and 390,763*l.* 4*s.* 1*d.* in that of the High Commissioner.

Terms of settlement in regard to the disposal of the sale proceeds and earnings of these ships have recently been agreed with the Imperial Government, but it is necessary for a Treasury Minute explaining the case to be laid on the Table of the House of Commons before effect can be given to the settlement. It is anticipated that, when the terms of settlement have been applied in detail, a further considerable amount will prove to be available for credit to Indian revenues.

Extraordinary Payments.

Payments relating to Persia.

67. The amount of 2,367,270*l.* 1*s.* 8*d.* shown under this heading does not represent payments made during 1923–24, but is made up of amounts relating to Persia disbursed in previous years and charged to a Suspense Account (*see* para. 70) and now transferred to "Revenue."

Negotiations with the Persian Government regarding the loans are understood to be in progress.

The amount of 3,481*l.* 16*s.* 10*d.* relating to the Military Commission to Persia was paid during 1922–23 and was charged to the Suspense Account "Miscellaneous Advances."

Deposits and Advances.

68. Details of the Suspense Accounts under this heading are given in Appendix II to the Account (page 24).

Enemy ships.

69. The balance of 3,584,646*l.* 2*s.* 10*d.* at the credit of "Enemy Ships" on 31st March 1923 was reduced to 1,909,646*l.* 2*s.* 10*d.* by the transfer of 1,675,000*l.* to Revenue (*see* para. 66).

Loans to Persia.

70. The balance on 31st March 1923 on the Suspense Account "Advances for the purposes of the Persian Government" was made up as follows:—

		£	*s.*	*d.*
Principal outstanding on the 1903 loans	-	131,090	12	5
Ditto ditto 1912–14 loans	-	245,000	0	0
Ditto ditto 1915–20 loans	-	2,122,270	1	8

During 1923–24 repayments were made in respect of the 1903 loans in accordance with the amortisation table referred to in previous Reports, and the principal outstanding on 31st March 1924 was 107,366*l.* 10*s.* 5*d.*, *i.e.*, the balance on the Suspense Account at that date.

The amount of principal outstanding in respect of the later loans, viz., 2,367,270*l.* 1*s.* 8*d.*, remained unaltered during 1923-24 and has been transferred to Revenue (*see* para. 67).

Deposit accounts closed.

71. The account of the Burma War Fund has been closed by transfer of the balance to India, where it has been amalgamated with other funds providing for the benefit of personnel of the military and marine forces in that country.

72. The securities and cash held during the war on behalf of the Council of Administration of the Ottoman Public Debt were restored to the Council on the conclusion of peace with Turkey.

Remittances.

Non-recovery of wound pensions and gratuities payable by War Office.

73. Wound pensions and gratuities awarded to British service officers by the War Office in respect of injuries received during service under that Department but falling due for payment while the recipient is serving in India are frequently issued in that country, in which case they should be included in a schedule of the Account Current for recovery from the War Office. Records kept in this Department showed

that in a large number of cases the necessary debits had not been raised. Enquiry disclosed that while a number of the missing items had been included in the Indian accounts of recoverable war expenditure a considerable proportion had not been brought to charge against Imperial revenues. Recoveries amounting to more than 2,500*l.* have now been made and some further cases are still under investigation.

Iraq transactions.

74. In para. 39 of the Report for 1921–22 an account was given of certain belated receipts from the Imperial Government, amounting to more than 7,000,000*l.*, in repayment of funds advanced from Indian revenues to meet expenditure in Iraq. An additional sum of 194,757*l.* 3*s.* 3*d.* was paid by the Colonial Office in April 1923, and, like the preceding amounts, was credited to Postal and Money Order Transactions.

In order to bring the Home books into line with the final accounts in India, a book entry was made crediting the latter head with a sum of 955,984*l.* 6*s.* 3*d.* by *per contra* debits of 535,258*l.* to "Surplus Revenues of Occupied Territories," and 420,726*l.* 6*s.* 3*d.* to "Payments to Imperial Government Departments: Miscellaneous Transactions." Further adjustments will appear under the last-mentioned head.

After the amount of 194,757*l.* 3*s.* 3*d.* had been received from the Colonial Office, investigation proved that a considerable sum had been over-recovered from that Department. On the other hand, a sum of approximately equal amount remained due from the Iraq Administration to India, and pending the conclusion of definite arrangements for the settlement of this obligation by direct remittance, repayment has not been made to the Colonial Office. Information recently received from India is to the effect that such arrangements have now been made.

Political Mission to Central Arabia: insufficient claim.

75. In view of the situation described in the preceding paragraph the Colonial Office on their side withheld payment of a sum of 47,687*l.* 2*s.* 2*d.* claimed by the India Office on account of a political mission in Central Arabia in 1917–19, the cost of which had been met from Indian revenues on behalf of the Imperial Government. The amount of this claim was increased by about 5,000*l.* as the result of an audit question regarding the rate of exchange adopted for the conversion of the rupee amount into sterling.

As the Report on the Mission, which was available at the India Office, showed that certain stores had been supplied, for the cost of which no debits had been raised by India, the omission was pointed out in audit. The value of the stores, about 27,500*l.*, has been accepted as an Imperial liability, and included in the claims of recoverable war expenditure. Of that sum, about 6,500*l.* only represents a saving to Indian revenues, as before the question was raised the charge for the remainder had been borne by the Iraq Administration.

Bounties for extension of service.

76. The receipt of 255,195*l.* 7*s.* 7*d.* under the heading "Bounties paid in India to soldiers for extension of Service," completes the adjustment up to 31st March 1923 of the outstanding questions with the War Office referred to in para. 37 of the last, and para. 41 (ii) of the previous, Report. This sum includes 75,000*l.* on account of the 1916 bounties in lieu of 81,120*l.* 10*s.* 3*d.* claimed. The latter figure was based on an estimate containing several doubtful factors, and the amount offered by the War Office and accepted in full satisfaction by the India Office appears reasonable.

Pensions of lascars killed in the war.

77. In para. 51 of the last Report reference was made to an advance of 65,000*l.* received from the Board of Trade in respect of the capitalised value of pensions paid and to be paid in India to dependants of lascars of British ships who lost their lives through war risks. A further advance of 9,500*l.* was received during 1923–24, but the full amount due to Indian revenues has not yet been agreed between the Actuaries of the Government of India and the Imperial Government.

Conveyance of mules: average adjustment.

78. One of the transports engaged by the India Office in 1915 to convey mules required for the Expeditionary Forces ran aground shortly after leaving New Orleans, and received severe damage in a collision, which obliged her to return to port for repairs. The settlement of the consequent claims and counter-claims proved so complicated that the Average Adjusters took several years to present a final statement. In comparing this statement with the expenditure recorded at the India Office it was noticed in audit that the shipping firm which had acted as agents in chartering the vessel did not appear to have accounted completely for the whole of the funds in their hands, which had been derived partly from the War Office, partly from the India Office and partly from miscellaneous receipts. Enquiry showed that a balance of 3,610*l.* 2*s.* 3*d.* was due from the firm. This sum has been recovered and paid over to the War Office, who had borne the cost of the mules.

Royal Indian Marine Pensions debitable to Port Funds.

79. It has been mentioned in several previous Reports that—owing mainly to lack of the requisite information from India—various Port Funds had not been debited with their share of pensions in issue to officers of the Royal Indian Marine.

In para. 13 of the 1920–21 Report it was stated that as a result of audit questions arrears amounting to 6,300*l.* had been advised to India for recovery. From information since received it appears that one of the ports concerned was not in a position to meet the demands for arrears prior to 1st January 1922 and recovery of approximately Rs. 25,000 on that account has been waived.

A further instance of omission to recover in which the annual amount involved is 30*l.* has been brought to notice and rectified.

As stated in para. 52 of the last Report, I pointed out that the increase of pension granted to officers of the Royal Indian Marine with effect from 1st April 1919 presumably involved a corresponding increase in the amounts chargeable to Port Funds. This presumption has now been confirmed by the Government of India, to whom the question was referred. The necessary claim is in course of preparation.

II.—PROVINCIAL.

General.

All Provincial Governments.

1. As the accounts of the Secretary of State on behalf of the Provincial Governments involve comparatively small amounts and offer little occasion for audit criticism, I have not previously thought it necessary to compile separate Provincial Reports. The Auditor-General, India, has lately asked that this may be done, and the fact that I have now undertaken the Appropriation Audit of the Home Accounts would in any case have rendered the preparation of brief separate reports convenient.

Certain portions of my Central Report contain matter affecting also the Provincial Accounts; arrangements have been made for these to be extracted and annexed to the copies of each Provincial Report transmitted to the Government concerned.

The passages of common interest in this year's Central Report are contained in paras. 8 to 10 dealing with general aspects of the Appropriation Audit of the Home Accounts and para. 40 relating to the reclassification of military pensions, which will result in some transfer of expenditure to provincial revenues.

Appropriation Audit.

2. As in the case of the Central Government, I have not thought it necessary to compile separate Appropriation Accounts of provincial transactions, but have used as the basis of my Appropriation Report the Statement of Comparison drawn up by the Accountant-General, India Office, which exhibits the transactions of the Secretary of State on behalf of each Provincial Government in the form described in para. 10 of my Central Report.

Madras.

In Government of Madras Civil Budget Estimate for 1923–24 English expenditure is shown as a separate item of each subject grant. The Secretary of State's expenditure is not specifically differentiated from that of the High Commissioner, but can be identified from the description of particular items.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of Madras.

The figures contained in the Statement of Comparison appear to be correct, and I agree in the explanations furnished with regard to variations.

Under the head of General Administration (Reserved): Sundry items—Voted, the revised estimate was 2,100*l.* and the actual expenditure 3,569*l.* The excess of 1,469*l.* was due to a grant of 1,552*l.* having been made to a newly appointed Governor for the purchase of motor cars. There was a corresponding deficiency in the High Commissioner's accounts of 1,020*l.*, leaving a net excess of 449*l.* on the portion of the grant allotted for English expenditure. The latter must be combined with the corresponding figures of Indian expenditure in order to determine whether there was any excess on the grant as a whole.

There was no excess under any other head.

Bombay.

Separate composite demands for the total voted expenditure of (*a*) the Secretary of State, and (*b*) the High Commissioner, are contained in a Schedule of Demands incorporated in the Budget of the Government of Bombay. The

distribution of the total expenditure in England, both voted and non-voted, against subject heads, is exhibited in the Civil Budget Estimate, which contains an appendix showing the allocation of each item between the Secretary of State and the High Commissioner.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of Bombay.

The figures contained in the Statement appear to be correct, and I agree in the explanations furnished with regard to variations.

There was no excess under any head.

Bengal.

In Government of Bengal Civil Budget Estimate for 1923–24 provision is made for all voted home charges under a single separate grant comprising the totals only of the Secretary of State's and High Commissioner's expenditure respectively. For non-voted home expenditure, on the other hand, provision is apparently made under the several subject heads, but details are not given, and the amounts allotted to the Secretary of State and High Commissioner can only be ascertained from their respective estimates, which were duly submitted to and accepted by the Government of Bengal.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of Bengal.

The figures contained in the Statement appear to be correct, and I agree in the explanations furnished with regard to variations.

The expenditure falling under the Secretary of State's portion of the composite grant for voted home charges was less than the revised estimate, but there were excesses requiring the sanction of the Government of Bengal of 314*l.* under General Administration (Reserved): Sundry items—Non-Voted, and 350*l.* under Medical (Transferred): Sundry items—Non-Voted.

United Provinces of Agra and Oudh.

In Government of the United Provinces Civil Detailed Estimates for 1923–24 provision is made for home expenditure by means of two composite grants, one for the Secretary of State and one for the High Commissioner, with a separate schedule of non-voted expenditure in each case.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of the United Provinces.

The figures contained in the Statement appear to be correct, and I agree in the explanations furnished with regard to variations.

There was no excess under any head either of voted or non-voted expenditure.

Punjab.

In Punjab Government Detailed Budget Estimates for 1923–24 provision is made for home expenditure, both voted and non-voted, by means of separate items allocated specifically to the Secretary of State or the High Commissioner under each subject head.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of the Punjab.

The figures contained in the Statement appear to be correct, and I agree in the explanations furnished with regard to variations.

There was no excess except a small amount of 12*l.* under Police (Reserved): Sundry items—Non-Voted.

Burma.

In the Government of Burma Civil Budget Estimate for 1923–24 provision is made for expenditure in England, both voted and non-voted, by means of separate items under each subject head. In order to distinguish the transactions of the Secretary of State from those of the High Commissioner it is necessary to refer to their respective detailed estimates.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of Burma.

The figures contained in the Statement appear to be correct, and I agree in the explanations furnished with regard to variations.

There were no excesses under any head.

Bihar and Orissa.

In the Government of Bihar and Orissa Civil Budget Estimates for 1923–24 the Secretary of State's expenditure is not shown separately, but is presumably included in the general expenditure under each head.

The aggregate amounts are very small, viz., 136*l.* voted and 31*l.* non-voted.

The actual expenditure under each head was within the amount included in the Secretary of State's revised estimate, which was duly communicated to the Government of Bihar and Orissa.

Central Provinces and Berar.

In Government of the Central Provinces Civil Budget Estimate for 1923–24, provision is made for the whole of the Secretary of State's and part of the High Commissioner's expenditure by means of a single composite grant, with a schedule of non-voted transactions. Sufficient detail is given to enable the Secretary of State's expenditure to be distinguished from that of the High Commissioner.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the Secretary of State and the Government of the Central Provinces.

There was no excess under any head.

Assam.

In Government of Assam Budget Estimate for 1923–24 separate provision is not made for Home expenditure, either of the Secretary of State or the High Commissioner, which is presumably included in the general expenditure under each subject head.

The figures in the Statement of Comparison agree with those notified by the Secretary of State to the Government of Assam and accepted by the latter.

There was no excess under any head.

CLASSIFICATION.

All Provincial Governments.

3. The Governor of Bombay has decided, in accordance with the powers conferred by section 72D (3) of the Government of India Act, that the term "salaries," as used in section 72D (3) (iv) and (v) of the Act shall include any emoluments classed as compensatory allowance under Fundamental Rule 9 (5), including a travelling allowance. The Finance Department of the Government of Bombay ruled that the outfit and motor-car allowances to the Governor of Bombay are compensatory allowances, and the payments made to the incoming Governor during 1923–24, viz., 2,000*l.* on account of voyage and equipment and 2,956*l.* for the purchase of motor-cars, have accordingly been charged in the account as non-voted.

In the case of Madras, similar payments of 2,000*l.* and 1,552*l.* have been classified as voted.

In the case of the Punjab, the Finance Department ruled that the equipment allowance of the Governor is "non-voted expenditure, the amount being fixed by Statute," and a payment of 300*l.* on that account in 1924–25 has been classified accordingly.

In my opinion, the last-mentioned view is correct, as the voyage and equipment allowances of Governors are fixed by rules made by the Secretary of State under section 85 of the Government of India Act. Apparently, therefore, these allowances should in all cases be classified as non-voted under section 72D (3) (iii) of the Act, irrespective of any decision by the Governor; but in the case of Madras, as provision had actually been voted, it did not seem necessary to disturb the existing classification of the payment. The classification of motor-car allowances, on the other hand, as voted or non-voted, appears to fall within the discretion of the Governor under section 72D (3), and there is nothing to prevent inconsistent decisions of the nature referred to in para. 47 (c) of the letter No. 940 Adm./229-24, dated 2nd June 1924, from the Auditor-General, India, with reference to the Appropriation Reports for 1922–23.

W. A. STURDY,
Auditor.

INDIA AUDIT OFFICE,
30th December 1924.

ACCOUNT

OF THE

RECEIPTS AND DISBURSEMENTS

OF THE

HIGH COMMISSIONER FOR INDIA

From 1st April 1923 to 31st March 1924.

No. 4.—Account of the Receipts and Disbursements of the High from 1st April 1923

	£	s.	d.
Balance on the 1st April 1923 at the Bank of England and in the hands of Sub-Accountants - - - - - - - - - -	207,044	2	8
Carried forward - - - - - -	207,044	2	8

COMMISSIONER FOR INDIA, on account of the CENTRAL GOVERNMENT OF INDIA to 31st March 1924.

DISBURSEMENTS.

EXPENDITURE.

	£	s.	d.	£	s.	d.

Chief Accounting Officer.

I certify that the above Account has been examined under my directions and that, subject to the observations contained in the annexed Report, it is in my opinion correct.

INDIA AUDIT OFFICE, 22nd December 1924.

W. A. STURDY, *Auditor.*

No. 5.

REPORT of the AUDITOR of INDIAN HOME ACCOUNTS upon the Accounts of the HIGH COMMISSIONER FOR INDIA, for the year ended 31st March 1924; prepared and submitted to the GOVERNOR-GENERAL IN COUNCIL, in accordance with Clause 9 of the Order in Council dated 13th August 1920.

I.—CENTRAL.

GENERAL.

Order of Report.

1. Following the method adopted in the Report on the Account of the Secretary of State, the paragraphs of this Report are grouped under major headings in the order in which they appear in the Account.

Allocation of leave pay and pension charges.

2. The distinction between Central and Provincial Revenues introduced by the Indian Reforms has led to the necessity of classifying in the Home Accounts both leave and pension payments according to the service by which the leave or pension was earned. The allocation of charge is carried out by the High Commissioner in accordance with instructions contained in the pay and pension documents issued by Accounting Officers in India on the basis of rules embodied in the Indian Audit Code. Attention has been drawn to a number of cases in which the instructions were not in conformity with the rules. It also came to notice that as regards Leave charges the rules themselves were not wide enough to cover the more complicated cases, *e.g.*, where an officer had served at different periods in a civil and military capacity and had been employed by more than one Provincial Government. As it appeared that the treatment of such cases by different Accounting Officers was inconsistent, I referred the whole question to the Auditor-General, India, by whom more detailed rules have recently been drawn up.

Considerable readjustments of charge between Central and Provincial Revenues and Civil and Military Heads will be entailed.

Outstanding claims for stores lost during the war.

3. The case of the *Clan Mackay*, referred to in para. 14 of the last Report, is still undecided.

As mentioned in previous Reports, this vessel was lost at sea in 1918 owing to negligent navigation, and the question of ultimate liability for the stores lost still remains to be determined by arbitration. The Indian case has been prepared and sent to the Department of the Imperial Government concerned, viz., the Board of Trade, but the latter have not yet forwarded their case to the High Commissioner. Until this is available, the necessary agreed statement cannot be submitted to the arbitrator.

Returned packing accounts.

4. The number of "ships" packing accounts sent to India during the 12 months ending 31st March 1924, relating to stores for the Central Government, was 4,295, of which 301 are still outstanding at this date.

The measures outlined in para. 11 of my last Report, resulting from previous comments on the difficulties arising from the frequent failure of consignees to return packing accounts within a reasonable period, appear to have had a salutary effect. About 500 packing accounts which were outstanding at the date of the last Report have since been returned, and no further cases have come to my notice in which it was impossible to effect recovery owing to delay in furnishing the necessary report from India as to damage or shortage.

GENERAL ADMINISTRATION: ENGLAND.

Gross and net cost of the High Commissioner's Establishments.

5. The total cost of the Establishments of the High Commissioner for the year 1923–24 was 203,862*l.* 12*s.* 10*d.* This amount is reduced, as explained in previous Reports, by a charge of 2 per cent. levied on the value of stores supplied (1) to quasi-commercial departments of the Government of India, viz., Posts and Telegraphs and State Railways, and (2) to Provincial Governments. The amounts were 34,925*l.* 14*s.* 7*d.* and 11,498*l.* 7*s.* 1*d.* respectively.

There are further reductions as from 1923–24, viz., (*a*) 1,800*l.* received from the Inland Revenue Department for assessment of income tax at the High Commissioner's Office, and (*b*) 20,459*l.* in respect of the share of the Provincial Governments of the cost of the High Commissioner's Establishment for issue of leave pay and pensions and for work connected with Indian students. The result is that the net cost to the Central Government of the High Commissioner's Establishment for the year was 135,179*l.* 11*s.* 2*d.*

The total amount received by Indian revenues from the Inland Revenue Department in respect of income tax assessment of leave pay and pensions of Indian officers has hitherto been credited in the accounts of the Secretary of State. Commencing with 1923–24, separate amounts have been received by the High Commissioner and Secretary of State and shown in their respective accounts.

The amount of 20,459*l.* on account of pay, pensions, &c., was transferred to Provincial Revenues in accordance with the decision of the Government of India that those revenues should bear a proportion of the cost of the Establishment of the High Commissioner. Of this amount 9,756*l.* is in respect of pay and pensions and 10,703*l.* of Indian students. The former figure was reached by computing the cost of the Establishment (including overhead charges, viz., Supervision, Stationery, Telegrams) held to be engaged in the issue of pay and pensions and by dividing this amount *pro rata* with the total disbursements on that account for the Central and Provincial Governments. This method appears to be the most equitable one obtainable on broad lines.

The division of the cost of the work done in connection with Indian students presented greater difficulty. After consultation with the Provincial Governments the Government of India decided that tentatively the cost should be divided proportionately to the number of students proceeding to England from each Province during the year.

Commission on pensions and leave allowances paid abroad.

6. A new item of 1,245*l.* 8*s.* 7*d.* on account of Colonial Departmental Charges for issue of leave pay and pensions appears under this head The origin and basis of the charge are explained in para. 24 of the Report on the Accounts of the Secretary of State.

Leave of officers of the Indian Service employed on the High Commissioner's Establishment.

7. The charge for salaries of the High Commissioner's Establishment includes an amount in respect of leave granted to an officer on that establishment on the termination of his appointment. The officer concerned was a member of an Indian Service, and the leave was granted under the Fundamental Rules instead of the regulations of the Home Civil Service, which are normally applicable to officers on the Establishment of the High Commissioner. The method of dealing with such cases, which involves not only the amount of leave to be granted but the classification of charges, is under consideration, and meanwhile the allocation in this case of the whole charge to General Administration, England, must be regarded as provisional.

Miscellaneous Departments.

British Empire Exhibition.

8. The gross expenditure in 1923–24 in connection with the Government of India's participation in the British Empire Exhibition amounted to 129,070*l.* 1*s.* 1*d.*; receipts for space let to exhibitors amounted to 1,096*l.* 5*s.* 4*d.*, and the net amount of 127,973*l.* 15*s.* 9*d.* has been brought to account.

The arrangements for the Exhibition were made and the control of expenditure in this country was exercised by the High Commissioner, who was assisted by an Advisory Committee containing both official and non-official members, and by a specially appointed Exhibition Commissioner, who supervised the preparations in India and spent various periods on deputation in this country.

On all the more important questions of policy and expenditure reference was made to the Government of India.

The Indian Pavilion.

The greater part of the expenditure falls under the head of Construction of the Indian Pavilion, and is made up chiefly of advances in respect of two main contracts: one for the construction of the Pavilion and the other for the external decoration of the building. Competitive tenders were not obtained in placing the contract for construction, as it was decided to entrust the work to the firm which had secured the contract for the construction of the British section of the Exhibition. The contract entered into is based on a schedule of measurement prices, and contains a variation clause operating in regard to a table of basic rates of wages and prices of materials. The contract is, except for slight modifications, similar to that entered into by the British authorities, and the schedule of prices is the same. It is understood that these terms were accepted by the latter authorities as the most favourable after considering a number of competitive tenders. I am informed that the contract was also carefully considered before acceptance by the High Commissioner and the Advisory Committee, who were satisfied that it was the most favourable that could be obtained. The total amount payable under this contract is about 70,000*l.*, of which 64,000*l.* had been advanced up to 31st March 1924.

The second main contract, *i.e.*, for external decoration, was for 41,800*l.*, made up of lump sum items of 32,690*l.* for plaster work, 3,000*l.* for a velarium ceiling, 1,800*l.* for electric wiring and 4,310*l.* for architects' fees. This contract was also placed without inviting tenders, and contained no indication of the prices and quantities leading up to the total amounts. I asked whether similar considerations to those operating in regard to the main construction contract were applicable to this contract, and whether detailed estimates had been prepared, and the reasonableness of the contract sums checked by comparison of the prices charged with current prices. I was informed that the contract was approved by the High Commissioner and the Advisory Committee on the ground that no other firm could have undertaken in a satisfactory manner the fibrous plaster work required for the building.

Final detailed accounts in respect of both contracts have not yet been presented for audit.

The Pavilion is a "temporary" building, but it is understood to be of a sufficiently solid structure to stand, with repairs, for 30 years. Enquiry was made whether it would not have been possible to have effected a saving by having the building constructed of less substantial and consequently less costly material. I am informed that the erection of a more temporary building would have reduced the cost by a very small amount, and that, in the opinion of the consulting architects, a cheaper structure could, considering the area covered, hardly have been put up consistently with safety.

Timber exhibit.

15,000*l.* was advanced during the year to the firm in charge of the Indian timber exhibit. This was the estimated amount of the commitments entered into, but the greater part of the amount was apparently not disbursed by the firm until the following financial year, and final accounts have not yet been presented.

Insurance of the Indian Pavilion and its contents.

About 800*l.* was paid in insurance premia in respect of the Indian buildings and their contents against loss by fire, &c. It was pointed out in audit that this was contrary to Government practice of non-insurance. In reply it was stated that the matter received careful consideration, especially from the point of view of the Exhibition as a whole, and that as the other authorities concerned had agreed to a comprehensive insurance it was considered unwise not to join in such a general scheme.

Expenditure in March.

The attention of the High Commissioner was drawn to certain payments made in March 1924 which appeared to be irregular. In reply I was informed that the amounts were not paid in advance in order to avoid lapses. The circumstances were, no doubt, exceptional, but in view of the objection to making payments in anticipation of the service to be rendered there seems to be some doubt whether the following amounts should have been paid in March :—

(1) A sum of 300*l.* was sanctioned by the Advisory Committee for the Clerk of the Works employed on the Indian building, but as a matter of precaution, and in order to have a greater hold on the Clerk of the Works and exact the full services, this bonus was withheld until he relinquished charge. Payment of this amount was, however, made by the High Commissioner in March to the Exhibition Commissioner, by whom it was not disbursed until June.

(2) An amount of 500*l.* was paid in March to a firm of Indian caterers in London, who undertook to provide the services of Indian cooks in the Tea House attached to the Indian Pavilion during the period of the Exhibition. The payment is described as a subsidy, but inasmuch as the outlay of the firm in paying the wages of the cooks was prospective it seems doubtful whether payment of the whole sum in advance was necessary.

(3) An amount of 1,000*l.* was paid in March to a newspaper for the insertion of advertisements to be published during the currency of the Exhibition. There appears to be little evidence that advance payment, at any rate to the full extent, was required for this prospective service.

Superannuation Allowances and Pensions.

Increase of small pensions.

9. Reference has been made in para. 28 of last year's and para. 49 of this year's Report on the Accounts of the Secretary of State to questions raised in connection with the increase of small pensions. Questions similar to some of those referred to have been raised on pensions issued by the High Commissioner, and reductions amounting to about 50*l.* a year have resulted.

Pension incorrectly classified.

10. I drew attention to a case in which a pension, partly chargeable to the "Hospital Port Dues Fund," had been debited wholly to Indian revenues for a considerable period. The consequent adjustment of charge involved an immediate transfer of 990*l.* and a further annual saving of 293*l.*

Miscellaneous.

Taswiri Akhbar.

11. The amount of 3,903*l.* 13*s.* 5*d.* included under this head is the final expenditure in respect of the pictorial newspaper *Taswiri Akhbar* the supply having been discontinued after 31st December 1923. In November 1922 it was suggested by this Department that with conditions becoming more normal it might prove economical for the despatch of copies for distribution in India and among the overseas forces, previously carried out by the Stationery Office, to be dealt with at the India Store Depôt. The adoption of this suggestion resulted in a saving, during the last year, of about 150*l.*

Military Services. Army—Effective.

Provisional payments to Departments of the Imperial Government made subject to adjustment.

12. The vouchers, which are numerous and complicated, in support of the outstanding claim for 262,171*l.* 4*s.* 1*d.*, referred to in para. 15 of the last Report, have recently been furnished to my Department. Their examination is not yet complete.

Overcharges in respect of stores supplied to India by Departments of the Imperial Government.

13. The charges made for considerable quantities of horse-shoes supplied by the War Office were not in accordance with the accepted principles governing the application of vocabulary rates. The sum of 13,146*l.* was recovered (sub-heading (2), Ordnance—Arsenals and Depôts).

It was observed from the output reports received from India that certain Inglis bridges which had been charged for as Mark II pattern were actually of Mark I pattern. There being considerable difference in price between the two patterns the question was raised whether the charge originally made by the War Office was correct, with the result that the sum of 3,249*l.* was recovered (sub-heading (3), North-West Frontier).

Victory Medal ribbon.

14. In making arrangements for the issue in India of the Victory Medal for service in the Great War, it was originally contemplated that the medals would be struck in India, and that the ribbon only would be obtained from England. Accordingly in 1919 and 1920 the Government of India indented for 212,843 yards of ribbon. Of this quantity 145,843 yards, costing 7,558*l.* 18*s.*, were purchased from the trade and the remainder from the War Office. After considerable delay it was decided that the supply of medals should be carried out by the War Office, and the bulk of the medals did not reach India until 1923. The significance of India's earlier demand for ribbon appears to have been overlooked by the India Office, and in consequence of defective information on this point the War Office provided a further quantity, sufficient, together with the amount previously supplied by them, to furnish ribbon for the whole medal issue. A portion of the excess has been utilised, but the remainder—about 120,000 yards—remains surplus to requirements, and is to be disposed of for what it will fetch.

The War Office, who are responsible for the bulk of the expenditure connected with the medal issue, have agreed to refund the cost of the ribbon originally purchased from them, but the cost of the quantity purchased from the trade remains a charge on Indian revenues to which the sale proceeds of the surplus stock will be credited.

Deposits and Advances.

15. Details of the Suspense Accounts under this heading are given in Appendix I to the Account (page 18).

Enemy ships under the control of the High Commissioner.

16. Since the date of the last Report the fleet of Enemy Ships has been further reduced by the sale for 9,000*l.* of the vessel laid up, viz., the *Alesia*.

The Profit and Loss Account and the Balance Sheet for the year ending 31st March 1924 show the position at that date to be as follows :—

The profit earned during the year was 65,379*l.* 2*s.*, of which 51,000*l.* has been written off as representing depreciation on the value of the fleet. The balance of 14,379*l.* 2*s.* has been added to the profit earned to 31st March 1923, viz., 3,822,192*l.* 19*s.* 8*d.*, as shown in para. 4 of my last Report. The total profit up to 31st March 1924 is therefore 3,836,572*l.* 1*s.* 8*d.*, in addition to which there is a Reserve Fund of 59,880*l.* 12*s.* 8*d.* Reference is made in para. 66 of my Report on the Accounts of the Secretary of State for 1923–24 to the partial appropriation of these profits to Indian revenues.

The *pro forma* Insurance Account up to 31st March 1924 shows a surplus of 97,090*l.* 12*s.* 2*d.* resulting from the Government practice of non-insurance. This amount is included in the profit shown above.

An amount of 45*l.* 4*s.* 4*d.* was misappropriated from petty cash in the office of the Director of India Office Shipping by an employee who absconded and subsequently committed suicide.

Bills payable.

17. The amount of 200,000*l.* referred to in para. 5 (1) of the last Report still remains unadjusted, no supporting vouchers having yet been furnished.

With regard to the amount of 60,000*l.* referred to in para. 5 (2) of the last Report, the rate to be paid in respect of Departmental Expenses on Aviation Stores is still undecided, but payments of 38,000*l.* and 15,000*l.* on account were made to the Air Ministry during the year.

The balance of the Deposit Account "Bills Payable" on the 31st March 1924 was 656,707*l.* 1*s.* 8*d.*, which includes the 200,000*l.* referred to above. The major portion of the balance was represented by the value of stores supplied by Government Departments, for which payment had not been made at the end of the financial year.

Stores supplied for the Iraq Administration.

18. The balance of 11,596*l.* 5*s.* 11*d.* due from the Iraq Administration referred to in para. 6 of the last Report had been reduced to 6,373*l.* 18*s.* on the 31st March 1924. Correspondence is still proceeding in regard to the settlement of this amount.

With regard to the rate for Departmental Expenses, to which reference was made, I have agreed that the question of its adequacy need not be further pursued, in view of the fact that the amount it produced approximates closely to the

actual expenses incurred in the inspection, &c. of the stores purchased on behalf of the Iraq Administration. It seems desirable that in future the recognised procedure for the recovery of Departmental Expenses for services rendered by one Government Department to another should be followed.

APPROPRIATION AUDIT.

19. The circumstances in which I have undertaken the Appropriation Audit of the Home Accounts with effect from 1923–24, and the methods by which provision is made in the Indian Budgets for the expenditure both of the Secretary of State and the High Commissioner, are explained in paras. 8 and 9 of my Report on the Secretary of State's Account.

For the reason given in para. 10 of that Report I have not thought it necessary to compile separate Appropriation Accounts of the High Commissioner's expenditure, but have used for the purpose of Report the Statement of Comparison of Estimated and Actual Receipts and Disbursements for the year 1923–24, prepared by the Chief Accounting Officer of the High Commissioner, copies of which have been forwarded to the Finance Department of the Government of India.

The Statement exhibits against each item appearing in the accounts of the High Commissioner :—

(*a*) The Budget Estimate.
(*b*) Subsequent modifications.
(*c*) The Estimate as finally revised.
(*d*) The actual Expenditure for the year.
(*e*) The amount of the net deficiency or excess of the actual expenditure compared with the revised estimate.
(*f*) Explanations of the difference between (1) the Budget and revised estimates, and (2) the revised estimate and actual expenditure.

20. As regards the accounts of the Central Government, I have verified in detail the figures shown under Budget Estimate by reference to the printed volume of Detailed Estimates and Demands for Grants (as voted by the Legislative Assembly) for 1923–24 and those under Revised Estimates from the Government of India's telegram, dated 14th March, confirming those estimates, and intimating that sanction had been given by the Assembly to the further amounts required under voted heads.

In the case of the voted portion of Grant 57, relating exclusively to expenditure by the High Commissioner, the position was as follows :—

Budget.	Modifications sanctioned.	Revised Estimate.	Actual Expenditure.	Decrease.
£	£	£	£	£
778,600	*–15,400*	763,200	675,665	87,535

There was a small excess of 22*l.* over the voted amount allotted to the High Commissioner under Grant 59, Irrigation Works.

Various excesses on minor heads, both of Voted and non-voted expenditure, requiring report to Government, are correctly exhibited in the Statement, and no further comment appears necessary.

21. There were substantial deficiencies of Actual Expenditure as compared with Estimates under a number of heads. The explanations given are, generally speaking, adequate, but the following instances call for some further comment :—

Forest : Allowances, &c. of Probationers—Voted. Revised Estimate, 30,000*l.* Expenditure, 21,428*l.* Decrease, 8,572*l.*

The methods of watching the progress of expenditure under this head have been improved, so that a closer forecast should be possible in future.

Currency : Stores for India—Voted. With regard to the decrease of 39,902*l.*, part of the explanation given is that "9,300*l.* retained in the revised estimate for possible reappropriations was not utilised." The explanation implies that excesses were anticipated under other heads, in which case the proper course was to increase the revised estimate under those heads. I understand, however, that the circumstances were exceptional.

Superannuation Allowances and Pensions : Indian Civil Service Annuities Commutations—Non-voted. Revised Estimate, 24,000*l.* Expenditure, 4,511*l.* Deficiency, 19,489*l.*

In reply to a question as to the necessity of retaining so large a provision in the revised estimate, the High Commissioner has informed me that, in his opinion, a smaller margin would have been unsafe, as a number of claims for commutation often arise unexpectedly.

II.—PROVINCIAL.

General.

All Provincial Governments.

1. The reasons for issuing a separate Audit and Appropriation Report on the Home Accounts of each Provincial Government are given in para. 1 of the Report on the Accounts of the Secretary of State.

Certain paragraphs in the Report on the Accounts of the High Commissioner on behalf of the Central Government contain matter affecting also the Provincial Accounts, viz., para. (2) dealing with the reclassification of leave and pension charges of civil officers, and para. (5) with the cost of the High Commissioner's Establishments. Arrangements have been made for these to be extracted and annexed to the copies of each Provincial Report transmitted to the Government concerned.

Appropriation Audit.

2. For a similar reason to that explained in my Report on the Accounts of the Secretary of State, I have not considered it necessary to compile a separate Appropriation Account, but have used the Statement of Comparison for 1923–24 prepared by the Chief Accounting Officer to the High Commissioner as the basis of my Appropriation Report.

I have suggested to the Chief Accounting Officer that future Statements should be brought into line with the form of Appropriation Report prescribed in Article 827 of the Audit Code.

Madras.

In Government of Madras Civil Budget Estimate for 1923–24 English expenditure is shown as a separate item of each subject grant. The High Commissioner's expenditure is not specifically differentiated from that of the Secretary of State, but can be identified from the description of particular items.

I have checked the Statement of Comparison by reference to the estimates mentioned above, and to correspondence between the High Commissioner and the Government of Madras.

Owing to the fact that the reappropriations detailed in the "Explanations" column of the Statement were made subsequently to the adoption of the Revised Estimates, the actual excesses under the minor heads noted below requiring report to Government were as follows :—

Voted.—Miscellaneous Departments—British Empire Exhibition, 13*l.*; Stores, 7*l.*

All other excesses on minor heads, both of voted and non-voted expenditure, are correctly exhibited in the Statement.

There was no excess over the total provision finally allocated to the High Commissioner under any subject grant.

I agree generally in the explanations appearing in the Statement with regard to variations between estimated and actual expenditure. In the following cases in which a substantial variation is not explained, I have been furnished by the Chief Accounting Officer with the explanations noted below :—

	Revised estimate.	Actual expenditure.	Decrease.	Explanation.
	£	£	£	
Medical: Leave and Deputation Salaries, &c., non-voted.	9,900	8,791	1,109	The Revised Estimate of 9,000*l.* proposed by the High Commissioner in the November revision was increased by 900*l.* in the January revision in view of the Revised Estimate of 13,300*l.* advised by the Government of Madras in telegram dated the 11th December 1923, which was assumed to indicate that several other officers beyond those already budgeted for might be coming on leave towards the end of the year.
Stationery and Printing: Stores (Stationery).	27,000	24,028	2,972	Full provision retained for contingencies, as estimated expenditure on indents received was 26,200*l.* No further indents were, however, received, and the actual expenditure was less on account of (1) Savings on estimated cost of 1,200*l.*, (2) Cancellations of demands, 600*l.*, and (3) Carry forward, 350*l.*

Bombay.

Provision for all voted expenditure by the High Commissioner chargeable to revenue is made under a single grant, details of which are given in an Appendix to the Government of Bombay Civil Budget Estimate for 1923–24. In the case of expenditure not chargeable to revenue provision is made under the appropriate subject grant.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the High Commissioner and the Government of Bombay.

The revised estimate under the revenue head of Irrigation, &c., Works (reserved)—Stores includes an amount of 2,160*l.* which was eliminated by the Government of Bombay in submitting the supplementary demand to the Legislative Council. The final provision under that head was thus 130*l.* instead of 2,290*l.*, and the decrease 10*l.* instead of 2,170*l.*

The resulting position as regards the single composite grant for the High Commissioner's expenditure was therefore :—

Budget.	Revised estimate.	Actuals.	Decrease.
£	£	£	£
102,850	109,458	91,376	18,082

Certain reappropriations made by the High Commissioner within the total of his composite grant in pursuance of orders passed by the Bombay Government, which subsequently proved to be invalid, are detailed in a supplementary column of the Statement, accompanied by an explanatory footnote. The resulting excesses under minor heads of the composite grant have been condoned by Government, and the only excess still requiring report is an amount of 40*l.* under General Pensions and Civil Service Annuities, voted.

There was an excess of 1,918*l.* on the High Commissioner's portion of the subject grant for Capital Outlay on Improvements to Public Health (transferred)—Stores. This amount must be combined with the corresponding figures of Indian expenditure in order to determine whether there was any excess on the grant as a whole.

I agree generally in the explanations appearing in the Statement with regard to variations between estimated and actual expenditure. In the following cases, in which a substantial variation is not explained, I have been furnished by the Chief Accounting Officer with the explanations noted below :—

	Revised estimate.	Actual expenditure.	Decrease.	Explanation.
	£	£	£	
Administration of Justice : Leave and Deputation Salaries, &c., Non-voted.	11,500	9,893	1,607	The expenditure to 31st December, approximating to 9,000*l.*, seemed to warrant retention of the full provision, but the rate of expenditure declined beyond expectation in the last few months.
Education : Leave and Deputation Salaries, &c., Non-voted.	11,000	8,983	2,017	It was deemed advisable to retain the provision, which was based on a forecast received from the Government of Bombay.
Superannuation Allowances and Pensions : Commutations, Non-voted.	9,000	372	8,628	Provision retained to allow for possible commutations for which there might easily arise a sudden demand.

Bengal.

In Government of Bengal Civil Budget Estimate for 1923–24 provision is made for all voted home charges under a single separate grant comprising the totals only of the Secretary of State's and High Commissioner's expenditure respectively. For non-voted home expenditure, on the other hand, provision is apparently made under the several subject heads, but details are not given, and the amounts allotted to the Secretary of State and High Commissioner can only be ascertained from the respective estimates which were duly submitted to and accepted by the Government of Bengal.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the High Commissioner and the Government of Bengal.

The figures under "Modifications" and "Revised Estimate" are based on the assumption that the reappropriations necessary to give effect to them had been carried out before the end of the year. This was not in fact the case, but as the Finance Department have since sanctioned the resulting excesses under major heads within the grant, and as the actual expenditure was less than the total originally provided it has not been thought necessary to alter the figures.

I agree generally in the explanations appearing in the Statement with regard to variations between estimated and actual expenditure. In the following cases, in which a substantial variation is not explained, I have been furnished by the Chief Accounting Officer with the explanations noted below:—

	Revised estimate.	Actual expenditure.	Decrease.	Explanation.
	£	£	£	
Jails and Convict Settlements–Stores, Voted.	4,600	1,951	2,649	Decrease mainly due to reduced demands. Lump reduction of 7,000*l.* covering estimates for stores under all heads, including Jails, was advised by the High Commissioner in the February Revision, in accordance with the then existing arrangements regarding re-appropriation of grants, but was not accepted.
Medical: Leave and Deputation Salaries, &c., Non-voted.	11,000	7,632	3,368	Decrease mainly due to the curtailment by the Government of Bengal of the leave programme on which the estimate was based, no officer coming on leave in the last three months.
Superannuation Allowances and Pensions Commutation, Non-voted.	6,700	1,983	4,717	Anticipatory provision not fully utilised, though two or three applications in the last two months would have more than covered the provision.
Civil Works: Leave and Deputation Salaries, &c., Non-voted.	5,000	3,081	1,919	Provision retained in the January revision, advised to the Government of Bengal in December, for officers coming on leave during the last three months of the year was not utilised.

United Provinces of Agra and Oudh.

In Government of the United Provinces Civil Detailed Estimates for 1923–24 provision is made for Home Expenditure by means of two composite grants, one for the Secretary of State and one for the High Commissioner, with separate schedules of non-voted expenditure in each case.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the High Commissioner and the Government of the United Provinces.

The figures contained in the Statement appear to be correct, and I agree in the explanations furnished with regard to variations.

There was no excess on the total grant requiring report to the Legislative Council, the final figures being as follows:—

Budget.	Revised estimate.	Actual expenditure.	Decrease.
£	£	£	£
74,676	70,274	66,565	3,709

The sanction of the Finance Department to all excesses on minor heads has already been communicated to the High Commissioner by telegram dated 19th November 1924.

With regard to the excess provision of 3,500*l.* under Superannuation, &c.—Commutations, non-voted, of which no explanation appears in the Statement, the Chief Accounting Officer has informed me that, although no application for commutations chargeable to this head had been received, it was considered inadvisable to reduce the provision made in the Budget.

Punjab.

In Punjab Government Detailed Budget Estimates for 1923–24 provision is made for Home Expenditure, both voted and non-voted, by means of separate items allocated specifically to the Secretary of State or the High Commissioner under each subject head.

I have checked the Statement of Comparison by reference to the Estimates mentioned above and to correspondence between the High Commissioner and the Government of the Punjab.

There was no excess over the Revised Estimate of the High Commissioner's total voted expenditure under any subject grant.

All excesses on minor heads, both of voted and non-voted expenditure, are correctly exhibited in the Statement.

I agree generally in the explanations appearing in the Statement with regard to variations between estimated and actual expenditure. In the following cases in which a substantial variation is not explained, I have been furnished by the Chief Accounting Officer with the explanations noted below :—

	Revised estimate.	Actual expenditure.	Decrease.	Explanation.
	£	£	£	
Forest: Leave and Deputation Salaries, &c., Non-voted.	3,000	1,812	1,188	500*l.* of this decrease was due to reduction of leave programme and the balance due to the allowance for unexpected cases of leave not being required.
Superannuation Allowances and Pensions: Commutations, Non-voted.	4,500	—	4,500	Provision for possible demands, which did not actually arise, but which might have arisen even in the last month.

Burma.

In the Government of Burma Civil Budget Estimate for 1923–24 provision is made for expenditure in England, both voted and non-voted, by means of separate items under each subject head. In order to distinguish the transactions of the High Commissioner from those of the Secretary of State it is necessary to refer to their respective detailed estimates.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the High Commissioner and the Government of Burma.

Against an excess of 4,843*l.* on the High Commissioner's portion of the subject grant for Police, Voted, there was a corresponding deficiency of 42*l.* in the Secretary of State's Account. The resulting excess of Home expenditure, amounting to 4,801*l.*, must be combined with the corresponding figures of Indian expenditure in order to determine whether there was any excess on the grant as a whole.

All excesses under minor heads, both of voted and non-voted expenditure, are correctly exhibited in the Statement.

I agree generally in the explanations furnished in the Statement with regard to variations. In addition the High Commissioner has furnished me with the following explanation of the excess provision of 1,647*l.* under Superannuation Allowances and Pensions—General Pensions and Civil Service Annuities, Voted :—

> " Decrease mainly due to the want of sufficient data for estimating payments chargeable to this head under ' Voted ' as all such payments were treated as ' Non-Voted ' in previous years, and some possibility of further transfers to the voted head was expected."

Bihar and Orissa.

In the Government of Bihar and Orissa Civil Budget Estimate for 1923–24, provision for Home expenditure appears to be included in the various subject grants. There is not sufficient detail in all cases to enable the amounts allotted to the High Commissioner to be identified, but the figures were communicated to the High Commissioner by the Government of Bihar and Orissa and are correctly incorporated under " Budget " in the Statement.

The revised estimates of the High Commissioner's expenditure were forwarded to the Government of Bihar and Orissa in the ordinary course, but no intimation appears to have been received either by the High Commissioner or by this Office that the modifications necessary to give effect to them were sanctioned. If this was not the case the figures under " Budget " in the Statement must be used for the purpose of comparison with actual expenditure in preparing the Appropriation Account of combined Indian and Home transactions.

I agree generally in the explanations appearing in the Statement with regard to variations between estimated and actual expenditure. In the following cases, in which a substantial variation is not explained, I have been furnished by the Chief Accounting Officer with the explanations noted below :—

	Revised estimate.	Actual expenditure.	Decrease.	Explanation.
	£	£	£	
General Administration: Leave and Deputation Salaries, &c., Voted.	3,500	2,261	1,239	Decrease mainly due to the allowance for unforeseen leave cases not having been utilised, the expenditure dropping suddenly at the end of the year.
Administration of Justice: Leave and Deputation, Salaries, &c., Non-voted.	10,777	7,162	3,615	The revised estimate proposed by the High Commissioner was 7,720*l.*, the estimate of 10,777*l.* being the figure shown as revised estimate for 1923–24 in the Civil Budget Estimate of the Government of Bihar and Orissa for 1924–25.

Central Provinces and Berar.

In the Government of the Central Provinces Civil Budget Estimate for 1923-24 provision for Home expenditure on stores is shown as a separate item of the various subject grants. All other expenditure in England is included in a single composite grant, containing sufficient detail to enable the High Commissioner's expenditure to be distinguished from that of the Secretary of State.

I have checked the Statement of Comparison by reference to the estimates mentioned above and to correspondence between the High Commissioner and the Government of the Central Provinces.

The position regarding the portion of the single composite grant allocated to the High Commissioner was as follows :—

Budget.		Net total grant.		Actual.		Decrease.	
Voted.	Non-voted.	Voted.	Non-voted.	Voted.	Non-voted.	Voted.	Non-voted.
£	£	£	£	£	£	£	£
11,500	55,400	10,210	57,700	6,353	50,595	3,857	7,105

There was no excess under any head of voted expenditure. The excesses under minor heads of non-voted expenditure are correctly exhibited in the Statement and have already been sanctioned by the Government of the Central Provinces.

I agree generally in the explanations furnished with regard to variations.

The High Commissioner has furnished me with the following explanation regarding the excess provision of 3,100*l.* under Superannuation Allowances and Pensions, Commutations, non-voted :—

> "No information was available here of the additional provision of 2,000*l.* allotted under this head, until the receipt of the letter No. 1444 A/X, dated 31st May 1924, from the Government of Central Provinces, Finance Department."

Assam.

In Government of Assam Budget Estimate for 1923-24 separate provision is not made for Home expenditure either of the High Commissioner or the Secretary of State, which is presumably included in the general expenditure under each subject head.

The figures in the Statement of Comparison agree with those notified by the High Commissioner to the Government of Assam and accepted by the latter.

There was an excess of 987*l.* over the High Commissioner's revised estimate for Civil Works, voted.

Against a net excess of 67*l.* under Police, voted, there was a corresponding deficiency of 44*l.* on the Secretary of State's Account, leaving an excess of Home expenditure under this head of 23*l.*

These excesses must be combined with the corresponding figures of Indian expenditure in order to determine whether there were any excesses over either grant as a whole.

I agree generally with regard to the explanations of increase or decrease furnished in the Statement. With regard to the excess provision of 3,000*l.* under Commutations, the Chief Accounting Officer has informed me that this amount was retained to meet possible demands which did not materialise.

All excesses under minor heads, both of voted and non-voted expenditure, are correctly exhibited in the Statement.

General Administration.

Madras.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923-24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 1,913*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 1,520*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Bombay.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923-24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 3,282*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 2,294*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Bengal.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923–24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 4,226*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 1,579*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

United Provinces of Agra and Oudh.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923-24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 2,411*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 696*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Punjab.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923–24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 4,553*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 3,000*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Burma.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923–24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 1,738*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 1,971*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Bihar and Orissa.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923–24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 1,058*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition 157*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Central Provinces and Berar.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923–24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 647*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 250*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

Assam.

3. The total cost of the High Commissioner's Establishments is reduced, as explained in para. 5 of the Report on the Central Government's Account for 1923–24 (*vide* Annexure to this Report), by amounts which represent the local Government's share of the cost of those establishments.

The sum of 524*l.* included under the heading "General Administration" covers work done in connection with (*a*) the issue of leave pay and pensions, and (*b*) Indian students.

In addition, 28*l.* in respect of the surcharge of 2 per cent. on the value of stores supplied, has been included in the amounts charged for stores under the various service headings.

MISCELLANEOUS DEPARTMENTS.

Madras.

4. 6,407*l.* 1*s.* 8*d.* is included under this heading in respect of expenditure incurred in connection with the British Empire Exhibition. No detailed audit was made by this Department as the payments were made, under the orders of the Governor in Council, on "simple receipts." The accounts with supporting vouchers are being submitted to the Chairman of the Exhibition Executive Committee, Madras, and audited by the Accountant-General.

W. A. STURDY,
Auditor.

INDIA AUDIT OFFICE,
22nd December 1924.
